## Christopher ARRITT

### Christopher ARRITT - Source

Birth: 1742, Alsace-Lorraine, France<sup>1,2,3</sup>

Death: Feb 1812, Hampshire County, Virginia<sup>1,4,5</sup>

• According to “family tradition,” Christopher and his wife, Catherine, are known to have emigrated to the United States from Alsace-Lorraine with their son, Michael. An exact date is not given, but, according to the story, both parents died “shortly after landing in Baltimore, Maryland, from contracting one of the various plagues onboard ship.” Michael was subsequently raised by a family in Baltimore until he reached manhood, according to the story.

Several details cause me to question this story. First, the dates of death recorded for Christopher and Catherine of 1812 and 1819. Their deaths are seven years apart, yet the story says that they both died shortly after landing. Secondly, at the time of Christopher’s death, Michael, being born in 1773, would have been 39 years old and would not have needed to be “raised by a family in Baltimore.”

More logical is the possibility that Christopher and Catherine survived the crossing and settled in Pennsylvania with other Ehrets. They probably later moved down through the Shenandoah Valley of Virginia as many other families did. There is a Christopher Erret recorded as a member of the Militia of Berkley County, Virginia, in 1782.<sup>2</sup>

Census: • 1810 Census: Hampshire County, Virginia. 1 male 45+; 2 females, 15-26; 1 female 26-45.<sup>5</sup>

Military: • Christopher Arritt was in the 1st Battalion, Berkley Co., VA Militia. According to VA law, all males 16 to 50 had to serve in the militia. He was in Berkley Co., VA at the same time as Samuel Dew and Christopher Hermantrout.<sup>5</sup>

Spouse: **Catherine Mary WOLFE**

Marriage: 1770<sup>6,4,5,7</sup>

Birth: 1752, Harrison County, Ohio<sup>7,1</sup>

Death: 29 Jun 1819, Harrison County, Ohio<sup>1,5</sup>

## Descendants

### Michael ARRITT - Son

---

Birth: 25 Dec 1773, Alsace-Lorraine, France<sup>6,1,8</sup>  
Death: 6 Dec 1845, Potts Creek, Alleghany, Virginia<sup>9,6</sup>  
Burial: Potts Creek, Alleghany, Virginia<sup>6</sup>  
Father: **Christopher ARRITT** - Source (1742-Feb 1812)  
Mother: **Catherine Mary WOLFE** (1752-29 Jun 1819)

• Michael Erret, according to tradition, became a wagon driver and while driving a freight wagon to the Ohio territory, he came through the Potts Valley of what is now Alleghany County, Virginia, on the old Sweet Springs Turnpike Road. He supposedly fell in love with the valley and returned to live. More likely he fell in love with his future wife, Mary Magdalene Wolf, whose family lived in the valley. He and Mary Magdalene were married in 1795 and the marriage is recorded in the courthouse at Fincastle, Virginia.<sup>2</sup>

• Michael and Mary Magdalene lived with their children on Potts Creek in Alleghany County, Virginia. Michael is listed in Index to the Soldiers of the War of 1812 as a Private in the 108th Regiment of Shanklins Virginia Militia. As was common for the time, he got a substitute, Alexander Gray, to serve for him and no further records of his service are listed. Michael was a "Gentleman Justice" when Alleghany county was formed in 1822 and served as a County Supervisor in 1829. He was also Sheriff of Alleghany County from 1828 to 1829. He was also known as "Squire Mike." He owned and operated a General Merchandise Store on Potts Creek providing services from weaving flax and tanning hides to milling grain and selling coffee, flour, sugar, brandy, shoes, clothing, and hay and feed. Michael's heirs at his death in 1845 were his son, John, two daughters, Catherine and Elizabeth, and his (second) wife, Sarah (Humphries). His land, amounting to over 4,000 acres was devised to these heirs according to his will. Prior to his death, Michael had deeded portions of his land to the children of his son, George, who had predeceased him.<sup>2</sup>

General: • [In Potts Creek] iron ore mining was a chief industry during the 19th century.

The Double Ridge Mine, Bess Mines and Jordan Mines were among those giving employment to many people. During the peak of production at the Jordan Mines, 40 to 75 houses stood around the site of the present post office.

The mines closed because of the discovery of iron in the Lake Superior region, which was of better grade and cheaper to get to the mills.<sup>14</sup>

Military: • Did not serve in the War of 1812 but hired a substitute.<sup>10</sup>

• Michael Arret is listed in the Index to the Soldiers of the War of 1812 as a Private in the 108th regiment of Shanklins Virginia Militia. However, as was common for the time, he got a substitute, Alexander Gray, to serve for him and no further records of his services are listed.<sup>2</sup>

Death: 28 Apr 1922, Boiling Spring, Alleghany, Virginia<sup>52</sup>  
Burial: 30 Apr 1922, Lone Star Cemetery, Potts Creek, Alleghany, Virginia<sup>52</sup>  
Father: **George W. ARRITT** - G Grandson (23 Sep 1802-7 Sep 1839)  
Mother: **Mary Elizabeth ARMENTROUT** (1802-3 Jun 1860)

Jacob Anderson

- Son of George Arritt.<sup>54</sup>
- First married to Diannah Sizer, daughter of Fielding Sizer. He abandoned his family for some three or four years and left Virginia. He was seen in the east Kanawha Valley where he supposedly had gone to escape the war. While living in Gallipolis, Ohio, he married Nancy Ault who died during the birth of their child, Amilda. Jacob subsequently returned to Alleghany County, Virginia, in 1867 with the daughter, Amilda, and later married Margaret Lena Wolfe.<sup>2</sup>
- Of course, Jacob was not in the war.<sup>55</sup>
- [He] inherited land on Potts [Creek] as a result of death of Joanna Arritt who died intestate. He abandoned his family some three or four years hence and removed to parts unknown. He came back in 1867.<sup>53</sup>
- Alleghany County Land & Property Deeds:<sup>56</sup>
  - Nov 12 1868: Arritt, Jacob A. & wife to Moses G. Wright Trustee Deed book 6; page 300
  - Jan 9 1869: Arritt, Jacob A. & wife to L. A. Hall Deed book 6; page 318
- Jacob apparently left for parts unknown about 1861 and did not return until 1867. In the book where I found this information, I could not distinguish between 1861 and 1869. However, the 1867 was clear so you would have to assume he left in 1861 or perhaps a little later. At any rate, he was in Ohio in 1864 when Amilda A. J. was born. She is with him in the 1870 census, age 6.
  - In 1870, of course, he is already living with Margaret. I would very much like to find a

marriage record but so far no one has. Of course, it is possible Floyd was child of Jacob, even though he was married to Margaret at the time of his birth. I have my notes in a box with many other notes, about how long Dianah tried to collect child support from Jacob, when she started and when she stopped.<sup>38</sup>

- When I was a small child, I lived next door to Marshall and Sadie Crawford Wolfe and their children. I had no contact with them for at least 45 years. Sometime shortly after starting into genealogy, I got a letter from Sadie Wolfe. She gave me a lot of information at first but was not in good health. One of the things Sadie told me was that Jacob had gone to Gallipolis, Ohio and had walked all the way from there carrying his child on his shoulder and brought her back to Potts Creek. This child was Amilda Alice J. Arritt, mother of the above Marshall Wolfe. Alice was born in Ohio to Jacob and Nancy Ault who died in childbirth. I was told they were never married but I have never searched the records for a marriage.<sup>55</sup>

- Listed with Jacob in 1860 census; Covington, Alleghany county, Virginia.
- Listed with Floyd, age one, in 1870 census; "domestic servant," Covington Boiling Springs township, Alleghany county, Virginia. No male head of household.
- I have my notes in a box with many other notes, about how long Dianah tried to collect child support from Jacob, when she started and when she stopped. Unfortunately, that information has not yet been entered into the computer and I haven't had time to search for it.<sup>38</sup>
- Mrs. Diana Arritt, 92 years old, died at the county farm yesterday. Her funeral took place this afternoon at 1 o'clock. Interment was in the old cemetery on Potts Creek, in the Jamison neighborhood, where so many of her relatives were long ago laid to rest. Mrs. Arritt was the daughter of Fielding Sizer, who came to Alleghany from Rockbridge and founded the family of that name in this county. He was baptized in the creek under the Natural Bridge, and was famous in the annals of the county years ago. Mrs. Arritt leaves three children, a married daughter and two sons. One son lived in Covington until the past year. He is now said to be residing in the West.<sup>67</sup>

Marriage Notes: • I hereby certify that in conformity with the license issued from the Clerk of the County Court of Alleghany I joined together in matrimony on the 4th day of August last Mr. Jacob Arritt and wife Diannah Sizer. The Bridegroom is a farmer age 19 years the 9th of June last, was born in Alleghany County, is the son of George & Elizabeth Arett, his father is dead, his mother is living and is now the wife of Moses G. Wright of said county. The bride is the daughter of Fielding Sizer of said county, age 17 years, the 27th of Jan. last. Her father is now living in said county, her mother is dead and her name not recollected. Given under my hand this 22d day of September 1853. s/A. J. Elsmore.<sup>53</sup>

- Jacob and Deanna L Siger [sic] were mar. in 1853 by Rev. E J Elsman.<sup>16</sup>
- According to a descendant of Charles Monroe Arritt, Jacob and Diana were divorced because when he returned from the war he found her pregnant. She claimed it was because she was raped. She also believed Charles Monroe to be the only child of Jacob and Dianah.<sup>55</sup>

• Now about Floyd. I believe he was a child of Diana's but not of Jacob's. From the records I have found so far, when a child was illegitimate, they were bound. At least this has been my experience in Alleghany Co.

Unless there is information in the county records, there probably will never be a way to determine who Floyd's father is.<sup>55</sup>

• I still believe Floyd is Dianah's illegitimate child but would certainly like to find a way of proving it, or proving otherwise.<sup>38</sup> I have my notes in a box with many other notes, about how long Dianah tried to collect child support from Jacob, when she started and when she stopped.<sup>38</sup>

Mother: **Delilah**<sup>81</sup>

• Never married.<sup>129</sup>

• Mother given as Margaret Elizabeth Persinger; probable error.<sup>129,81</sup>

• I have been trying to figure out who Everett F. Arritt is, from the death certificate you sent me. I am unable to do so! This is such a surprise! The only John Henry Arritt I can find was not the husband of, but the son of, Margaret Elizabeth Persinger. He was born 2/12/1868 and I got the information from Faye Dishman. I see on the death certificate, Mrs. Elizabeth Dishman was a cousin of Everett Arritt. Margaret Persinger and John Arritt had no son named Everett. I will have to do some more work on this person.<sup>38</sup>

Doris Mae

- Parents are Ormal Short and Florence E. Arritt.<sup>156</sup>
- As some of you may know, Doris Andersen has been having pain in her legs from some time now. She came to the States in May for the birth of her granddaughter in Maine. It was recommended before she came that while her she see a neurologist - thinking her pain might be caused by a pinched nerve. However, the diagnosis is far more serious. Doris has ALS better known as Lou Gehrig's disease. The prognosis is heavy. This has been devastating news for the Andersen family. Howard is closing up their work and home in Gatab, Kenya and will head for the States on August 28th. He and Doris will come to California the first of September. As you can imagine, there are a lot of details to be worked out and they need a great deal of wisdom. Andy and Margaret will come down [sic] from Tanzania to help Howard pack. Eddie will return to the states with his Dad and Phillip will remain in Africa for at least a year. Please pray for Howard, Doris and their children.<sup>184</sup>

- Doris Mae Short was born in Pacoima California to Ormal and Florence Ellen Short. Her father died when she was six and she was reared by her mother who encouraged her to take church seriously. Upon graduating from San Fernando High School, she enrolled in Azusa College where she studied Elementary Education and Bible.

There Doris told God that if He gave her a husband, she would be willing to go to the foreign mission field. About that time she became aware of an MK who was studying Bible and Missions. He enticed her to start attending Church of the Open Door where Dr. J.

Vernon McGee was pastor. Doris and Howard Andersen were married just one week after their graduation. That was June 12, 1964. By November 1965 they were accepted by Africa Inland Mission. They were to leave for Kenya as soon as support could be raised. The Lord was faithful and they departed from Henry St. in Brooklyn in February 1966 to fly to Kenya.

Her first assignment was to teach 4th grade at Rift Valley Academy and learn Swahili from Ed Arensen. By November 1966, Howard was looking North and Doris caught the vision to reach the nomads of the NFD and specially at Gatab on Mt. Kulal.

Living was not easy then as there were no roads, no houses, no out-houses, and no running water. By perseverance and grace the work was started and water, roads and houses all came about in time. The Church was started, believers listened and some grew in their new faith. The school was started and the dispensary opened.

Doris went to Kijabe to have her first child and was blessed with two. Andrew John and Tamara Lynn were born April 8, 1968 and were a surprise to all except mama who felt she was carrying an octopus. After the twins, Philip Jefferson was born December 29, 1974, and Edward Earl was born December 21, 1976. The Lord engineered this well because the older set could help mom with the younger set. When the twins graduated from RVA the younger set were just starting Jr. Hi. When Tammy and Andy graduated from college mama could concentrate on two at a time as she was teaching in the Gatab Primary school and doing adult literacy and women's meetings.

Living at Gatab involved much hospitality as airplane loads of visitors, Government Officials, and friends needed tea, food and shelter. Doris never complained about the extra work of helping visitors, she took it as part of ministry. She kept home being home, being gifted in the arts of homemaking. Howard had to be away often with church problems throughout the District, but home was always beckoning.

She was thrilled when Andy was married to Margaret and they decided to go to Tanzania with TIMO. This was doubled when the Lord called them to full time Service with AIM in Tanzania. When Edie came to Kenya in 1998 to visit and work as a volunteer building the Secondary School at Churo, she could not resist going to assist and make sure of his welfare.

About this time she began to feel weak in her knees and consulted doctors in Nairobi. An MRI and surgery were done in Nairobi December 12, 1998 to open the nerve channels in the lower spine. This returned feeling in her feet but loss of strength continued. It was decided Doris Mae should go in April and consult specialists in Maine where Tammy was living with her husband, and awaiting the arrival of their fourth child. The specialists came

to the conclusion that she had ALS (Lou Gehrig's Disease) which was expected to be terminal. Doris gave it to the Lord and said that it was His business and we were willing to learn what He wanted to teach us.

Howard left Kenya on August 28, 1999 and they went to California where Church of the Open Door had prepared an apartment. Doris was able at first to get around with her red walker, then later with an electric wheel chair. Andy and Margaret came to California for the month of October, 2000 to be with Mom before she was too weak to enjoy the visit. Then we came to Media, at AIM's suggestion, where we would be among familiar friends. Tammy invited Mom and the family to visit her for Christmas. On the return from the visit to Maine she wanted to sleep. She did so and did not wake up. She was ushered into her Heavenly home where she is now able to move without difficulty and praise her Savior.<sup>185</sup>

- **Establishing the Mission Station:** During the annual AIM missionary conference at Kijabe in December 1966, the AIM Field Council asked Howard and Doris Andersen, Paul (Junky) and Betty-Lou Teasdale, and Charlie and Doris Barnett to build a road up the steep hill to the top of Mt. Kulal and construct a mission station at Gatab, a distance of 400 miles from Nairobi.

However, Gatab was deemed a dangerous place by the British Colonial Government. They would not allow their wives to accompany the missionary men. But Betty Teasdale (a missionary kid) said, "Hello, I lived where the men were killed in South America. If it's dangerous for the women, it's dangerous for the men. They are either taking us or they're not going because I'm a missionary kid, I'm outspoken." So the Government said, "You need to have six armed policemen with guns." But the missionaries objected, saying, "That means we will need to feed them."

Instead, they agreed to carry six guns to help defend themselves. In the end, they never used them except to shoot over the heads of raiding Boran. Later a contingent of police was stationed at Gatab.

All three men were AIM missionary kids: Charlie Barnett (grandson of Albert Barnett and son of Erik Barnett); Howard Andersen (grandson of Andrew Andersen and son of Earl Andersen); and Paul Teasdale (son of Charles Teasdale).

They all agreed to build the road to Gatab, bought equipment and prepared for this challenge. The work started in February 1967. Earl Andersen brought six Rendille men to help. Massive rocks had to be moved, a major challenge for these men. They used crow bars, seven feet long, to loosen the rocks and roll them down the hill. Tree trunks and bushes had to be removed. For the lower section they were able to use County Council machinery for road making, but the last 3 ½ miles had to be built all by hand labor. Switchback corners were made large enough for trucks to twist and turn up the mountain road. Once the rocks were removed, the road surface was smoothed with a grader. The wind was so strong that it blew their tents down. In fact the highest sustained winds in the world are at Lake Turkana.<sup>194</sup>

- Trust you got the BIG NEWS about Howard's forthcoming wedding in Sept. That was a surprise for us to hear. I have since received a letter from Virginia Jones, and , to be sure, she is an active kind of person! She's been widowed for eight years, used to work in the Congo and CAR [Central African Republic] and hasn't been idle since she's been in the US. They met through church, she is the "Harvesters" class president, Howard is the class teacher. I've received a two page handwritten letter from her by means of introduction more words, I think, than I ever received from Doris. Don't mean to compare them, though. However, one cannot but help notice that they most definitely are different kind of gals! For one, Virginia writes about her and Howard as actually engaged in conversation...she writes, "He and I often play 'Can You Top This', but his Kenya stories always supersede my Congo/CAR ones :-)" and "your dad tells me all about your boat

ministry"...she continues, "It's just a beautiful story of love from God that brought your Dad and me together." She sounds a bit like a whirlwind of a woman...I hope Howard is up for it, I'm not convinced a domineering woman is so good for an Andersen, however, I'm sure Virginia is better matured than myself and Howard may well be ready for some energy in his life!<sup>195</sup>

- Your genealogy papers arrived just before we left for Greenville SC & the 50th of my childhood N[ew] E[England] friends (I was in wedding). When I read that Howard goes back to John Alden & Priscilla (a story every kid knew when I was young in Mass!), I told him he was "in." Lil mentioned to sister Fran "why we know nothing of this man Ginny is marrying!! - the JA & P connection worked."<sup>196</sup>

- **Missionaries Train Congolese Refugees the Skills of Finding Water**

Oicha, Congo: AIM missionaries, Howard Andersen, and his son, Andy, third and fourth generation missionaries respectively, minister in Africa following in the tradition of their father and grandfather as pioneer missionaries. Both have engineering bents along with the natural, "making do with what you've got" skills learned by growing up on the mission field. In particular, both are skilled in finding and managing water supplies.

So, Chris Hamilton, AIM's Congo Relief Coordinator, immediately thought of Howard and Andy when thousands of refugees, fleeing renewed fighting, streamed into her refugee center in Oicha. With water in short supply, emergency action had to be taken. In a flurry of fast-paced radio calls and permissions, Chris had her husband, Dale, a pilot, fly the father and son to Oicha to see what could be done.

Surveying the area, Howard said, "...it became evident that there was lots of water there, they just needed to know how to find it." Selecting a group of men, the missionaries taught them the skills of finding water. By day's end they not only located four good spots to dig wells, but were also able to calculate the depth of the water.

While the wells were being hand dug Howard said, "We also made suggestions as to how to improve the water sources that were being used."

Now, as a result of this hands-on training, the refugees will be able to go ahead and locate water as needed. Not bad for a day's work.<sup>197</sup>

- **Flash Flood**

[excerpts] The African darkness crept through Kenya's Northern Frontier District while a steady rain reduced visibility for the three passengers crammed in a heavily loaded Toyota Land Cruiser which slushed along the mud road leading to the Ngororoi water project. A crew of some 90 Samburu tribal workers waited anxiously for the three occupants to

arrive.

Anxious, because AIM missionary, Howard Andersen, his wife Virginia, and missionary volunteer, Roger Green, had the supplies and money needed to finalize the last one-half mile of work to conclude the three-year project of building a pipeline bringing both life-saving water and the gospel to this desert tribe.

Heavy rains had washed out a 50 yard section of the main macadam road, so they were forced to use this less than ideal secondary road. However, with skills learned from 40 years of navigating African roads, Howard effortlessly maneuvered the burdened vehicle around pot holes and through long patches of mud.

But a major concern lay ahead: crossing the bridge-less river. Most of the year it was dry, or at most contained only a trickle of water. However, during the rainy season (which had just begun) the innocent trickle often became a raging torrent.

So it was with a sigh of relief when the missionaries arrived at the river bed and saw it only had about six inches of water flowing lazily toward Lake Baringo. Squinting through the darkness and rain Howard could see a path of rocks strewn across the wide river expanse providing a solid track to the other side. Satisfied, he geared the Toyota into four-wheel drive and inched his way down the steep, muddy bank and onto the rocks.

That's when disaster struck...

As they started to cross the river, a tire slid on a rain slick rock, wedging it between several other rocks like a vise. Stuck! It was impossible to move the vehicle either forward or back. Howard told his wife and Roger to stay in the Land Cruiser while [he] went outside and try to jack up the vehicle to free it from the wedge.

No sooner did he step into the ankle deep water, when he sensed the sound of rushing water. Then he heard cries from Africans running to the river bank yelling, "The water is coming! The water is coming! Run! Run!"

A flash flood...

The ankle deep water was now up to his knees. Rushing to the car door he yelled for Roger to abandon the vehicle, at the same time he grabbed his wife – the water was rising fast!

Scrambling, they clawed their way up the muddy steep bank just as a wall of water torpedoed an uprooted tree into the Land Cruiser.

Exhausted, they looked in horror as the angry rushing water swept not only their vehicle, but all their supplies, tools, food, clothing, computer, printer, and \$5000 worth of Kenya shillings downstream toward Lake Baringo.<sup>198</sup>

Valley Academy, a boarding school for missionary children. In 1967 they began a new mission station at Gatab with church planting and nurturing, construction of roads and buildings, water engineering, managing a fish project, and opening a new work with other missionaries.

They returned to the states in 1998 due to Doris' illness, living at the AIM Retirement center in Florida. After the death of Doris (due to ALS) in January 2001, Howard continued to work on staff at the retirement center. He continued his 2-month trips to Kenya in 2001 and 2002 to work on the Ngororoi Water Project. He married Virginia Jones, whom he met at the retirement center, (a retired Congo missionary) in September 2002. They are now on staff at the AIM retirement center and have done some short-term assignment in Africa.<sup>199</sup>

- Dear Dr. Ted,

Greetings from Tanzania.

Regarding your question:

My impressions of Dad's work in Gatab surroundings is in regard to the long-term influence of a missionary. Over many years Dad has been involved in the lives of Samburu people teaching his own workers daily, preaching on Sunday, and sitting in elder meetings across the Northern Frontier of Kenya, as it used to be called. He worked to meet physical needs as well, creating and maintaining a water supply for a whole village, including a local police post. He helped build a dispensary and assisted nurses with their mechanical problems (car, electricity, medical evacuation). When 90% of the cattle of the Samburu in the Kulal area died due to famine, Dad organized a food-for-work program that both saved many people from starvation, but also improved the infrastructure of the water system and local roads.

This sort of care was summarized for me when Dad was honored by the community, given the ceremonial shuka and fimbo (blanket and staff) of the elders of the Samburu. Looking back into the Old Testament we read that Boaz went to the city gate to get witnesses. These were the elders of the community. In the same way dad has lived and worked among the Samburu people fostering them, teaching them, and sitting among the elders of the land. I look forward to seeing all the men, women, and children from that community who will see the face of Jesus because God had chosen dad to work among the people of the land in this way for so many years. Dad traveled over many dusty, thorn ridden roads and paths to bring the good news of Jesus to Samburu villages, and other towns stretching from Wajir to Ileret. This is the heritage that stretches beyond this world, more valuable than money, more lasting than gold.

I hope this helps. I could probably write more, but its probably not good to boast too

much...

We evaded her all along the way, changing our route outside of D.C. only to meet her in the cottage we were staying in Rumney NH at the conference grounds. We lost our lights for 2 days and that posed problems with no water & lights so we lived African style until power returned. We vacated that lovely cottage (thanks Dinah T.) & went across the way to friends Ken & Esther Ward for what was to be 3 days before heading to Tammy & Cleve's to meet up with Phil, Katie & Mae coming from England via Boston. But on Fri. Sept 2nd Howard went into diabetic shock when we were driving through Grafton, NH. I cannot relate the story except to say that the Lord undertook for me in ALL the details to this day. We family members & Wards viewed his remains in New London NH funeral home Sat. evening.<sup>203</sup>
- Howard Andersen, retired AIM missionary, Andy's dad and beloved husband of Ginny Andersen, went to be with the Lord. Our last word from them was very encouraging, as his health was good and they were in the midst of a three week trip up the East Coast to visit family and friends. If we understand correctly, while sightseeing in New Hampshire, Dad

went into a diabetic coma and couldn't be revived. Margaret [Mills Andersen]<sup>204</sup>

- Dear Andy, Eddie & Families,

We share with you in the loss of the father and grandfather of your immediate families. Though we know Howard is with the Lord, and no longer has any medical problems (or any other, for that matter!), his passing leaves a big gap in the family. As you know, he was in the same class at RVA as Art, and they/we have enjoyed lots of stories, safaris, and fellowship in the years since we joined him and Doris as missionaries here in Kenya.

When we heard the news, one of my thoughts was that now Van has another bush missionary from Kenya with whom to share stories.

Praying God's peace and provision for you now and in the days ahead.

With love,

Mary Ellen & Art [Davis]<sup>205</sup>

- JOHN HOWARD ANDERSEN

J. Howard was born on August 13, 1942 to Earl and Esther Andersen in Kaimosi, Kenya. He was the youngest of three boys, Herbert (Dilly) four years older and Willard two years his senior. As His parents were second and third generation missionaries, Howard grew up in Kenya as a very immersed MK in Africa culture and living.

He came to the Lord at an early age schooled in the Word at the knee of his parents. His childhood was a happy one. He had all his schooling at Rift Valley Academy, except for two different times in the states, with first grade in Rhode Island and seventh grade in Pennsylvania with eighth grade in California. He attended and graduated from Azusa Pacific University in CA where his grandmother was a professor. He worked all four years in the maintenance department. During his first week he wandered over to their shop and saw a disabled forklift which no one could start. He asked them if they wanted him to fix it and they gave him a try. It ran and he was hired on the spot and expected to finish up when he received his BA in 1964. But he continued to work in the maintenance shop for a year after graduation until he and Doris left for the mission field, debt free. He had met his first wife Doris at APU and they married on June 12, 1964.

His goal when he began college was to return to Kenya as a missionary. As a member of Church of the Open Door, Los Angeles he also received more excellent training and preparation for the mission field. Doris shared his missionary vision and soon after graduation and marriage their support came in quickly. By November, 1965 they began their safari across the US (in the winter so it was eventful) to Brooklyn NY and AIM. Their

first assignment in Africa was to Rift Valley Academy at Kijabe where Howard rebuilt Jubilee Hall and Doris was a 4th grade teacher. They were content with this assignment but God had more in mind for them.

During this time the then Field leader, Erik Barnett, his father, Earl Andersen, and Dr. Propst were concerned about the Northern Frontier District of Kenya. The British had never allowed missionaries up there except a few Anglicans and R.Cs. These three men made a survey trip to Mt. Kulal where a desolate place called Gatab rested. They heard that there was water at the top of the mountain above Gatab that the British had harnessed to some extent. With the permission of the new, independent government of Kenya, they made the trek and returned to find recruits. Howard, Charles Barnett and Paul Teasdale answered the call. They left with their wives in February 1967 for this new pioneer work. Just building the road up to Gatab was a challenge as they had to have firearms in one hand and pick and shovel in the other. This was due to the fact that raiders made havoc in the area, killing people and stealing cattle. Tribe fighting tribe. The fact that they had a spot light at night in their camp (that scanned the area hourly) and rifles constantly on hand, made an impression on the locals. One day 200 Samburu were found in their camp when they returned from road work. As 11 had been killed and cattle taken in a raid the night before, these people wanted to live near them. They didn't mind that these men were missionaries and had the Words of God for them. They wanted security and peace, From two or three men they had previously seen about, they now had an instant village of 200 plus. Thus began the missionary work at Gatab. Howard and the other two missionaries built the church, school, and dispensary before Charlie and Paul left Gatab for other ministries. From 1967 to 1999 Howard and Doris remained at Gatab. During this time their four children were born; twins, Andrew and Tamara, sons Philip and Edward. They all are serving the Lord with the three boys as missionaries in Africa and Tammy as a wife and mother serving in a church in Maine. As Howard continued at Gatab he saw the need of a Dormitory for the children of the nomadic Samburu herders and thus built Haven Home that was funded by Mary Rosell Ministries. He also built a Nursery School and some Outstation Churches. Many of the students who went through Haven Home are in high positions today in government, medical, church and education jobs. Gatab has contributed greatly to the spiritual, material and physical life of the NFD.

Beyond Gatab, Howard was Executive Secretary of the DCC and responsible for the entire Marsabit District for AIM and AIC. He traveled on a monthly circuit visiting each church in the district and covered many miles over rough terrain and desert tracks considered roads. He did many water projects, and made 130 kms of road building, sometimes with his

father and sometimes with his brother Dilly. He built over 45 kms of pipe lines. His most amazing accomplishment in this area was when he was asked in 1999 by the chief at Gatab to harness the water in the Ngororoi Canyon to bring it down 8½ kms by pipe to the water tank sitting empty at Ngororoi. This was attempted unsuccessfully by another NGO. It was at this time that Doris became unwell and she left for the states in April to be near Tammy and have further treatment in Maine. When the possibility of Lou Gehrig's was the diagnosis Howard left Gatab in September of 1999. They were assigned to the AIM Retirement Center in Florida in October 2000 where he eventually became Maintenance Manager while caring for Doris. Doris passed away on January 2, 2001. Howard continued in his assignment at Media but returned to Gatab for three months the following two years to get the water project started. On September 28, 2002 he married Virginia Jones, who was residing at Media, and she joined him in this water project venture in May, 2003. The water project was successfully completed in July and he began to build a church and pastor's house for the new village of Ngororoi. They returned to the states in December 2003 with the completion of Phase One (the physical water) and Phase Two (the church and pastor's dwelling). Phase Three followed with the completion of the airstrip, and yet to come a school, a meat processing plant and a dispensary to make Ngororoi a strategic village of Marsabit District. It began with an African Chief's request to harness water in a canyon high up in Mt. Kulal to come down to a tank and trough, producing 500 gallons of water an hour, for the benefit of people and animals in an arid area of Kenya.

Howard retired in 2007 with over 40 years of faithful service. God alone knows the fruit of Christ that has resulted from his labors. His favorite hymn was "I will sing of my Redeemer, And His wondrous love to me. On the cruel cross He suffered, Paid the debt and set me free." He was a man of quiet humility who only wanted the Lord to be glorified in his life and in his death with a song of praise only to his Redeemer, Jesus Christ.<sup>191,203</sup>

- I was comforted a few days ago in talking with Esther. You remember we were with Ken and Esther when your father went Home to Glory. She said that when they went to Ken's diabetic doctor in Laconia NH, they told her the story of what happened. She said your father didn't die of Diabetes, but of heart. I can believe that as he developed a heart problem a year or so ago that put him in the hospital. He had to carry a bottle of nitroglycerin with him but I never knew how it worked and I believe he developed a problem down in the mine that didn't appear to be from diabetes. I can't understand how doctors can give the patient that little bottle and not clue his wife. Under those circumstances he is unable to use it. It is of no consequence now but it does give me

understanding as it was a great trauma to me. God is mindful!<sup>206</sup>

- Dear Andy,

In catching up with the AIM emails in my inbox I just read about the home-going of Howard. I did not know until just a few minutes ago that he passed on to glory in early Sept. I feel bad now that I missed this news and thus missed a chance to sit and reminisce a bit with you at conference in Dar. In fact we never really got to chat this year. Purity and I were plenty stretched with being liaisons for the children's team and with our little ones. In fact conference wasn't all that enjoyable for me this year. But, so be it.

In thinking back about the time I spent with your dad and mom at Gatab in the summer of 1990 a few things stick out and I wanted to pass it on to you. Did you know that your folks were the very first AIM missionaries I met? I stayed with them up at Gatab for 2 weeks. I remember hearing your mom say how much she looked forward to the annual missionary conference as she cherished the time to hang out with other ladies. Your dad followed up on the heels of her sentiment with something about how much work needs to be done around the station and that it's fine to go to such events but "plenty of things to do here as well." He definitely was a hard worker. I remember another thing and that was how generous your dad was one day to the police chaps that happened across Gatab station one morning. They showed up with some story of an old Land Rover that ran out of fuel out in the Chalbi desert. They needed to be bailed out and hoped Howard would spot 'em some litres with a promise to bring some back to repay "kesho." He laughed a bit with 'em and then we all took off in his (tan) car to rescue them. I didn't think much of it that day, but now some 21 years later and with my African experience I realize that he was being a good neighbor and was just plain generous, even with such a rare and treasured commodity as fuel in the bush. I think he even told me on the side after they barreled off something to the effect that "they'll never pay it back but I'm glad they're around to help patrol."

Last memory was one of those nasty hairy little caterpillars they got up there. One day your dad gave me and the other 19 year-old I was with a job to chop away the bushes from the generator housing. He warned us to watch out for the little buggers cause they are fire on the skin. I was as careful as could be but the hairs they left behind found their way into my arm. Ouchie-wawah!!! It was not pleasant. And soon they gave me some black Protex soap to wash it off. We ate meals with them, had chai and heard stories. Your parents were both good to me some 21 plus years ago Andy. Your dad took time to tell me about the candelabra trees and then even allowed me to snatch a photo of a small group of camels as this herd boy raced toward me yelling and mad as could be one day as we

cruised across the Chalbi desert on that police rescue trip.

Your father Howard was hospitable to me, a young 19-year old whipper snapper asking a lot of questions and I'll always be grateful to God for those two weeks I spent with him.

I know some weeks have passed now since his passing and I'm sorry for you and your siblings for it. But just wanted to share with you this.

God Bless you Andy!

Forrest [Haskins]<sup>207</sup>

- I got to thinking today as we cleared up from a windstorm, just how much time is spent surviving out here in Dukana. It reminded me of a saying my Dad (Howard Andersen) used to tell visitors. He used to say "living in a bush location one spends 90% of your time surviving and 10% doing the ministry you thought you were supposed to do." That seems like some pretty inefficient work if you measured it like an industry but what I found when visiting his old ministry location was definitely the opposite. Everyone I met had a story of how my dad had changed there lives and one man in particular pulled me aside to say that Dad was one of the greatest men he ever knew; one of greatest of this past generation. One who will never be forgotten. Apparently the ministry of survival spoke to the hearts of those whom my Dad worked and maybe the 10% helped. But really God definitely will make use more of us than we ever think possible. Everything we do speaks volumes!

Praise God that he calls us to greater things than we can imagine!

Biography: • Perhaps this is a good genealogical note about the last church plant Howard made with Pastor Scarborough, whom you met [July 2012] at the house church. I will write to his widow, Joy.

Nice that the group has giving us six months advance in bringing an end to their monthly pledge of \$100. That is very generous.

pastor Carlton Scarborough, went to be with the Lord on May 8th at the age of 84. He was a pastor for over 51 years. He and your Dad started Bible Fellowship 2 years and 3 months ago and it was our joy to support you 3 missionaries, Martha Pontier, now with the Lord, Eddie and family and Andy and family.

I just sent in the AIM \$615 for each of your families that will complete our yearly pledge (Joy, I added \$5 to make it \$1230 that I sent in to AIM) which is amazing as we were so few at the end. Some moved away, some are ill and homebound and others were called to GLORY, their earthly journey completed. Pastor Carlton always wanted us to uphold our missys in prayer each week. You were so special to our group and the Lord blessed our fellowship.

I just read your latest e-mail with prayer and praise for your Kahunda ministry and it is a joy to see how the Lord is blessing the work there. Wonderful news on LVCA and how it is growing and being recognized by the government, getting water and electricity. I heard from Pastor Daniel this week and the work is growing there. It seems that some skirmishes in the area including Gatab have sent people to hide in Ngororoi that has swelled the ranks. I do not understand it but he is asking for prayer and guidance for a needed dispensary which I can understand. I do not know if you are back at Kalacha, Eddie and Rachel, but I pray all went well with your road trip.

May God continue to provide for your every need and bless your ministry for Jesus,  
Love in Him, Ginny<sup>208</sup>

Family Notes: • During this time Howard attended Azusa Pacific University where he met and married Doris Short. They applied and were accepted by the AIM, and left for Kenya. For the first six months they lived with us at Kijabe until a small house was made habitable for them across the Girls Stream and close to the African Girls' High School. Doris taught at RVA, while Howard did general maintenance for the station, following his granddad's and dad's footsteps.

One school vacation, we took a safari into the north where the mission was considering opening a station. We camped at the foot of Mt. Kulal and the next day climbed up to a water hole that was the proposed mission site. Long ago the British had put in a water

---

---

supply for the local cattle. Since that time nothing had been done. It was a long, long, hot climb. We kept encouraging Doris that our destination was "just around the next corner." I, reverting back to my naughty childhood, insisted that there was no need for them to set up a station because I was "evangelizing" at every corner. Being in the process of learning Swahili, I had memorized John 3:16, which I repeated several hundred times as we climbed. Someone had told us of a missionary who had returned to England with the message that he had evangelized a whole tribe in this way. Knowing that there is a lot more to mission work, and although we thought it a funny story, I had fun with it that day. It also kept up my spirits as we climbed Mt. Kulal.

The destination was very worthwhile, because Gatab was definitely a beautiful place. Being high on the mountain, the weather was temperate and the vegetation green. Cedars grew there. Higher up the mountain, we could see the virgin forest. Already people had settled because there was a water supply. On this first exploratory hike, we mainly saw the water and agreed it would be a worthy place for work. Later the mission got twenty acres on which to build Gatab Station. The home sites look across the valley to Lake Turkana. The views from the station are truly awesome.

Howard and Doris moved to Gatab and helped to establish the work there.<sup>209</sup>
