William Roberts ECKART

William Roberts ECKART - Source

Birth: 4 Apr 1809, Quebec City, Quebec, Canada [22, p 1, note 10], [7234]
Baptism: 30 Apr 1809, Quebec City, Quebec, Canada [22, p 1, note 10], [7234]
Removal: 1842, Cleveland, Cuyahoga, Ohio [1998, p 2]
Death: 12 Apr 1869, Cleveland, Cuyahoga, Ohio [235, gives 13 Apr 1869],
[6129, p 6]
Burial: Erie Street Cemetery, Cleveland, Cuyahoga, Ohio [235]
Death cause: Heart disease [235]
Father: **Jonathan ECKART** - Father (29 Jun 1770-8 Jan 1812)
Mother: **Elizabeth ROBERTS** - Mother (abt 1773-9 Feb 1812)

- William, a minor, Quebec. [7149, p 3]
- The William Roberts whose namesake he was has not been identified but was certainly a close relative of the mother, Elizabeth Roberts, probably either her brother or an uncle. [22, p 1, note 10]
- Attended Garden Street School, July 1817. [8334]
- Was present at the burial of his youngest brother, Henry, 5 Jun 1831, in Quebec City. "While he could have been visiting, it seems more likely that this places his migration to the USA at some time after 5 June 1831." [22, p 2, note 17]
- His [George R. Eckart] father, W. R. Eckart, moved from Quebec, where his birth occurred, to Ohio when a young man, settling in Cleveland, where he was engaged in business as a miller and a commission merchant until his death. He married Eleanor Carlisle, who was born in Chillicothe, Ohio, where her father, John Carlisle, was a pioneer resident, settling there in 1798. [209]
- His father [William Roberts Eckart] was a merchant, with shipping interests in vessels on the great lakes. [244, p 278]
- His father, William R. Eckart, was a merchant of prominence, who, at one time, had large shipping interests on the Lakes and, later, a managing interest in the Putnam Flour Mills, at Zanesville, Ohio. [245]
- [from] Cox and Eckart [exterior of letter]

[inside]

Chillicothe 5 November 1838

Dear Sir

Some days back we valued on you for \$200 at 10 days – at maturity – you will please not pay the draft. We have had some difficulty with the party to whom we gave the same Messrs Galloway & Myers of Lancaster. You will of course write those gentlemen the reasons why you did not pay the same stating of course that it was at our particular request you did not do so. We shipped a day or two ago some whiskey to [unclear]. They will give you some of it provided you have sold the balance. Those gentlemen are under advances to us and we therefore are bound to ship our whiskey to them. But as fast as you can sell and pay them they, if they have any, will give you a portion.

Your friend,

Capt. Eckart [6236]

(in different hand at bottom of letter: Letter marked A and referred to in the deposition of D. Hersh (?) hereto attached. L. M. Martin)

- “I [George Armstrong] will give you all the information she [Mae Eckart Armstrong] has about the Eckart family.

Your Husband’s [William Rankine Eckart] father and grandfather were born in London. They moved to “Quebec, Lower Canada” when Wm. R. (the son, was a small lad). Wm. R. was born about 1816 or 17 and died about 1876 or 1877 [sic] at Cleveland Ohio and is buried there. He lived on Euclid Ave. & I understand had a mansion which is now some kind of a Club’s house. He was married may be three times:

1st at Lancaster, Ohio -- Jany 5th 1838 to Anna Maria Cox

2nd at Chillicothe, Ohio -- Aug 24 1840 to Eleanor Ann Carlisle

3rd at Chillicothe, Ohio -- Oct 18 1864 to [crossed out]

Mae’s father [Isaac] was born Dec. 11 1837 & died Sept. 21st 1905 - & was married Oct. 18th 1864 at Chillicothe Ohio to Rebecca White. When Wm. R. Eckart (Mae’s Grandfather) was married he wrote in the family bible that he was from “Quebec Lower Canada.” I understand that there is where his father is buried. Mrs. Armstrong’s father often said that his father & grandfather had tried to trace back their family line and find out where the name came from but could not do so & that the grandfather of your husband dropped off the final letter “d” & it was changed

from Eckhardt to Eckart. The name certainly sometime came from German source but it must have been back generations.

Mae sends love -- little Virginia Kerrick, Mimi's daughter, was 8 yrs old on the 19th of March.

Yours respectfully,

Geo. G. Armstrong [151]

- W. R. E.'s father came to Ohio from Quebec — had a managing interest in Putnam Flouring Mills. Note also says "built(?) Bulwer Standard Mine at Bodie." Robert Merriam who married (my Great Aunt Lillian Kindred, on my mother's side) also worked for Union Iron Works (he knew WRE). [3920]

- The source of my information is actually your grandfather, Will Rankine. When I was in college, I did a short paper on the Eckart name. Not a very good one except there is some factual information. For instance, our great grandfather has Junior (Jr.) after his name. His father William Roberts Senior (1816-1876) and his father (no name or date) were both born in London. They moved to Quebec, Canada when Will Roberts Senior was a small boy. The father was buried in Quebec and Will Roberts Senior migrated to Ohio. He's buried in Cleveland. [3352, pp 1-2]

Census: • 1840 Census: Chillicothe, Ross, Ohio. 0010111/000011. [1611]

- 1860 Census: Zanesville, Muskingum, Ohio. Age 51, flour mill, b Canada. Residing in hotel. No presence of spouse. [1671]

Research: • Is he the Eckert of Cox & Eckert Porkpackers? [641, p 224]

- Cox and Eckart mentioned frequently. [6234]

- Have not found him in 1850 Census; Ancestry.com, 2 Sep 2009.

Research: • Refers to the pork-packing firm of Cox & Eckert. Is this Anna's father?
[641, p 224]

• I have large oil paintings of my great-grandfather and one of his wife, Anna. They have been in storage for years. (Too large to hang in our rooms.) [3450, p 2]

• Judging from the two weeks or so between Isaac's birth and his mother's death, I would assume that Anna Maria died from complications in pregnancy or childbirth.
[7224, p 1]

• Died,

At Lancaster, on the 3d instant, at the residence of her father, Teunis Cox, Esq., Mrs. Anna Maria Eckart, wife of Mr. William R. Eckart of this place. [7849, p 2]

EDITORS COURIER:

[excerpts]

It is now my duty to report the result of our engagement at Vienna [Virginia]. You have doubtless heard by telegraph that the first Ohio was cut up, but such was not the fact.

We lost nine killed and several wounded.

A cannon ball passed close to Capt. Hazlett, a shell burst in the centre of the 2nd car, killing two men, breaking Lieut. Eckart's sword in his hand, a piece striking and slightly wounding him on the head.

On the whole we got off lucky. Their loss was six killed. We are now waiting for a chance to meet them fairly and if we don't pay them, then there is no God in Israel.

The following list of the wounded at the fight at Vienna, we obtained from an Ohio Letter:

Lieut. Isaac Eckart, slightly. [8473]

- Jan 1st, 1863.

Let those who talk of conciliating the South read Jeff Davis's message. They might march toward the South with olive branches enough to be mistaken like the branches borne by the troops of Macduff, for Burnam forest, and still they would be met only by bullet and Bayonet.

1863

Time has unlocked the portals of another year this morning, the lost echoes of our departing footsteps have died in the far-reaching chambers of the old year, and I now stand on the threshold of another. For a moment my heart almost sinks within me as I ask myself, wither, oh, wither, shall my footsteps conduct me through this vast and mysterious chambers of this unknown mansion and what good or evil fortune shall betide me, as I traverse its mighty halls, and open its vaults which hold the decrees of irrevocable destiny. Sorely and deeply has the sorrows of the years, which has just departed, fallen upon me like the tempest of war poured upon my unhappy country, by an angry heaven, and who can foretell the grief which may await me in the future. Yet, still let not despair enchain me, though sorrow may overshadow me for a moment.

Let us live down, and conquer this mighty National sorrow, a nation for whose foundation, and freedom, Washington, Jefferson, Adams, Hamilton and their compatriots spent seven years of their lives in bloody, and at times, all but desperate warfare, may well require of us at least seven years of war for its salvation. Better die freemen, than live the slaves of the vilest aristocracy, which ever cursed a nation. It is my chief desire, and prayer to Heaven, that our afflicted country may once more be blessed with peace, and that friendship and good will may prevail among all men. Expecting, hoping, desiring peace, only under the laws, the authority, and the flag of the Union. This is a contest in which the greatest may be proud to engage, then let us rally to the conflict, always hoping, and never despairing, ever ready to speak, write, and fight for the Union.

If we are faithful to our cause, the New Year will close upon a reunited Republic.

- I am writing a Civil War biography of Lt. Charles E. Hazlett (1838-1863) and Capt. John C. Hazlett (1831-1863), both from Zanesville, Ohio, and found an entry for Isaac Roberts Eckart on your "Descendants of Jonathan Eckart of Quebec City" website. Isaac was originally from Ohio and enlisted in Capt. Hazlett's Company H,

1st Ohio Volunteer Infantry, at the outbreak of the Civil War. Because he was the company's 1st Lieutenant, he is mentioned repeatedly in a chapter I am currently writing about the company's activities during their three month enlistment at the beginning of the war. From what I have uncovered, he served with the unit from April until August of 1861 and took part in a skirmish at Vienna, Virginia and the battle of 1st Bull Run. He was slightly wounded by a shell fragment during the first engagement.

My question is this: You have a photograph of Isaac on your webpage and I would like to know if you are willing to share a clear copy, either by U.S. mail or e-mail. I have had a very difficult time finding any photographs of individuals who were in Capt. Hazlett's unit and Isaac's photograph would make an excellent addition to the book. I would appreciate your help. [7218]

- I really appreciate all the material you sent. I will make sure to give you credit if the book is published and send you a copy.

Thought I would included a little more information about what I have uncovered relating to your ancestor's Civil War record:

Isaac enlisted in Captain John C. Hazlett's "Zanesville Guards," Company H, 1st Ohio Volunteer Militia on April 17, 1861. He was selected by Captain Hazlett to serve as the unit's 1st Lieutenant. The unit left Zanesville on the night of April 19, 1861 and travelled to Pittsburgh via Columbus. For roughly the next month, they were trained at camps in Lancaster, Harrisburg and Philadelphia. In late May, they marched through Baltimore, MD and were sent to Washington D.C. After crossing into Virginia, they took part in a skirmish at Vienna, VA (June 17, 1861) and then participated at 1st Manassas (July 21, 1861). They were mustered out of service at Columbus in early August.

I have a newspaper notice of Isaac trying to form his own company in Zanesville in August or September of 1861, but do not know what unit he served with afterwards or when he left Zanesville.

Captain Hazlett, who was apparently a friend of Isaac's, was later wounded at Stones River, December 31, 1862 and died June 8, 1863. His brother, Lt. Charles E. Hazlett was killed on Little Round Top, Gettysburg PA, July 2, 1863 and is very well known.

Thanks again for you help. It is greatly appreciated.

Sincerely,

Michael A. Musilli

• **ISAAC R. ECKART IS DEAD**

Veteran of the Civil War Expires of Heart Failure After Long Illness

Heart failure was the immediate cause of the death of Isaac R. Eckart, which occurred at 9:30 o'clock Friday evening at the home on Third East. Death came after a long illness, beginning last February, but it was quite unexpected at the last.

Mr. Eckart was born Dec. 17, 1837, in Chillicothe, O., and spent his boyhood there. He was one of the first to volunteer from his native state at the time of the civil war and served his country through that time in Bragg's division of the army. He rose to the rank of a commissioned officer before the end of the war. Following that time he held numerous offices in the state, and later at one time he was superintendent of the waterworks of Oskaloosa, Ia.

Mr. Eckart was a member of a well known family, one of his brothers, George K. [sic] Eckart, being at present the mayor of Marysville [sic], Cal. Another brother, William R. Eckart, is one of the designers of the battleship Oregon. These, with his wife and two daughters, survive him. His daughters are Mrs. George G. Armstrong of Salt Lake and Mrs. E. S. Kerrick. They have been in almost constant attendance at his bedside since the beginning of his illness.

The funeral will take place at 3 o'clock this afternoon at St. Paul's church, of which Mr. Eckart was a member. [249]

• **VETERAN IS DEAD**

Isaac R. Eckert [sic], father of Mrs. George G. Armstrong, died last night at his home, 430 South Fourth East street. Death was due to a complication of diseases. For a number of years, Mr. Eckert has been an accountant and was one of the best known men in his profession.

The funeral services will be held tomorrow afternoon at 3 o'clock at St. Paul's Episcopal church. The body will be shipped to Oskaloosa, Ia., for burial.

The deceased is survived by a widow and two daughters, Mrs. E. S. Kerrick and Mrs. George G. Armstrong.

Mr. Eckert was born in Ohio 68 years ago. He was among the first to enlist in the Union army from that State for the Civil war. Entering the army as a private he was mustered out as a commissioned officer. He saw service during some of the heaviest fighting in Tennessee and Mississippi.

For a number of years he was superintendent of the Oskaloosa, Ia., Waterworks company. Eight years ago he came to Salt Lake City and has since made his home here. [250]

- Gives father's name as W. R. Eckart, and mother's name as Miss Cox. [8271]
- Funeral services of Isaac R. Eckart were held at St. Paul's Episcopal church at 3 o'clock yesterday afternoon, and are attend by a large number of friends.

The remains will be taken to Mr. Eckart's former home, Oskaloosa, Ia. [8272]

- Together with his half-brother, William Roberts Eckart, portrayed in Allen Smith, Jr. painting, dated Cleveland, 1843. Portrait now [2023] hanging in home of Dave & Gretchen Mills, Scottsdale, Arizona.

Hon. Gideon Welles, Secretary of the Navy

Sir

Enclosed I forward my letter of acceptance to the position of 3rd Asst. Engineer in the U. S. Navy, also my letter of Citizenship, and Oath [of] allegiance, being the first opportunity that I have had of so doing since I received them.

I am respectfully,

your Servant

3rd Asst. Engineer
U. S. Navy [742]

- To Hon. Gideon Welles, Secretary of the Navy
Sir

I herewith desire to tender to you my resignation of the position of 3rd Asst. Engineer in the Navy.

I am urged to this course by the following considerations: during the thirty-two months which I have served in this Squadron, I have been upon the "Sick List" nearly one year both on board of the FlagShip "Lancaster," and this vessel, and it will be seen by the letter of the Medical Officer of the Narragansett, which I enclose, that there is no immediate prospect of entire recovery. I therefore respectfully solicit the early action of the Department upon my communication.

I am very respectfully,

Your obd Servent,

William R. Eckart

3rd Asst. Engineer U.S.N. [743]

- **Steam in the Chronicle Office.**

Today the [Vallejo] DAILY CHRONICLE is printed by steam. We judged it to be an important event in the history of Vallejo enterprise when less than two years ago the proprietor of this establishment introduced a posser press to accommodate the rapidly increasing circulation of the CHRONICLE, but since that time his business has been increased so wonderfully, that he will now have four presses driven by steam. In fact, steam, or some other motor other than human muscle, had become a necessity to accommodate the business of the CHRONICLE office, and he feels a natural pride in being the first party to introduce it into a Vallejo printing office. Our engine is a neat and compact six-horse power, built at the Union Iron Works, San Francisco, from drawings made by W. R. Eckart, and is in every respect a complete piece of machinery. The shafting and hangings are from the Foundry and Machine Works of Heald & McCormick, Vallejo, who have made an admirable job. Hereafter we shall be able to expedite the issue of the CHRONICLE, and accommodate patrons with the delivery of job work at an earlier time than formerly. The machinery may be seen at work after three o'clock in the afternoon. [1999]

- SERENADE. The National Brass band serenaded Mr. Eckart and his bride last evening, thus welcoming them home from their bridal tour. Mr. Eckart responded handsomely, taking the boys to the Dawson House, where they indulged in champagne and other good things. [2000]

- A NARROW ESCAPE. — The Oroville Record, of the 17th instant, says on Friday night of last week, Mr. W. R. Eckart, of the Marysville Foundry, had a narrow escape from assassination in Oroville. It seems that a company of Chinamen in the Lava Beds, had purchased some machinery from the Marysville Foundry, and by some means, had got the idea into their Celestial heads that they were being cheated by the interpreter who had made the purchase for them, and Mr. Eckart came to Oroville to settle the matter. The Chinamen seemed to think that he was in with the interpreter, and bad feeling was engendered against them. At night as he was standing on the corner of Montgomery and Huntoon streets, a Chinaman passed and struck him with a knife. The blow was aimed at his heart, and given with much force. Fortunately it struck a large and thick memorandum book in the breast pocket of his coat, which proved sufficient to check the progress of the knife. Such was the force of the blow, however, that the point of the knife penetrated the cover of the book, passed through several letters enclosed in the book and penetrated several leaves. The Chinaman escaped in the darkness. It is understood that the interpreter knows the perpetrator of the dastardly attempt to assassinate Mr. Eckart, but does not know of his personal whereabouts.

- Statement of Services as a Mechanical Engineer

Was born in Chillicothe, Ohio June 17th, 1841; graduated from St. Clair Street Academy, Cleveland, Ohio, as a Civil Engineer. Served a regular apprenticeship with Griffith, Ebert & Wedge, Zanesville, Ohio, as a machinist, and afterwards worked as a journeyman and draughtsman in their establishment.

At the breaking out of the war, entered the Navy as Engineer, July 8th, 1861, serving in that capacity on various government vessels until 1864, when my resignation was tendered and accepted, then entered the employment of H. J. Booth & Co., proprietors of the Union Iron Works, San Francisco, Cal. as assistant draughtsman, serving them afterwards as their Chief Draughtsman, Foreman, and Superintendent.

In May 1867 was duly examined as to my qualifications and licensed to act as a 1st

class Chief Engineer in the Merchant Service (license No. 25, 1867). Same has been renewed on application in 1871 and 1875. After leaving the Union Iron Works in 1869, entered the employ of the U. S. Government at Mare Island, Cal. as Foreman, and was soon afterward appointed Superintendent of Steam Machinery where I remained until leaving to enter as partner in the Marysville Foundry January 8th, 1872 with my former employer. Where we are now carrying on the business of manufacturing mining and marine machinery under the firm name of Booth and Eckart.

Was educated as a Civil Engineer, at the St. Clair Street academy in Cleveland, Ohio was admitted as an Associate to the Institute of Naval Architects in 1869.

The Fulton Foundry.

The Fulton Foundry is now under the Superintendency of Mr. Eckart, formerly of San Francisco, and is prepared to furnish drawings, estimates and specifications in mechanical engineering, and especially in the construction of steam engines and boilers of all descriptions, wire rope, transmission pumping machinery, etc. All kinds of machinery, in fact, can be made here in the best style, and Mr. Eckart's wide reputation as a practical engineer is such as to give patrons solid assurance that their orders will be satisfactorily filled. [2001]

- AN APPOINTMENT -- W. R. Eckart, Superintendent of the Fulton Foundry, has been appointed Deputy United States Mineral Surveyor for this State. Now he will be "monarch of all he surveys" and "his right there will be none to dispute." [247]

- A New Iron Steam Yacht for Lake Tahoe

The Carson Flume and Lumber company have decided to build a new iron steamer to be used in connection with their extensive lumber business on the lake. Their fleet heretofore has consisted of the the iron steamer "Meteor," the wooden boat "Emerald," and such other boats as the necessity of their extensive business has compelled them to charter during their busy season. The "Meteor" was the first iron screw yacht ever constructed on the Pacific Coast, and has proved herself after two

years' trial, as being the staunchest and fastest yacht ever built in the United States, having made upon numerous occasions over twenty-one miles per hour to the proof and satisfaction of many doubting experts, who can believe nothing but what they see and try themselves...

The boat as well as the machinery will be built from the designs and specifications of Mr. Eckart, Superintendent of the Fulton Foundry of this city, also the construction engineer and designer of the "Meteor" which has given such satisfaction to the company. [2583]

- AN UNPLEASANT EXPERIENCE

A Traveler Having to Wait for a Bed

Until a Corpse was Removed From It.

W. R. Eckart, of San Francisco, is still in town. He had a somewhat unpleasant experience at Pocatello, at which place he had to stop over one night on his way here. After some delay he was shown to a room at the railway hotel, and although the thermometer registered a long way below zero, he found the windows wide open and the room looking anything but cheerful. After having the windows closed and the lamp lighted, he remarked that there was a large number of medicine bottles in the room; and after getting into bed he became painfully aware of the fact that the air was strongly impregnated with the fumes of carbolic acid. The night being extremely cold, he drew the bedclothes over his head, when he found the carbolic was stronger in bed than anywhere else. Visions of small pox at once floated through his brain, and he came to the conclusion that some one from California with that disease had occupied the bed; but knowing that if such was the case the danger was already done, and he would gain nothing by leaving bed, he lay quiet and went to sleep. In the morning he asked Boniface for an explanation, and was informed that a railroad man who had had his legs crushed had been occupying the room. Mr. Eckart said he hoped the gentleman had not been disturbed on his account. "Oh, no" said my host, "he died at 5 o'clock yesterday evening, and his body was sent east." This, of course, accounted for the delay in giving him the room.

- SUBMARINE BOAT.

SHE MAKES A REMARKABLE SHOWING.

Considered to be Absolutely Safe — The Vessel Dives Beneath the Water.

GREEN POINT, (N. Y.), Sept. 22. — The submarine torpedo-boat Holland made a remarkable good showing on her practice run today, and aside from the regular run of a mile under water at a uniform depth of seven feet, discharged a regulation Whitehead torpedo such as is used in the Navy. The trial lasted one hour and a half. W. R. Eckhart, [sic] consulting engineer of the Union Iron Works, San Francisco, took the plunge in the Holland. The torpedo, when discharged, took a downward course and struck the bottom fifty feet from the bow. The cause of the deflection of the torpedo off its course was thought to be the disarrangement of the mechanism. Otherwise the trial was most successful. Afterward the Holland, with Mr. Eckhart aboard, made a deep dive, completely submerging the flags, which are ten feet high. Five minutes later she came to the surface.

Eckhart said he considered the boat absolutely safe and practical, and would prefer being aboard the Holland when submerged than in the fireroom of any surface torpedo boat.

- “W. R. Eckart, veteran construction and mechanical engineer, A. M. Hunt and W. F. C. Hasson, electrical engineers, served as consultants during the building of the plant. L. M. Hancock was the engineer in charge.” Nevada County Power Co. “Work on the Nevada power plant started with a rush July 5, 1895.” “Despite the obstacles, the Nevada power plant was finished in seven months. Power flowed into Nevada City in Feb. 1896; to Grass Valley, a month later. Initial installed capacity was 300 kilowatts, soon to raised to 1,200 kW.” (pp. 128-135)

Eckart was “In charge of design and construction of mechanical and hydraulic equipment” of Electra Powerhouse built by Prince André Poniatowski and his Standard Elec. Co. of California (inc. Nov. 27, 1897, W. Vir; reincorporated in Calif. Feb. 7, 1899). Poniatowski (first under Calif. Exploration Co, inc. April 1896 succeeded by California Exploration, Ltd, inc. 1898) optioned several mining properties in Amador County and needed electricity to develop and operate the mines. Local supplier was Blue Lakes Water Co. (org. 1887 by W. Frank Pierce to build “a pipeline from Amador Co. to Oakland to supply 17,500,000 gal of water daily”). He negotiated with Pierce to supply electricity and financed (\$122,500) the construction of the Blue Lakes Powerhouse (450 kilowatt generators) “on an old millsite on the Mokelumne River 5 miles from Jackson, where water could be dropped 1,040 feet from the Amador Canal...” The plant began operating October 25,

1897. After this project Poniatowski conceived of a larger power plant which would be able to serve San Francisco, 143 miles away. He visited the Blue Lakes Region to examine the potential water resources including engineering data, water storage capacity, size of dams, and estimated costs. He estimated that the power plant would have to generate as much as 15,000 kwatts. This project was too big for his company so, working with W. H. Crocker, developed a plan of financing which included the formation of the Standard Electric Co. of Calif. The Blue Lakes Powerhouse was operated successfully until Nov. 1, 1899, when fire destroyed construction of the Electra Plant "the last word in design and construction." Chief Engineer, "Dr. Frederick A. C. Perrine, first professor of electrical engineering at Stanford Univ. and later pres. of the Stanley Elec. Mfg. Co." was responsible for the design of the electrical parts of the project and for the transmission system. "Associated with him were Frank G. Baum, brilliant Stanford engineer, and A. C. Bunker, young electrical engineer who had had experience with the Stanley Electrical Co., manufacturers of Electra's generating equipment. Engineers C. P. Gilbert and C. H. Ellison were members of the extensive staff." "In charge of design and construction of mechanical and hydraulic equipment was veteran W. R. Eckart who had a broad background of experience in mining and hydraulic work. He was an engineering officer of the Navy in the Civil War. He had designed the first locomotive built in Calif. by Peter Donahue's Union Iron Works. He designed and built for the Bliss family the steamer Meteor which was operated for years on Lake Tahoe. At Virginia City he had been Consulting engineer for Mackay, Flood, O'Brien and Fair in the Comstock mines, installing high-pressure pipe lines to lift water from the lower workings to the surface by huge Cornish pumps." The following contribution to the "Report's" efforts to bring about the drainage of the Comstock mines and the resumption of the deep mining therein, through advanced methods and the use of the most improved appliances is from the pen of W. R. Eckart, M. E. Mr. Eckart's article is exhaustive and comprehensive, and coming from such a leading authority is sure to have great influence upon the mine engineers of the Comstock, who are now ascertaining the best means of draining the mines and searching for new bonanzas at greater depths. [5749]

- Excerpts from letter from John W. Mackay to William Roberts Eckart, 17 Aug 1899: Prince Poniatowski, wired me last night, that you were coming with him to New

York, and would be at the Waldorf on Monday. I am sorry I will not be here when you arrive, as I should have liked to talk with you on several topics. I am going to Idaho, with another party, where we have been prospecting mines for some time, and will probably arrive in San Francisco in about two weeks. [5750]

- When the history of engineering on the Pacific coast comes to be written it will not be complete unless the work of W. R. Eckart occupies the large place in the book that it occupies in fact and in the experience of his contemporaries. Mr. Eckart has been honored by membership in the following societies: American Society of Civil Engineers since 1881; American Society of Mechanical Engineers since 1882 -- vice president from 1883 to 1885; The Institution of Mechanical Engineers, London, 1878; Society of Naval Architects and Marine Engineers, 1893; American Society of Naval Engineers; Associate Member of The Institution of Naval Architects, London. [189, p 157]

- [excerpt] Eckart was always on the firing line of progress and delighted in nothing more than in dealing with new and difficult problems. He was eminently a student in his manner of handling them, and spared no pains in insuring a sound foundation for his proposed solution or mode of treatment. He was notable as a collector of books and professional literature and of fine precision apparatus used in engineering measurements; was a member of many engineering societies and technical organizations, and occasionally contributed papers of value to their transactions. In 1872 he married Harriet Louise Gorham; to them were born three sons and one daughter. After a long period of failing health, during which he retained his keen interest in engineering, he died in Palo Alto, Cal., at the home of his eldest son. [1998]

- William Eckart Dies at Ripe Old Age, Was Former Resident of Marysville and Had Wide Reputation As An Engineer

William R. Eckart, a brother of George R. Eckart of this city, died at Palo Alto Tuesday evening at 8 o'clock. He had been ill for some time and heart trouble was his ailment.

Deceased made his home in San Francisco until about a year ago, when he moved to

Palo Alto. He was a former resident of Marysville and in the seventies was the proprietor of the Marysville foundry. Leaving Marysville he was for many years mechanical engineer for the Union Iron Works, and designed the engines of the famous old battleship, Oregon, and other ships built by this concern. After he retired from this position he entered the employ of the United States Government and was the representative of the government on all types of government boats. For the past number of years he was the consulting engineer for a number of large electrical and other corporations and had a national reputation as an electrical and mechanical engineer.

His wife, who survives him, was Miss Hattie Gorham, a former Marysville girl, and the daughter of the late Charles M. Gorham, who was for a number of years the mayor of this city. Deceased at the time of his death was coiner in the United States Mint at San Francisco.

Deceased will be buried today at Palo Alto. He was seventy-three years old. [212]

Military: • During his days of apprenticeship Mr. Eckart made numerous trips at the trial of new river boat engines and this awakened in him a desire to enter the government service as a naval engineer. At the outbreak of the Civil war he successfully passed the examination before the board of engineers, winning highest rank at that date. He was appointed third assistant engineer July 30, 1861, and ordered at once to join the fleet of naval vessels on the Pacific coast. While thus serving in the San Francisco harbor he met, and won the friendship of, a number of California's most eminent men in the engineering profession. Mr. Eckart had been mustered into the United States naval service as third assistant engineer on the Narragansett which was commanded by Commander S. E. Woodworth and was attached to the Pacific squadron under Commodore Charles H. Bell. On the 3d of December, 1862, he was transferred to the Lancaster under command of Commodore Joseph Lannan, of the Pacific squadron, and on the 23d of November, 1863, was returned to the Narragansett. The Narragansett and the Lancaster cruised up and down the Pacific waters along the coast of the United States, Mexico, the

Central American states and South America, visiting the ports of San Francisco, Panama, New Grenada and Callao, doing patrol duty and protecting the interests of this country during the Civil war.

Ill health at length forced Mr. Eckart to resign and he was honorably discharged at San Francisco, March 2, 1864. [189, pp 153-4]

Biography: • BIOGRAPHICAL SKETCH

W. R. ECKART

The Company's Consulting Engineer, a Veteran Foremost in His Profession on the Pacific Coast

Ohio has produced more presidents than any other state. There may be something in the environment or something in the consciousness of the great achievements of her famous sons that impels a goodly percentage of Ohio-born men to advance to positions of prominence. The incentive of close example, the germ of ambition, whatever it be, the Ohio man at his best climbs above the average that start under like circumstances. Who today are the half dozen great engineers on the Pacific slope? You can't name them and omit W. R. Eckart from the front rank. For more than forty years his life has been identified intimately and exclusively with most of the great engineering problems and developments of this part of the world.

He began life as an Ohioan sixty-eight years ago, for he was born at Chillicothe June 17th, 1841. His mother's people had been pioneers in the settlement of that part of Ohio. His father was a merchant, with shipping interests in vessels on the great lakes.

First young Eckart attended private schools. Then his mother died when he was 12. After some public schooling in Chillicothe and Cleveland he took a special mathematical course in an academy at Cleveland in the hope of becoming a civil engineer, as he had a relative who was a civil engineer and president of the Marietta and Cincinnati Railroad, which was being somebody in those days! When the boy was in his early teens the father moved to Zanesville, where he had a managing interest in a flour mill. Now it happened that the power for this grist mill came from six water wheels. New wheels had to be installed. Young Eckart was assisting the millwright. And as he worked at setting up those wheels he was noticed. A member of a firm prominent in those days in general mill and steamboat work offered him a place as apprentice. The youth had voyaged a little on Ohio and Mississippi river steamboats, and marine engineering had fascinated him. So he accepted the

apprenticeship. The firm's junior partner was manager of the works; he was master mechanic of great ability, and had been apprentice and foreman to Sir Joseph Whitworth in England, when the Whitworth works grew famous for machine tool construction. The manager became young Eckart's friend, his severest and most encouraging critic. No work was done "good enough"; it had to be finished as the best possible. That apprenticeship and those ideas laid the foundation of the Eckart thoroughness and efficiency as a practical engineer.

Participation in steamboat trial trips to test machinery further interested the apprentice in marine engineering. July 2d, 1861, he took the government examinations and passed them with the rank of No. 1 of his date. He was appointed a third assistant engineer and ordered to join the United States naval fleet at San Francisco.

During his three years of naval duty, from the time he was 20 till he was 23, he made the acquaintance in San Francisco and gained the lasting friendship of the foremost men then in the engineering profession in California — Paul Torqua, Joseph Moore, Irving M. Scott, Wallace Hanscom, Huttner, Specht. Because of poor health he resigned from the navy and decided to make his home in San Francisco. He secured employment in 1864 in the drafting room of H. J. Booth & Co., a concern that manufactured mining machinery and repaired coast steamships. Irving M. Scott was the company's chief draftsman at that time. A year later Eckart, then 24, was chief draftsman, and August 30th, 1865, the Booth & Co. shops turned out from Eckart's designs and drawings the first locomotive manufactured in California. The trial run was made that day on the railroad from San Francisco to San Jose, with the governor, state and city officials, and other notables as invited passengers.

In 1867 Eckart went east, passed the examinations that licensed him to be a first-class chief engineer in the merchant marine, and then returned to California and continued his work with Booth & Co. In February of 1869, after nearly five years with the concern designing mills and mining machinery, he resigned to accept the appointment as draftsman to the steam engineering department at the Mare Island Navy Yard. That was when he was 27. He became foreman machinist, and was finally promoted to superintendent of steam machinery at the navy yard. He designed steam machinery, propellers, and dynamometers for the noted experiments made by the government with "steam launch No. 4."

When he was 30 he left the navy yard to become a partner in the Marysville foundry firm of Prescott, Scheidel & Co., later styled Booth & Eckart. The firm built a great

variety of hydraulic and mining machinery. Because of his experience in the experiments with the government launch Eckart guaranteed a speed of 21 miles an hour when taking the contract to build the little steamer Meteor for the Carson Lumber Company's use on Lake Tahoe, and the Meteor made the speed and was at the time the fastest boat of its size in the world.

At 31 Eckart was appointed consulting engineer in the sinking of the four air shafts for the famous Sutro tunnel in Nevada. He spent months experimenting at Virginia City, collecting in his minute and methodical way data necessary to a commanding understanding of the whole situation. It was nasty, suffocating work, deep down in the mines, in a steamy, reeking atmosphere, where drops of subterranean water blistered the skin.

He had already designed the hoisting and drainage works for the Belcher, Yellow Jacket, Ophir, C. & C., and other historic mines.

In 1873 he established his residence in Virginia City as the consulting engineer for that remarkable quartette of bonanza kings, Mackay, Flood, O'Brien, and Fair.

About 1876 it became evident to the big operators on the Comstock Lode that heavy and powerful pumping and hoisting machinery would have to be installed to operate at a depth of 2,000 or 3,000 feet below the 1,600-foot level to be tapped by the Sutro drainage tunnel, which was then in 15,500 feet and had about 5,000 feet still to go to reach the lode. Prescott, Scott & Co. and the Risdon Iron Works were keen competitors for the contracts to construct the desired machinery. The firm that could produce an acceptable design first usually got the job. So Prescott, Scott & Co. sent Eckart down to San Francisco to help Irving M. Scott with the designs. And there was where Eckart's earlier collection of minute data counted. While he did not design the great hydraulic pumps of the Comstock, his experiments in 1880 and 1881, while a member of the United States Geological Survey preparing his government report on the "Mechanical Appliances of the Comstock Lode," became classics for the information of engineers, as the problems involved things not before undertaken in engineering and difficulties of a peculiar nature because of the great depth and the subterranean hot waters encountered.

About 1880, when deep mining on the Comstock began to decline, Eckart, then 39, moved to San Francisco and opened an office as a consulting engineer, and for ten years designed or supervised the construction of works for many well-known mines in California, Utah, and old Mexico. He made the plans for the Anaconda Copper Works in Montana and the hoisting and reduction works for Haggin and Tevis. In

1896 he solved the problem of getting the water out of the Alliston Ranch Mine at Grass Valley, which had lain idle and its lower levels bafflingly submerged for thirty years.

When the Union Iron Works entered upon its great career of warship building Eckart was engaged as its consulting engineer, and as such he assisted in conducting most of the preliminary and official trial trips and in rendering the reports.

In 1899 he was appointed consulting engineer for the Standard Electric Company, now owned by the Pacific Gas and Electric Company, and then became its resident constructing engineer for all its hydraulic works, reservoirs, pipe lines, ditches, and power houses. Those were the days of pioneering in long-distance transmission of electric energy, and Eckart, who, more than a generation earlier, had taken so prominent a part in the work on the Comstock of getting the boiling water out of the depths of the Sierra Nevada mountains, was among the first to solve the problem of getting the melting snows from the tops of those same mountains down to hydroelectric plants that would transmit the energy on 200 miles to the local needs of the coast cities. Since 1907 he has been consulting engineer for the Pacific Gas and Electric Company.

His life has been busy but unobtrusive, his achievements in his profession many, and his recognition partly expressed by membership accorded him in the most prominent engineering societies of America and England. [244]

- WILLIAM ROBERTS ECKART, M. Am. Soc. C. E.

DIED DECEMBER 8TH, 1914.

William Roberts Eckart was born on June 17th, 1841, at Chillicothe, Ohio. His father, William R. Eckart, was a merchant of prominence, who, at one time, had large shipping interests on the Lakes and, later, a managing interest in the Putnam Flour Mills, at Zanesville, Ohio. His mother was member of the Carlisle family, pioneers in the settlement of Ohio.

After attending the public schools of Chillicothe and Cleveland, Mr. Eckart, having determined to take up the Profession of Civil Engineering, took a special course in mathematics at the St. Clair Street Academy, in Cleveland. Accepting the opportunity of serving an apprenticeship in the works of Griffith, Ebert, and Wedge, a firm of good reputation for general mill and steamboat work, he had the good fortune to come under the observation and to obtain the friendly interest of the junior partner, Mr. Wedge, who had had exceptional opportunities, in the shops of Sir Joseph

Whitworth, in the manufacture of machine tools requiring extreme accuracy of construction. The effect of Mr. Wedge's insistence that "the best" was to be attained, was not lost on Mr. Eckart, but supplemented his natural ability and became apparent in all his work.

It was natural that his early opportunity to work on steamboat construction and to participate in trial trips, awoke in Mr. Eckart a desire to enter the Government service as a Naval Engineer. The application was made, and in the examinations of June, 1861, he received the highest rating of all applicants of that date.

On July 30th, 1861, he was appointed Third Assistant Engineer and ordered to join the fleet of naval vessels on the Pacific Coast. He arrived in San Francisco in the latter part of 1861, and soon became well known among, and formed friendships with, California's foremost engineers, including Paul Torqua, Joseph Moore, Irving M. Scott, Wallace Hanscom, Huttner, Specht, and many others.

In 1864, after resigning from the Navy on account of ill health, Mr. Eckart entered the employ of H. J. Booth and Company, at San Francisco, under Mr. Irving M. Scott who was Chief Draftsman, and was engaged principally on the design of mining machinery and steamboat work. As Chief Draftsman with the same firm, Mr. Eckart designed the first locomotive built in California, which was given its trial trip from San Francisco to San José on August 30th, 1865.

In 1869, Mr. Eckart, then holding a license as First-Class Chief Engineer in the Merchant Service, accepted appointment as Draftsman in the Steam Engineering Department of the Mare Island Navy Yard, where, later, he was Foreman Machinist and Superintendent of Steam Machinery. A report by Mr. B. F. Isherwood and Mr. Eckart to the Secretary of the Navy on the relative efficiency of different propellers, and dynamometers used in making the necessary experiments. ["On Marine Propulsion," Transactions, Inst. of Naval Architects of London, 1872, Vol. XIII, p. 315.]

In 1871, Mr. Eckart left the Navy Yard, and entered into partnership with Prescott, Scheidel and Company, at Marysville, the firm name being afterward changed to Booth and Eckart. This firm specialized in hydraulic, milling, and mining machinery, and by reason of its favorable location did a prosperous business.

In 1876, the firm of Prescott, Scott, and Company, which succeeded that of H. J. Booth and Company, took some large contracts for pumping machinery for the Comstock Mines, and Mr. Eckart was recalled to San Francisco to assist in its design and to superintend its construction. By this time quite a rivalry had sprung up between Prescott, Scott, and Company (The Union Iron Works), and the Risdon Iron

Works, in producing designs of machinery to handle the water and ores at Virginia City.

At this date the Sutro Tunnel was “in” 15,500 ft., had 5,000 ft. more to go, and would strike the Comstock Lode just below the 1,600-ft. level. The mine owners were already realizing that nothing but the heaviest and best designed machinery would meet the requirements on all the workings below the tunnel and, therefore, designs for pumps and hoists of large capacity to reach 4,000 ft. below the surface were decided on and called for. Not only the great depth, but also the ventilation and sinking of shafts in virgin ground abounding in large but unknown quantities of hot water to be met and overcome, presented problems unparalleled in engineering experience in any part of the world, and Mr. Eckart had a large share in dealing with and overcoming these conditions.

Having acted as Consulting Engineer for Sutro in sinking four shafts on the line of the tunnel, the investigations then made helped him materially when, in 1876, the orders came for the large pumps and hoists. He spent months in Virginia City experimenting, taking “cards” from pumps where the water would “boil an egg” and the vapors “airbound the pumps”, and where the expansion and contraction strains due to great changes in temperature often wrecked the heaviest castings. The knowledge thus gained was of great advantage to the firm he represented.

About this time, Mr. Eckart moved to Virginia City and became Consulting Engineer to the “Bonanza Firm,” consisting of Messrs. J. W. Mackay, I. C. Flood, J. J. O’Brien, and James G. Fair, which owned or controlled nearly all the “North End” mines. During this time, he was Manager of the Fulton Foundry, at Virginia City. In 1878, he was also appointed United States Deputy Mineral Surveyor for the State of Nevada. During the following two years, a great part of his time was occupied in the underground workings of the Virginia City and Gold Hill Mines, investigating, planning, repairing, and improving the pumps and machinery, as the mines grew deeper and the water kept increasing. While still a resident of Virginia City, he, in connection with Mr. W. I. Salkeld, a noted millwright of the time, designed and built the Bulwer Standard Mill, at Bodie, which, at that time, was one of largest pan mills for working ore.

During the early part of 1880, Mr. Eckart was appointed a member of the U.S. Geological Survey under Mr. Clarence King, and was given charge of investigating and reporting on “The Mechanical Appliances of the Comstock Lode.” On this work, which was practically a labor of love, he spent nearly two years collecting data,

testing pumps, engines, and hoists, and making drawings for the Government of all the machinery on the Comstock. The finest instruments procurable in the United States and Europe were used in the various investigations of efficiency. Hydraulic indicators tested and calibrated for from 500 to 5,500 lb. per sq. in. were used in testing the hydraulic pumps designed for the Cholar, Norcross, and Savage Shafts. Chronographs, to measure and record the velocities of engines and pump rods, accurate to 1/500 sec., were used on the surface and at a depth of 2,500 ft. The use of this instrument enabled results to be obtained which became of great value; diagrams taken from the heavy rods and pumps on the lower levels gave the clue to the location of the strains which had been so destructive in breaking rods and balance bobs in the past. The velocity curves of the rods and pumps revealed the fact, not theretofore known, and only in recent years properly understood, that the elasticity of long rods could give rise to free vibrations which at times were superposed on the force vibration and accelerations due to the engines and pumps, so that maximum vibrations and strains resulted at certain parts of the rods, which exceeded the elastic limit of the timber of which the rods were constructed. Changes were thus determined in the location of balance bobs and weights, which increased the efficiency of the pumps and checked the destruction of the rods and bobs. Some of these velocity diagrams, as well as illustrations of the largest pump engines and the hydraulic pumps, were published by Professor A. Riedler, of Berlin, while acting as Commissioner of Mines to the German Government in 1893.

In 1881, Mr. Eckart removed to San Francisco and opened offices there as a Consulting and Constructing Engineer and, during the following eight or ten years, some of the largest and most important mining plants were designed and constructed under his supervision. The pumping engine for the Ontario Mine, with perhaps the largest Cornish pump for deep mining ever built in the United States, was constructed from his designs during this period. The pumps were 20 in. in diameter, with 10-ft. stroke; two pumps at each station operated from one pump rod, 2,000 ft. long. In 1881, he began, for Haggin and Tevis, plans for all the Anaconda Copper Works, Hoists and Reduction Works, in Montana, which were started as a silver mill with a capacity of less than 350 tons per day, were increased in size and changed by addition until, in 1888, they were capable of working 3,000 tons per day. He designed and carried out much other work for the same firm.

In 1883, the Union Iron Works was changed to an incorporated company, and Mr. Eckart was retained as Consulting Engineer in matters pertaining to the propelling

power of the Government vessels built by that Company. He was present at and assisted in conducting nearly all the preliminary and Government trials of these vessels.

In 1899, Mr. Eckart was appointed Consulting Engineer to the Standard Electric Company, and afterward became Engineer in charge of construction as well. He continued to act as Consulting Engineer after the completion of the plant, and after the Pacific Gas and Electric Company acquired his property as a part of its great power system, he was retained in the same capacity by the latter company, in connection with the hydroelectric branch of the work.

In 1907, the Snow Mountain Water and Power Company engaged Mr. Eckart as Consulting and Constructing Engineer, and he was connected with that company until he retired from active business at the close of 1913. He continued in the employ of the Pacific Gas and Electric Company, however, to the day of his death, which occurred on December 8th, 1914, at the residence of his son, Mr. W. R. Eckart, Jr., in Palo Alto, Cal. He is survived by his widow, Harriet Louise Eckart, and four children, W. R. Eckart, Jr., of the Leland Stanford, Jr., University, Charles F. Eckart, Olaa, Hawaii, Nelson A. Eckart, M. Am. Soc. C. E., of San Francisco, and Mrs. C. E. Hume, of Piedmont, Cal.

Mr. Eckart had unusual talent as an experimenter and investigator. His methods were thorough, painstaking, and accurate, and his records of tests and experiments could always be regarded as absolutely trustworthy. Most of the special instruments and devices needed in his various investigations were designed and made by himself. Among such instruments was a "Chronograph for Engineering Purposes, with the Hipp Escapement", described under that title by him in a paper [Transactions, Am. Soc. Mech. Engrs., Vol. 3, p. 184] presented before the American Society of Mechanical Engineers, in 1882. In the discussion of that paper, the late Robert H. Thurston, M. Am. Soc. C. E., of Cornell University, speaks of Mr. Eckart as follows: "He is a very careful worker. In fact, I have not met in the profession a man who seemed better adapted to the application of fine measurements to experimentation on the steam engine." This instrument was devised for use in the investigations made by Mr. Eckart on the Cornish pumps of the Comstock Lode, and was used subsequently in other investigations requiring accurate time measurements.

As a man and among his colleagues, Mr. Eckart had the admiration of all who knew him. He was a hard worker, always going to the bottom of his problems; and the

mass of data which he had accumulated and the results of his ripe experience, were at the service of this colleagues whenever he was appealed to. His friendly help has been appreciated and will be remembered by all who have worked or conferred with him.

Mr. Eckart was honored by membership in the following Engineering Societies: American Society of Mechanical Engineers, April, 1882; Institution of Mechanical Engineers, London, January, 1878; Society of Naval Architects and Marine Engineers, May, 1893; American Society of Naval Engineers; and Associate Member of the Institute of Naval Architects, London.

Mr. Eckart was elected a Member of the American Society of Civil Engineers, on January 5th, 1881. [245]

• **William Roberts Eckart**

[excerpt] One need but to see William Roberts Eckart to know that he is a man of forceful character whose habit it is to accomplish what he undertakes and the records show that he has risen to a position of distinction among representative American mechanics and engineers. He was born in Chillicothe, Ohio, June 17, 1841, a son of William Roberts and Eleanor (Carlisle) Eckart. In the maternal line he represents one of the pioneer families of that portion of the state. In 1842 his parents removed to Cleveland, where the father, who was a merchant, had large shipping interests in vessels on the lakes.

William Roberts Eckart, Jr., began his education in a private school of Cleveland but after his mother's death, which occurred when he was but twelve years of age, his time was divided between the public schools of that city and of Chillicothe until he entered upon a special course in mathematics at the St. Clair Street Academy of Cleveland for the purpose of preparing for the profession of civil engineering. In the '50s the family home was established in Zanesville, Ohio, where the father had a managing interest in the Putnam flour mills. [189, p 153]

Harriet Louise

- Parents: Chas. M. Gorham & Sarah Holt. [816]
- WEDDING. — Miss Hattie L. Gorham, the second daughter of Hon. Charles M. Gorham, Mayor of Marysville, was married in the Presbyterian church yesterday to W. R. Eckart, Esq., of the firm of Prescott, Scheidell & Co., Rev. Dr. McKaig, officiating. A large number were present at the church, and many of the personal friends of the bride and groom subsequently assembled at the residence of the bride's parents and participated in the interchange of kindly sentiments with hearty wishes for the happiness of the young couple. The bride was the recipient of many beautiful and costly presents from her relatives and friends, while the friends of the bridegroom at the Mare Island Navy Yard sent him some mementos made from the "Kearsage" wood in token of Auld Lang Syne. The newly wedded couple departed for San Francisco where the honeymoon will be spent. [246]
- His wife, who survives him, was Miss Hattie Gorham, a former Marysville girl, and the daughter of the late Charles M. Gorham, who was for a number of years the mayor of this city. [212]

- Great-grandmother's DAR Record No. in Washington, DC is 23330. Listed relative ancestor as John Holt, Sr. (born 11 Jan 1719; died 15 May 1786) married Sarah Strickland. He was a commissary sergeant from Connecticut. [815, pp 116-117]

- Robbed A Residence

Thief Gained Entrance by Saying He Was an Electrician

Daniel Morris, said to be a recent arrival from Detroit, is in the City Prison with a charge of burglary opposite his name. He is a well-dressed, smooth-shaved young fellow of about 20 years, and when he called yesterday afternoon at the residence of Mrs. Harriet Eckert [sic], president of the Sorosis Club, at 3014 Clay street, and said he was an electrician sent to test and examine the wires in the house he was admitted. He had with him a canvas bag, apparently containing tools, and after he had made a cursory examination of the apparatus he left, but it was noticed that the contents of the canvass bag were more bulky than when he came. A hurried investigation revealed the fact that an electrical tape machine valued at about \$50 was missing. The police at the O'Farrell-street Station were notified, and Policeman Joseph Feld found Morris on Broderick street with the bag and contents in his possession. He was paraded before the detective force last night, but none had ever seen him before. [3883]

The splendid types of little women depicted in this book are often met with in life. You have become so well acquainted with them through reading of them that they are like friends to you, and have helped you to learn the value of true friendship. –

A true friend is an inspiration as well as a comfort, not so much by what he does for us as by what he incites us to do and to be, because of his example, his deeds, and his ideals. May this book prove to be such a friend to you.

George Roberts

- This 1918 letter is written to an unknown person since he had no actual sister. "Sister" is likely a term of affection for his sister-in-law Harriet Louise Gorham Eckart, the presumed recipient of the letter [excerpts]:

My dear Sister

We were greatly pleased to get your letter, as we always are to hear from you.

As regards the genealogy of the Eckart family, I don't think there is any German about it excepting the name. Father was a native of Quebec, Lower Canada, and I never heard him mention anything about any German ancestry. On the contrary I was told that his youngest Sister, Annie Winslow Eckart, had gone to London, and had the genealogy of the family looked up in England. Father and his eldest sister, whom I knew, were both fluent French scholars, but could not speak German, their knowledge of French, was I presume occasioned by their living in Quebec which was largely settled by French. The above is all the information I can give regarding the family. Of one thing I am sure, if there is any German blood in me it is most thoroughly Americanized. [152]

- Cashier and Manager of the Northern California Bank of Savings, is a native of Ohio, aged forty-five years, and has resided in this city a majority of the time since 1872, and has been engaged in bookkeeping and banking business all of the time. He is one of the best informed men in matters pertaining to banking business that can be found in the State, and was the leading spirit in establishing the present bank of which he is Manager, and which has been so successful in business.

The Northern California Bank of Savings was incorporated December 7, 1889, and commenced business in January, 1890, having as was supposed at the time, but slight prospects of meeting with success in a city of this size where there already two well-established commercial banking institutions. During the first six months, to July 1, 1890, the deposits amounted to \$158,388.82, and at the end of the first year, January 1, 1891, the amount had grown to \$237,260.79, and the number of depositors was 553, which was far in advance of the expectations of its projectors. Then it became necessary to have additional assistance, and to meet the demands the President, J. U. Hofstetter, assumed a share of the business, and joined Mr. Eckart in the active work. [3356]

- GEORGE R. ECKART. A man of energetic activity and of strong force of character, G. R. Eckart, of Marysville, as cashier of the Northern California Bank of Savings, occupies an assured position among the leading business men of Yuba county. A native of Ohio, he was born June 11, 1845, in Cleveland, of English ancestry. His father, W. R. Eckart, moved from Quebec, where his birth occurred to Ohio when a young man, settling in Cleveland, where he was engaged in business as a miller and a commission merchant until his death. He married Eleanor Carlisle, who was born in

Chillicothe, Ohio, where her father, John Carlisle, was a pioneer resident, settling there in 1798. Mr. Carlisle was a merchant of prominence, a man of influence in public matters, and a Republican in politics. Of the union of Mr. and Mrs. W. R. Eckart, three sons were born, of whom two survive [sic], namely: William R., of San Francisco, a prominent civil and mechanical engineer, and George R.

Brought up in Ohio, George R. Eckart received his rudimentary education in the public schools of Cleveland and Chillicothe, and while living in Putnam, a suburb of Zanesville, where his father had a mill, he was graduated from Zanesville high school. Coming to California in 1872, he located in Marysville, and the following year entered the bank of Rideout & Smith as bookkeeper and accountant...

In Marysville, Cal., Mr. Eckart married Miss Josephine Bilhartz, a native of this city. Mr. Eckart is very prominent in Masonic circles... He takes an active interest in politics, and invariably supports the principles of the Republican party. For four years Mr. Eckart was city treasurer, and for a number of terms served as a member of the city board of education. In 1904 he was the Republican nominee for mayor of Marysville and was elected in March of that year. He is a member of the Chamber of Commerce, and of the California Bankers' Association. [209, pp 297-8]

- 1904-5: Mayor of Marysville, City Councilman, etc. [211, pp 171-2]

- Delegate to the Republican Convention (1912). [3931, p 6]

- George R. Eckart being duly sworn disposes and says:

That he is a citizen of the United States, a resident of the City of Marysville, County of Yuba, State of California, of the age of sixty-nine years, and his Post Office address is Marysville, Yuba County, California, that for the last twenty-five years, he has been and now is the Cashier of the Northern California Bank of Savings in said City of Marysville. [254]

- I did meet the wife of George R. Eckart in San Francisco, in the 1930s. Her husband had died as a result of an accident. He had gotten caught between two streetcars, on Market Street, while crossing the street. She passed away a few years later. [3450]

- MARYSVILLE (Yuba Co.), Jan. 5. George R. Eckart, who died yesterday in San Francisco, was once a prominent citizen of Marysville, being a banker, politician and civic worker. In 1904 and 1905 he was mayor of Marysville.

Born in Ohio eighty-two years ago, he came to this city when a boy and grew up to

take an active part in public affairs. He entered banking and rose to be cashier of the Northern California Bank of Savings. He was a prominent Mason and identified with all the branches of the order here.

Eckart left the bank eight years ago and went to San Francisco to reside. Two years ago he was knocked down by an automobile at a street corner in San Francisco and never fully recovered from his injuries.

He is survived by his widow Mrs. Josephine Bilhartz Eckart and two children, Mrs. Lloyd Wilbur of Yuba City and M. A. Eckart of Oroville. The body will be brought here for funeral and internment. [8423]

• Also, they have nothing on Serena Frances King, unfortunately. My dad and stepmom (Lloyd and Donna Wilbur – I think you have “met” them over the internet) went to Oroville to look up the marriage of Serena and George, thinking maybe Serena's parents would have signed permission to allow them to marry. But on the form it didn't have any names, it just said, “Parents give permission.” [7319]

• Mrs. C. W. Richardson, of Woodland, who has been visiting her daughter, Mrs. George R. Eckart, returned home yesterday. [12 Aug 1889] [7548]

• It is with deep regret that we announce the death of Serena Frances, the beloved wife of George R. Eckart, which took place rather suddenly at her residence on

Seventh street, Saturday evening. The immediate cause of death was heart disease, superinduced by childbirth.

The deceased was a most estimable lady, possessed of every virtue that should adorn a woman.

The blow was sudden and unexpected, and came at a time when Mr. Eckart was very busy as Secretary of the Thirteenth District Agricultural Society, making preparations for the fair. He has the sympathy of the community. The funeral notice is advertised in another column. [7549]

- On my way to Cornell in summer of 1891, I stopped off at South Bend, Indiana to visit Charlie Carlisle at Tippecanoe, the home of the Studebakers. Found they were at French Lick Springs on a Tally-ho trip but would be back before dinner. I was showed to a bed room to wait. A valet wanted to get out my dress suit, of which I had none...Nothing but the light suit I was traveling in. Anyway when they came everybody was very pleasant & put themselves out to be nice. Charlie Carlisle

afterwards visited me in Palo Alto one day. [3909]

MR. BILL Eckart,

Dear BILL!!

The engineering people here request me to write you asking if you would be interested in talking over the possibility of your accepting a position as assistant professor of mechanical engineering here, taking charge of the work in the mechanical laboratory. The position pays 1800 plunks, and you would be allowed to maintain consulting relationships outside, only that the work here would be expected to be primary, and that outside to be secondary. I lied like hell to the engineers here, and told them that you were a good fellow, and the funny thing is that they believed me.

I do not suppose that there is much possibility of your wanting to take up this business, but I heartily wish that you would. The salary will be better in a year or two. If you are interested enough to want to talk with the men here, please let me know.

Fraternally Yours

My dear William:

Prof. A. W. Smith is in need of a teacher of Experimental Engineering, and he says he wants you. I do not know anything about the salary or the rank which he has to offer, but I want to use my influence to get you to accept when the offer is made, provided it requires influence.

In the first place, you couldn't find a place where official relations are pleasanter; and

In the second place, you couldn't find a place where personal relations are pleasanter; and

In the third place, you couldn't find a place where the social relations are pleasanter. If the work appeals to you, and you can afford to change from practice to teaching, I believe you will do well to think favorably of this offer.

Of course I want you to come for your company.

I know where there is a good cottage for rent on the next block. I believe the work begins in January.

Ethelwyn starts for Honolulu on Saturday to be gone till Christmas, — for rest and recreation.

Give my regards to your Father and Mother and Mrs. W. R. Jr.

Fraternally yours,

J. C. Fish

MECHANICAL ENGINEERING

Stanford University, California, Sep. 28, 1903

Dear Mr. Eckart:-

I enclose herewith Dr. Jordan's offer to you of the position in charge of the Mechanical Laboratory here at Stanford. Personally I wish to say that it would be a great satisfaction to me if you should accept and come down to live and work with us.

From something Young said I got the impression that you thought that you were suggested to me by him or by Fish. It didn't happen that way. I asked Young to look up Charles Barr's address in the fraternity catalogue and he happened to read your name; that set me thinking. You may be assured therefore that you were considered because of your merits and not because of your friends.

If you have any thought (as Young suggested) of not being able to do the work, I want you to discard it at once. I know you can do the work.

Yours sincerely

Albert W. Smith

Please give my kind regards to Mrs. Eckart. [8]

Dear Sir:

On the recommendation of Prof. A. W. Smith and subject to the approval of the Board of Trustees I hereby offer you the assistant professorship of Mechanical Engineering in the Leland Stanford University at an annual salary of \$1800. The date of beginning your work and other details would be subject to arrangement by Professor Smith, head of the department.

Very truly yours,

[sig] David S. Jordan

President [8], [7434]

- Dear Sir:

Your letter of September 30th is duly received and I am glad that you are able to consider and accept the offer of our assistant professorship in Mechanical Engineering. I have at once brought the matter to the attention of the University Committee of the Board of Trustees and will notify you as soon as I hear from the Committee. who will undoubtedly approve. [handwritten]

Very truly yours,

- Continuation from autobiography; pages 1 & 2 missing:

"...engineering work on the diverting dam, ditches, flumes and trestles, regulating reservoir, pipelines (wooden stave, cast iron, riveted and welded steel), buildings, plant design including special design of water wheel units, nozzles, etc., towers on the transmission lines. All under supervision of W. R. Eckart, Sr.

1902 to Sept., 1906 consulting engineer for Geary St. Park and Ocean R.R. Worked on old cable system, installation of oil burning equipment in power house, estimates and reports on cost of converting road to conduit electric system made for Horace G. Platt, Pres. Supervision of repair to power house equipment after 1906 earthquake.

Nov., 1903 became Asst. Prof. of Mechanical Engineering at Stanford University.

March, 1909 became Assoc. Prof. Mech. Engrg. at Stanford

March, 1912 became Professor of Mechanical Engineering at Stanford until Sept., 1927

Was in full charge of the Mechanical Engineering Laboratories, giving courses in experimental Steam and Hydraulic laboratories. Designed and supervised the construction of both laboratories, for Fluid Flow and hydraulic machinery for the CE department. Organized the Civil Engineering course in the Fluid Flow Laboratory and gave the course for the first year.

During the absence of Prof. Durand during World War, I gave his course in Hydraulic Power Plants and continued same after his retirement.

During spare time and summers continued to assist W. R. Eckart Sr. with his consulting engineering practice. Among other things worked up experimental methods to be used in connection with test of 5400 H.P. gas engine of S.F. Gas & Electric Co. (P.G.&E.). – Hydraulic power plant of Snow Mt. Water and Power Co. Test 225 H.P. gas engine, Cypress Lawn Cemetery. Test of Deer Creek Power Plant (P.G.&E.) using pitot tube for measuring quantity of water. Based on these tests prepared a paper which was presented and published by the Institute of Mechanical Engineers of Great Britain.

This paper entitled The Application of the Pitot Tube to Testing Impulse Water Wheels [4368] was awarded the “Water Arbitration Prize for 1910” by the Inst. of Mech. Engrs. The award was for the best original paper treating with any branch of mechanics of the supply or distribution of water, etc. for the previous two year period.

August, 1915 to May, 1925: Consulting Engineer, Columbia Steel Company

Made monthly inspection and reports on the maintenance of the plant at Pittsburg, Calif. Prepared reports on depreciation of buildings and equipment, etc. for setting up reserves and tax purposes. Work performed for W. E. Creed, Pres. and the Board of Directors. [8, p 3]

My dear Mother—

We are alright. Our place is a wreck but things might be worse. Our chimney fell through the roof in places & the bric-a-brac is broke-a-brac now & we have two plates left.

The University is a ruin so they say. I hope everything is alright with you. We can not get telephone or telegraphic communication – or you would have heard from us.

It was a fright. Estelle stood it pretty well.

We are going out [to] the University & see the ruin. The Memorial Church is down, the top off the memorial arch. Some of the arcades are down. The big stack is down & the new library a ruin. I see where we take things as best we can. With love –

Your loving son

- Letter from W. R. Eckart, Jr., Mechanical Engineer, 1125 Ramona Street, Palo Alto, Cal.:

Sunday Morning, Apr. 22, 1906

My dear Father:—

I am sending the medicine & a few eggs & loaves of bread by Fuji our Japanese boy, also the morning paper.

I don't think I will come up again until conditions are a little more settled here, as the town is filling up with bad trash as well as the good people and I don't like to leave Estelle alone under the circumstances as naturally Mrs. [Torp?] is rather excitable.

We had a scare last night as Fuji got up about 1.30 AM to fix his [unclear] & then a little later went to the bath room & then found the cellar light burning so he went into the kitchen & turned it off. I thought it was him, but called him & made sure & as he didn't answer, the folks got badly frightened.

Had no trouble coming out. You must take every precaution against sickness over there. I met Dr. Martin. He is on the Red Cross & told me to get you all out of town. He is sending his folks out & is going to turn his house into a hospital. Of course there is great danger of sickness at a time like this especially with the sewers all broken, &

the rumor of danger may be to get the people to move out to the country faster. However take no chances with water etc.

Send Clara Tickner down here if you can find her. If she gets to the Valencia St. depot alright she will have no trouble. We could take care of Mrs. Tickner also.

With love

Your affectionate son

- Prof. Eckart agreed with Prof. Durand. He felt opposed to fees unless put on equally throughout the University. Spoke of students who could barely pay present laboratory fees and said from his own experience with students who had wished to take laboratory work but refrained because of lack of means to pay present fees that any further tuition expense would certainly bar out good men from our courses. [4366, pp 8-9]

Prof. Eckart: It might be legitimate to call attention to the necessarily expensive text books, drawing instruments, supplies, etc., of expensive nature which engineering students were required to purchase. [4366, p 18]

- [excerpts] In answer to your request for a statement of my views on the subject of the proposed tuition fees in the engineering courses, I would say,

That I do not believe that a tuition fee should be charged in the engineering courses, unless a similar fee is imposed upon all students of the University irrespective of the course they are taking. My reasons for such a view are as follows:

First:- This university was founded with the aim "to qualify students for personal success and direct usefulness in life."

Second:- The engineering students are surely not any better able to pay tuition fees, than the students in the other courses.

Third:- The engineering students are already paying by means of laboratory fees, etc.

Fourth:- They are however under heavier personal expenses than the men in the other courses, owing to the higher cost of engineering text-books, drawing instruments, etc.

Fifth:- That unless the work offered at Stanford can be proved conclusively to be so far superior to that in other institutions not charging tuition, there is nothing that will prevent the number of engineering students from dwindling away at Stanford. [4367, pp 1-2]

- Dear Doctor Jordan:

Knowing the interest you take in any of the work we have done, which may in any way reflect credit upon us or the University, I enclose for your perusal a letter which I just received from the Institution of Mechanical Engineers in London.

I would state that the paper was not written for or presented to them to be entered in any prize competition, as in fact, I did not know that such a thing was going on.

Kindly return the letter when you are thru with it and oblige.

Yours respectfully,

W. R. Eckart, Jr. [4369]

My dear Sir,

I am indebted for much of the information in the enclosed sheet to Mr. William H. Gorham of Seattle, who was addressed in connection with our search for Mayflower descendants now living on the Pacific Coast. Your grandfather often attended our meetings in San Francisco but I never troubled him to make out a record of his family. I hope I shall not trespass too much upon your good nature in asking you to complete the blank at generations 8, 9, 10 after which you can return it. The earlier generations I can get in New York (.....) Prof. Gayley very much (.....) member on the faculty of the Leland Stanford Jr. University, and you may consider this a candid invitation to enter the Society, if so minded. The expense would be \$5 and no dues until the next year. Extra blank is enclosed, if you care to retain a copy.

Yours sincerely,

- [excerpts] It is the desire of my mother, Harriet Louise Eckart of Palo Alto, my brothers Charles F. Eckart of Honolulu, and Nelson A. Eckart of San Francisco, and my sister Mrs. Charles E. Hume of Oakland to donate to the Mechanical Engineering

Department of Stanford University the engineering tools and instruments left by my father, William Roberts Eckart.

It is our further desire to establish as a memorial to my father, and to foster and encourage experimental research in mechanical engineering, to which work his whole life was devoted; and especially to interest, assist and inspire young men who have shown an ability to conduct such work, a research fund to be known as

THE WILLIAM ROBERTS ECKART RESEARCH FUND FOR MECHANICAL ENGINEERING. [4371]

- In reply to your request for information as to my research activities, I would state that I am still engaged upon the study of:

“Heat exchange thru metal walls between liquids, vapors and gases”, with especial reference to the problems of the oil industry.

“Atmospheric Cooling of Water.”

“Absorption, Distillation and Fractionation Problems.”

This work has, to a large extent, to be carried out in the field.

No financial aid is necessary.

Very sincerely,

- When Estelle and I with Vic Harrier made the trip by Str Santa Rosa thru the Panama Canal to South America & New York, we stopped in Chicago and Eleanor Carlisle Campbell & her husband entertain[ed] us and showed us around. We have always kept in touch at Xmas time & each year she has sent us a picture of Betsy. He was Naval Attaché to the American Embassy in London for about 3 years & Eleanor and Betsy were invited to one of the Queen’s receptions. [3909]

- May 20th 1957

My dear Lester:

Your letter of May 13th was very much appreciated. It is a long time since I have written at any length. At Xmas I mailed cards to you & Mary and also the boys & their wives. At the start I tried to write notes on each of the cards but had to give it up, as I will explain later.

About the Palo Alto store and the decline in the business of the Woolworth 1956 sales. However, I appreciated what had caused it. do not know just when in 1956 the new business section & Woolworth store there opened for business. However, I was very thankful that Estelle had the benefit of all the very prosperous years as all that income was set aside for her own use to do as she pleased with it.

What you have written about all the things Palo Alto itself is doing in trying to bring some of the [business back] is very encouraging and was all news to me. They sure are on their toes. The parking problem is a big one everywhere, especially in Pasadena.

I was much interested in what they did about the Emerson St. property. If I recollect the bank on the corner of University Ave. & Emerson were always trying to buy it from Vic but he would have none of it.

I believe the project to put the new street lights on University Ave. to be a good one, and presume whenever it is done we will be assessed for our share. It will not worry me.

Now about the state of my health. I do not know when you last got a report on that. I know that Harriet & Nelson have stopped in Seattle to see you on some of their vacation trips north. Well it has had its ups & downs. Last year during July I discovered that I had glaucoma in both eyes and not cataracts as they told me when I was in the hospital & confirmed by [my] own oculist when I went to see him about it. My left eye had very little sight left, while the right eye had a pressure of 32, when a normal eye has 23 or more generally 25. So my new oculist started treatments with eye drops in both 4 times daily. Very shortly after this I was taken suddenly with chills & fever when I got up to go to bed. I managed to phone a neighbor to come over & undress me & get me to bed, while his wife phoned my doctor (Harriet was out for the evening somewhere). Well, it seems I had a virus infection & was in bed for quite & altogether had a trained nurse for two months. When I let the nurse go, the following day my left eye began to pain so I had to make an emergency visit to my oculist. He said I would have to go into the hospital for an operation. No room

was available so he came to my house that night to operate. Fortunately I could get my trained nurse back. Well to operate he had to kill the nerve between the eye & brain which made me totally blind in that eye. My right eye is now 27 1/2 as to its pressure. However it is very hard for me to read or to write. As I look at this page I only see 3/4 of the last line & 1/2 of the line above. I get most of my news from TV. I live on baby & junior foods, 6 feedings a day, but am all free from that regurgitation I used to have. I get up at 5.45 AM & in bed at 11.30 PM. Sleep well, but the routine day is a hectic one. The doctor says I am [a] wonder. My blood pressure is OK, pulse fine, lungs fine. I still have a chronic infection which he can't locate in spite of all X-rays etc. However I am content and in good spirits. Now away from me and something more pleasant.

Harriet & Nelson and their family are fine. The day before Easter David got word from Stanford that he has been fortunate enough to be able to enter there this coming fall. He has very high grades. All A's last year and 3 A's, a B+, & B so far this year. He passed the Stanford Intelligence test, and the Calif. Scholarship Federation and been honored with life membership a semester ahead of the usual time. He has played guard on the San Marino High School team 2 years. They won all games in their league last year & lost only one game this year. He is a good shot putter & yesterday qualified for the finals in all Southern Calif. Leagues. However he will not go into the finals as there are too many men who have superior records in some of the leagues with whom he did not compete.

Barney is a Junior at USC, and is evidently doing very well for him. He is pledged Beta. Harriet was here yesterday and sends her love. Donald they held back this year as he had not learned to read with the system they teach here. However, they just found out that one reason he is very nearsighted & could not see the blackboard even from the front row. Now he has proper glasses & is doing very well.

Well, Lester, I hope I haven't bored you with what I went thru last year. I will be 84 on May 25th. We have one lady living in an apt here who will be 103 in June. Dr. Durand is 98 & Fred (Estelle's brother) 93 on May 24th. (Estelle died on his birthday 2 years ago.)

Love to all the Lewis's,
Uncle Will Eckart [4357]

General: • [excerpts] On May 15, 1925, when the Stanford University Board of Trustees officially approved the proposal to create the new School of Engineering, the decision was anything but the start of engineering at Stanford. The education of engineers had been a founding intention for the university, with an engineering curriculum in place since its inception.

In March 1884, Leland Stanford has just turned sixty. In addition to gaining extreme wealth by investing in the first transcontinental railroad, he had served as governor of California and would soon become a U.S. senator. Yet his wealth and power could not save his son. While on a grand tour of Europe with his family, Leland Stanford, Jr., just fifteen years old, had contracted typhoid and died. Even while still in Europe, a bereft Leland Stanford searched for a way to honor his child and bring purpose back into his own life. The elder Stanford imagined a university in his son's name. It was not to be just any university, but one built specifically to educate engineers in a new way.

"The children of California shall be our children," he told his wife, Jane Stanford. Though it took seven years for the doors of Leland Stanford Junior University to open in 1891, from its first day it was a school for engineering as much as it was a school for arts and sciences. [8414, pp 1-2]

Vallejo, June 5.-The wedding of William R. Eckart, Jr. of San Francisco and Miss Estelle Walter of this city will be solemnized to-morrow afternoon at the handsome home of the bride's parents on Virginia street. It will be one of the most brilliant social affairs of the season, both from the standing of the young people in the communities in which they have lived and the esteem in which they are personally held by all who know them. The groom is son of W. R. Eckart, consulting engineer of the Union Iron Works and other large corporations. Eckart, Jr. is also a mechanical engineer, having graduated from Cornell University with the degree of M. E. He is associated with his father, and bids fair to follow in his footsteps as one of the leading men of his profession in the United States.

The bride is a well-known native daughter, both popular and talented. She is the youngest daughter of Mr. and Mrs. Fred Walter, who are numbered among Vallejo's oldest and most esteemed residents. She has been a teacher in the Vallejo public schools, and besides enjoying the reputation of a capable and efficient educator, has always won the love and confidence of her pupils, showing qualities of the head and heart that deserve the esteem in which she is held by all.

After a brief honeymoon Mr. and Mrs. Eckart will make their home in San Francisco. [248]

- The bride is one of the most widely known and popular young ladies in Vallejo. She is a graduate of the Vallejo High School and of the San Jose Normal School, and is a universal favorite. She has been one of the most successful teachers in our schools.

[2584]

- Of all the overestimated countries it is Japan, I think. I was there in the best season; saw the cherry festival, azaleas, wisteria, and iris - and these are cultivated. How any Californian can rave about Japan's flowers is a mystery to me.

The cities are dirty. The artistic places are the villages from a distance in a field of cultivated rice or grain, for the roofs are grass and occasionally a straggly pine adds to the landscape. To see men and women working in these fields is interesting of course. And mind. you, I found lots to interest me. But one trip to Japan will satisfy me.

You, too, would feel as I do. You would be filled with indignation at what one hears about these brownies waiting to get to war with the USA - that like myself, you would feel you were in enemies' ground.

One educated Japanese said to a fellow passenger on the way to Manila, "Oh, of course, we want the Philippines and Hawaiian Islands but we will wait until we can hold Calif. and the Pacific Coast." Another said, "We have the men and Navy but we lack the money so we must sack the banks of S F first." Imagine! These things are enough to show which way the wind is blowing. In Manila, they feel sure the Japs are planning mischief.

How I did enjoy our visit to Manila! It would make you proud of your flag to see the conditions there compared with other colonies we had visited. We awoke those little brown men about 50 years ago. And I guess it is up to us to put them to sleep again. But when you know their Navy and Army outnumbers us by 7 times, you can see what the danger is. They can take the Pacific Coast when they please. Our resources would win in the end. But think of the sacrifice. Our best men would answer the call to arms and our dear old Calif. be in the hands of those swell-headed monkeys for a good many months if not years.

One sees with regret how few ships we have. One realizes how handicapped we are. Our shipping amounts to nothing on the Pacific today. This is the only line flying the stars and stripes. Others sail under the "Union Jack" for convenience. While the Japanese have any amount of ships they would turn into transports. Oh, I just get so worked up over this I have to write my thoughts even though you may not be in sympathy. But the trouble is, we at home don't realize the danger. The Anglo-Japanese Alliance expires in 1913, so if trouble comes, it will be before then, I suppose. Though I suppose Germany would help us, except you remember Dewey

thought for awhile we would have to whip Germany too when we were annoyed by their interference at the time he took the Philippines.

Japan and Germany must spread out. They must have room to colonize. One can see how crowded they are. Every foot of ground is cultivated. But we don't want the Japs to spill over our way, do we? Australia is just as anxious about the Japs. They fear Japan has an eye on their territory. I have heard a great deal of this coming from Manila. My companion had been a guest of the Commander General for five months, and she told me a few things that opened my eyes. So it wouldn't surprise me if we were plunged into the deepest trouble by these deceitful brownies. I despise them for I feel every one on this boat is a spy.

If I had money to give to missions in Japan, I'd keep it for our Red Cross. [1856]
[While on this trip, my mother, Harriet Louise Eckart, was conceived. DWM, 20 Apr 1999.]

- At 1921 Thanksgiving dinner, 3014 Clay Street, San Francisco. [172]

- I will send you a few letters, some you can keep – others return please – I hope Harriet Louise will care someday.

How strange it seems for me to find in you, my niece, a nearness I cannot get from own dear child. I am sure when I am gone it will be you that Harriet Louise will turn to. When her family is raised, when the demand on her time is less, she will have time to think and it may be that she will be interested in all these little events I am writing you. [6, p 6, lines 227-233]

- Finally, Amy Estelle was "Aunt Estelle" in this family. I recall her as a great hugger in the 1930's. My mother had a very unique relationship with her which is another story that will have to wait another day. [3274]

- The last time I saw Mr. Amy, Anne, Alice and I were in S.F. (I was not married); we met on the street. He asked where we were going and as we were going to lunch, and he to his breakfast we went as his guest to Marchand's – and such a meal – ordered all in French. One thing, I remember and cooked after I was married was French fried onions in olive oil.

Another year has gone, and my darling baby, Miriam – will celebrate another anniversary. I do hope you are well and that God will bring you his choicest blessings – what a joy you have always been to me.

I do love you so! I always see this “dear Mary” bathing you in the kitchen by the oven and I can hear her exclaiming “Did you ever see such a baby” to the doctor who said “If you don’t stop kissing it and dress it, you’ll kill it.” [6, p 6, lines 244-255]

- Grandmother was always a woman of strong opinions and firm determination. She had an indomitable spirit. Her death was premature. While walking from her apartment on Orange Grove Boulevard in Pasadena, and crossing Colorado Boulevard (legally, in the crosswalk with a green signal), she was struck by a Navajo Indian firefighter making a left turn. This driver had no license and no insurance. The force of the impact sent her flying for upwards of fifty feet, where she came to rest against the curb.

She lingered in the Huntington Hospital and a rest home for a month. I visited her with Mom and Dad, and it was a very sad sight. She had a will to survive but the injuries were too much for her.

Marriage Notes: • The wedding was one of the most fashionable that have taken place in this city. The residence was elegantly decorated for the occasion. In the double parlors, where the nuptials were celebrated, pink was the prevailing color. [2584]

• VALLEJO, June 6.--One of the prettiest society weddings Vallejo has ever seen was celebrated at the home of Mr. and Mrs. Frederick Walter this afternoon, when William R. Eckart Jr. and Miss A. Estelle Walter were married midst veritable bower of floral beauty. Miss Waiter was attended by Miss Eleanor Eckart as bridesmaid and Miss Josephine Rider of Napa as maid of honor. The bride wore a wedding gown of crepe de chine over white satin, made en train. Her only ornament was a pearl and diamond brooch, a gift of the groom.

The groom was attended by his brother, Henry [sic] Eckart, as best man. The honeymoon will be spent at Congress Springs, after which Mr. and Mrs. Eckart will take up their residence in San Francisco

The wedding was the ending of a pretty romance which began a year a year ago in Yosemite Valley, when the couple first met. [8038]

- Married ten years in 1910 Census. [1780]

• Married in Vallejo, Cal. June 6th 1900 – by Rev. Bollard. William R. Eckart Jr. – eldest son of William R. and Harriet L. Eckart – to Amy Estelle – youngest daughter of Mr. Frederick Walter. [6129, p 5]

Charles Franklin

- Another uncle, Charles Eckart of Piedmont, is identified with the sugar importing industry. [149]
- At 1921 Thanksgiving dinner, 3014 Clay Street, San Francisco. [172]
- My grandfather was Charles Franklin Eckart (1875-1934) who lived for many years in Hawaii and managed a sugar plantation. My grandfather had three sons, all born in Hawaii: Charles Gorham (my father), Robert Carlisle (not Crockett as identified in your letter) and Thomas Gordon. My father and his two brothers are all deceased. [170]
- **ECKART, CHARLES FRANKLIN**, manager Olaa Sugar Co., Ltd., Olaa, Hawaii; born June 18, 1875, at Marysville, Cal.; son of William Roberts and Harriet Louise (Gorham) Eckart; educated in public schools in San Francisco, Cal., and University of California, degree M.S., 1905; married Edith Morgan Clay, March 1, 1904, in

Honolulu, Hawaii; children, Charles Gorham, Robert Carlisle, and Thomas Gordon. Began professional career as chemist for the Paauhau Sugar Plantation Co., 1895; chemist experiment Station of Hawaii Sugar Planters' Association, 1896-1900; director agricultural and chemistry Exp. Station, H. S. P. A., 1901-1908; general director experiment station of the Hawaiian Sugar Planters' Association, 1909-1913; manager Olaa Sugar Co., Ltd., since 1913. Regent of College of Hawaii short term during organization. Member of Pacific Club, Hawaiian Chemist Association, Hawaiian Engineering Association, Fellow American Geographical Society, Gamma Eta Kappa, Sigma Chi, Skull and Keys fraternities, Fellow American Association for the Advancement of Science. [190]

- Charles Eckart of the HSPA Experiment Station invented an asphalt impregnated paper for mulching plants in 1914, and used it to suppress weeds on the sugar plantations. [7362, p 4]

- Among the local people are C. F. Eckart, director of the Hawaiian Sugar Planters' Experiment Station. Mr. Eckardt [sic] went to the Coast on a health trip. Mrs. Eckhardt [sic] is not well and she remained behind. [7362, p 1]

- Mr. Eckart is manager of the great Olaa sugar plantation.

Mr. Eckart is the son of Mrs. W. R. Eckart of Palo Alto and the late W. R. Eckart, the famous engineer. [4016]

- Charles F. Eckart was truly one of the pioneers of the modern Hawaiian sugar industry, for to his credit goes not only the creation of that wonder cane, H-109, but also that of being the first man to cross pollinate sugar cane successfully, an agricultural practice on which the cane sugar industry is now so vitally dependent. [233]

- I noticed that my grandfather C. F. Eckart's education (degree & date) didn't seem to fit his bio very well. It's listed as MS 1905, U. of California. That's about 10 years after he arrived in Hawaii and with no BS preceding it. According to my uncle Thomas G. Eckart, his father's MS degree in 1905 from U. C. Berkeley was an Honorary Degree. He did a couple of years at Cal then left for Hawaii and got a job as a chemist. He was also offered a Doctorate by the same institution but declined because he didn't want to spend the time doing a thesis. [234, p 1]

- Unique System Discovered by Charles F. Eckart, Pineapple Grower [excerpts]

[The method] proved so surprisingly successful with pineapples, although it violated many long held notions of gardening, that the Department of Agriculture at Washington began experiments with paper mulching under the direction of Doctor Flint and the reports have been so favorable based on thousands of tests that it now seems likely that before long it will be generally accepted. [8543]

- In the first place let me say that you and Bob are really two very lucky young men to have found employment at this time. Just how lucky you are I doubt if you can realize. Anything in the way of employment these days is something precious which should be nursed and fostered. The situation up here is so appalling and critical, financially, that from one day to another one doesn't know what to expect. I am not an alarmist but I often wonder what the outcome will be.

As an example my cousin, Charlie Carlisle, who a short time ago was worth millions of dollars and had no cloud on the financial horizon, is now reduced to an extent which is pitiable. He and his family are having a hard time making both ends meet. My own income has been cut to the point that we've had to give up our servants and economize in every way possible. I even spend most of my time at home in order to save streetcar fare. The worry about property and other taxes which must be met is a constant bogey. [1484]

- Here is a brief run down on some Eckart history in Hawaii. It would be interesting someday to prepare a summarization in a little greater detail. Your grandfather, after completing his junior year at U. C., departed for Hawaii in a sailing vessel; year, I think, was 1895. He took a position at Hakalau Sugar Co. on the Island of Hawaii as a chemist. In 1909 he was made the first director of the Hawaiian Sugar Planters Experimental Station in Honolulu. His work in soils, plant foods and sugar cane breeding was brilliant in the world of sugar cane culture. Actually he was the first man to successfully breed sugar cane and one of his seedlings – H109 (will all development records in his unique handwriting) – became famous throughout the Territory and actually saved the Hawaiian Sugar Industry in replacing a variety called “Lahaina” which was being wiped out by root rot disease. H109 was not only tolerant to the disease (resistant would be a better word) but was high in sucrose and had all the desirable characteristics in fiber, growth qualities, etc. His outstanding work was recognized by the University of Calif. and he was presented with a Masters Degree in Soils and Plant Science. The University rules were

temporarily suspended in order to do this – as he had not graduated and did not hold a Bachelors Degree.

In 1913 your grandfather was made manager of Olaa Sugar Co. on the Island of Hawaii – just 10 miles from Hilo on the way to the volcano. He held this position until 1920 at which time he became consulting Director of American Factors. It was at Olaa that he invented the Paper Mulch to improve the growth of sugar cane (and all plants) and to control weeds. And at Olaa he built a paper mill to manufacture this paper mulch which was used in the fields. The paper was made of [unclear] – the waste pulp of the cane following sugar extraction. He experimented in our back yard at Olaa and found that tobacco, tomatoes, asparagus, pineapples etc. etc. etc. all made fantastic growth when grown with paper mulch. Jim Dole – a family friend – often visited us at Olaa. He recognized the value of paper mulch to the production of pineapples – observed in our back yard – and offered Dad \$50,000 for Territorial Rights for pineapples (patent). Dad was primarily interested in sugar cane and sold the rights to Dole. Dole eventually made many millions from paper mulch royalties, when all the big packers – Cal Pack – Libby and others went into pineapple production in Hawaii. Paper mulch is still a must in pineapple culture in Hawaii.

In 1925, we all moved to Oakland where your grandfather devoted his full time to the promotion of paper mulch throughout the U. S. About 1927 he sold certain rights to the International Paper Co. for \$100,000 – and things were going great. Then came the depression and the paper mulch business came to a stand still. In March of 1934 he passed away following “Bright’s disease.” He was a most remarkable – and wonderful man. [2434]

- [excerpts] Thank you for your interest in our company and for taking the time to contact C&H Sugar Co. I forwarded your message to Keith Olsen, who is the historian at the Crockett Museum. He conducted some research and I will send along an article that he found. He also mentioned that you should be able to find out much more information if you travel to Hawaii. This article describes Eckart’s activity in starting a pineapple development on Lanai:

“The next step was the development of paper mulch, which was accomplished by Charles F. Eckart,* director of HSPA 1901-1914, and subsequently manager of Olaa plantation. He hit upon the idea of covering the freshly prepared soil with thirty-inch strips of waterproofed mulch paper made of bagasse and spacing these so as to coincide with the center line of pairs of rows of plants about 20 inches apart, leaving

a narrow strip of uncovered soil between. An airplane view gave the fields the appearance of a convict's back. Pineapples (or cane) were then planted by punching holes through the paper, two rows to the strip, and sticking the plants through these holes into the soil. The advantage of Eckart's "on-the-row" mulch over the "tween space" planting is evident but, as frequently happens, when an improvement is wrought, accessory advantages, not anticipated, are achieved. Thus the improvement over the old practice of planting between the strips of paper, consists in the accessibility of the uncovered strip to mechanical cultivation, while at the same time providing a shield against the weeds. The paper enables the roots to use the top soil without competition from weeds. Furthermore, it keeps the soil warm and moist and makes the deficient rain water of Lanai do double duty. It prevents leaching of fertilizers and finally creates a condition favorable to nitrification. Where five pineapples grew before, six grow now and they thrive even in dry years. Hawaiian Pine's former fields of 80,000,000 annual plantings can now produce the equivalent of 96,000,000 plants. The patent for this mulching system was acquired by Hawaiian Pine and the royalty contributions to date have amounted to nearly \$2,000,000. [4355]

- H-109 CANE'S INVENTOR DIES ON THE COAST [excerpts]

C. F. Eckart Also Developed Paper Mulch; Sons On Way To Funeral

The death Wednesday in Berkeley, Cal., of Charles F. Eckart, former island resident, ended the life of one of the outstanding figures in Hawaii's agricultural life.

To him is credited the development of H-109 sugar cane, known as "Hawaii's wonder cane," and the invention of paper mulch for use in pineapple cultivation.

He was born in Marysville, Cal., June 18, 1875, attended the University of California and there began his life work as an agricultural chemist and technologist.

Mr. Eckart was the first agriculturist in Hawaii to grow sugar cane from true seed, accomplishing this when he was director of the H. S. P. A. experiment station. The cane H-109 was one of many seedlings developed by him. This cane was tried out at Ewa plantation by the late George F. Renton and has virtually supplanted the former standard variety, known as Lahaina.

His paper mulch process has gained world wide recognition. The paper is used here by the pineapple industry in the pineapple fields, the paper being anchored to the soil and planting stock inserted through holes. With the ground covered by the paper mulch, weed growth is checked and moisture preserved in the soil.

Mr. Eckart is survived by the widow and three sons, Charles G. Eckart, who resides in California; Robert Eckart of Hilo and Thomas Eckart of Kauai. The latter two sons left for the mainland today on the Lurline to attend their father's funeral. Their wives are with them.

Mr. and Mrs. Eckart, after Mr. Eckart's retirement in 1921, resided in Honolulu until 1926 when they went to the mainland to live. They were visitors here in September, 1931, with their niece, Miss Eleanor Eckart. [283]

- Accomplished painter. [173, p 2]
- Distant cousin of frontiersman, Davy Crockett. [194]
- Granddaughter of California Supreme Court Justice, Joseph Bryant Crockett. [194]
- My brother says that Clay was her stepfather and she assumed his last name.
Birth Date given as 7 Jul 1877. [215]
- It appears my grandmother was born in S. F. & not Alameda - at least if her passport is correct. I'm going to work on getting some birth certificates. Robert Crockett was Edith's father. [270]
- She assumed her stepfather's surname [Clay] probably in deference to her mother. [281], [4011]
- His mother is a daughter of Mrs. Allan M. Clay of Piedmont and a granddaughter of

the late Judge J. B. Crockett, Chief Justice of the Supreme Court. [3908]

- At 1921 Thanksgiving dinner, 3014 Clay Street, San Francisco. [172]
- Signed guest book at wedding of Joy Folger Matteson and Eleanor Carlisle Eckart. [6302, p 3]
- Mr. and Mrs. Allen M. Clay of 114 Oak street, announce the engagement of their daughter, Miss Edith Morgan Clay, to Charles F. Eckart of Honolulu, H. I. Miss Clay, who is one of the most beautiful as well as one of the most popular girls in society about the bay, is a granddaughter of the late Judge Joseph B. Crockett. With the penchant for independence which characterizes the modern young woman of the present day, Miss Clay determined to take up the work of a nurse. She took a course in the "Little Jim" Hospital in San Francisco. After her graduation she returned to her home in this city. Later she accepted a position in the Government Hospital of Honolulu, promising her parents that when they went to the islands for her this coming spring she would be ready to come home with them. But fate had ordered otherwise, and Miss Clay will return to her native town a bride some time before the Easter season.

Mr. Eckart, the prospective groom, is in charge of the Government experimental station in Honolulu. [4011]

- Mrs. Eckart is a daughter of Mrs. Allan Clay and a cousin of Mrs. Laurance Scott of Burlingame. [4016]
- Mrs. Eckart recently returned to her Piedmont home after a sojourn with relatives in Santa Barbara. [4017]
- After an extended stay in California Mr. and Mrs. Charles Eckhart [sic] will sail next Wednesday afternoon for their home in Honolulu and are being given many farewell parties by their friends, both here and across the bay.

In honor of Mrs. Eckhart a luncheon was given recently by Mrs. Edward C. Hume of Piedmont, who entertained about a score of guest at the Woman's Athletic club in San Francisco. [4018]

- After Charlie and Else were divorced and we had moved to the mainland for the duration of the war, we lived together with my grandmother in Oakland. You know that because you all visited. Else, Chuck, Bob, Lou, Aileen and Edith! [4214, p 1]

- [excerpts] Born -- December 8, 1878 in Virginia City, Nevada. Mother said it was a cold day with lots of snow on the ground. Left Virginia City for San Francisco in 1879, this seemingly marked the initial step in the decline of that center of mining activity. [150, p 1]

Entered University of California in the College of Mechanics, graduating, in May 1899 with the degree of B. S. Completed the course with an average "2" or the equivalent of the present "B" grades. [150, p 2]

At college was a member of Delta Kappa Epsilon, Theta Nu Epsilon and Skull & Keys; weighing 99 lbs. in my freshman year was chosen as coxswain of the Crew, they were then rowing in 4 oar barges, the only competition being with the South End Rowing Club and in inter class races. In my senior year was elected Manager of the Base Ball Team, was instrumental in hiring Joe Corbett, former pitcher of the Baltimore Orioles as our coach and for the first time winning the annual series with Stanford. At the final Stanford Game played at Recreation Park in San Francisco, the California boys stole from the Stanford Rooters a large Broad Axe which had been put on display before their crowd to emphasize the yell "Give em The Axe." This axe has since become the annual Big Game Trophy. [150, p 2]

May 14, 1902, I was married to Edna Josephine Donaldson, who later became the mother of Eleanor Carlisle. [150, p 3]

May 1912 - Employed by C. E. Grunsky, acting City Engineer of San Francisco, as Asst. engineer, working under general direction of John R. Freeman, in connection with preparation of his report on the Hetch Hetchy and other sources of supply for San Francisco. Prepared report on the Feather River and assisted on reports on the Mokelumne and Yuba Rivers.

September 1913 - Appointed Asst. Engineer under M. M. O'Shaughnessy, to take charge of construction of the Municipal Railway Extensions under a \$3,500,000 Bond issue. These extensions were designed primarily to serve the 1915 Panama Pacific Exposition in the Marina District. This work involved the construction of some 35 miles of single track with overhead and involving design and purchase of 125 cars. A detailed program and schedule was prepared covering all contracts, this was scrupulously adhered to and the railway extensions were completed and service inaugurated in time. In the early years of operation, the railway was a huge financial success and further extensions were constructed out of surplus earnings.

The work on construction of the Hetch Hetchy Project in the meantime had got underway, a number of camps had been opened on the Mountain Division, tunnel driving had gotten started in several headings. The 68 mile H. H. Railroad had been virtually completed when a suit was instituted by the railroad contractor against the City for extra work. C. R. Rankin, construction engineer on the project, who had been in charge of all the field work, was called to San Francisco to prepare the case for the City. I was thereupon, in 1919, appointed Construction Engineer to take charge of the work to relieve Rankin, while he was on the suit. With my family, I took up headquarters in Groveland, and Rankin and his family took over the house which we had been renting in San Francisco. (In December 1913, shortly after entering the City's employ I married Grace Knowlton, who on April 18, 1916, became the mother of William Nelson, and on Feb. 26, 1918, of Elizabeth Hilton, with Eleanor, this was the family that moved into Groveland, presumably for a stay of two or three months.) In this capacity, I supervised the completion of the R.R., continued the tunnel driving work, opening up several new audits, involving completion of two shafts, supervised inauguration of contract work on the construction of the O'Shaughnessy Dam, by the Utah Construction Co. About this time the City had difficulty selling the bonds for the continuation of the work. To overcome this, they conceived the idea of completing the tunnel driving in the Mountain Division, under a cost plus a fixed fee type of contract, under which the contractor undertook to arrange for the purchase of the necessary bonds. A. J. Cleary, Chief Asst. City Engineer went over with the newly formed contracting firm, the Construction Company of North America, C. C. Tinkler, president.

In 1921, following resignation of Cleary, was appointed Chief Asst. City Engineer, in charge of design and construction of all public utility work of the City Engineer's office, including the Hetch Hetchy Project. In this capacity [I] carried on the Hetch Hetchy operations, involving the Mocassin Power plant and transmission line, the 35 mile Coast Range tunnels, the San Joaquin and Bay Crossing pipe lines, the Pulgas tunnel and also in San Francisco, the Duboce tunnel for the street railway system. During this period participated in the negotiations with the P.G.&E. for the handling of the output of the Mocassin power and with the Mayor and City Attorney in Washington seeking approval of the Agreement by the U.S. Secretary of the Interior. On the H.H. work, L. T. McAfee took over as construction engineer on the tunnels, C. R. Rankin took over on the Dam, Paul Ost took over on the Street Railways and the Mocassin Power Plant.

- Signed guest book at wedding of Joy Folger Matteson and Eleanor Carlisle Eckart. [6302, p 3]
- His son, Nelson A. Eckart, who afterward became chief engineer of the S. F. Water System, gained some of his early engineering experience on the Electra project. (pps 164-170) [2532], [3945, p 168]
- Nelson Andrew was a hydraulic engineer, I believe, who ran the water department for San Francisco during the building of the Hetch Hetchy reservoir. He must have been in some very large battles. [3352, p 2]

• **Eckart Not Scared by Job of Running Spring Valley**

O'Shaughnessy's Aid is Well Experienced in Engineer's Field

Big jobs are no novelty to Nelson A. Eckart, first assistant to City Engineer M. M. O'Shaughnessy. So he looks forward with no trepidation to assuming operative control of the Spring Valley Water Company when it is taken over by the city in March. Practically assured of the job by Mayor Rolph, Thursday, and heartily recommended by O'Shaughnessy, Eckart yesterday was hand-shook and congratulated all over the City Hall. To every congratulation he made the same response:

"It will be a big job, and no one knows that better than I do. I have no plans yet. All I know is that I will do the work as well as I know how."

FITTED FOR JOB

Eckart is just over 50 years old, but in action and energy and quick-wittedness is one of the youngest men in the City Engineer's department. He is married and the father of three children—Eleanor, 19; William, 13, and Elizabeth, 11, and it is common report around the Eckart home at 243 Thirtieth avenue that he is their idol.

Eckart admits he is a victim of three hobbies—tennis, golf and the movies. His tennis, he tells friends confidentially, is better than his golf, but his golf isn't so bad.

VIRGINIA CITY NATIVE

Born in Virginia City in 1879, Eckart was brought to San Francisco when he was a

year old and has lived here since. He attended Lowell High School and was graduated from the University of California in 1899 as a mechanical and electrical engineer. After serving an apprenticeship with the Union Iron Works he was commissioned by the old Standard Electric Company to construct the Electra power plant on the Mokelumne River, east of Jackson.

Followed then a year with the Westinghouse Company at East Pittsburg, after which he returned to California to become engineer of the State Prison Board and later of the State Department of Engineering. In this position he took part in the reconstruction of San Quentin and Folsom prisons.

RETURNED TO S. F.

After a period as resident executive engineer for the Snow Water and Power Company, and resident engineer for the Oro Development Company at Belden, in the Feather River canyon, he returned to San Francisco to assist John R. Freeman on water reports for San Francisco. In the City Engineer's department in 1913 he was assigned charge of construction work of municipal street car lines, and in 1919 was appointed construction engineer in the field on the Hetch Hetchy project.

In 1921 he was appointed chief assistant to City Engineer O'Shaughnessy and has been associated with him in all construction work carried out by the department. [4008]

- [excerpts] A half century of farsighted leadership by a succession of mayors and engineers finally paid off on March 3, 1930, when San Francisco purchased the Spring Valley Water Company for \$39,962,606.51, creating the San Francisco Water Department under the Board of Public Works. Nelson A. Eckart, Hetch Hetchy Chief Assistant Engineer under City Engineer O'Shaughnessy, was named the first general manager and chief engineer of the newly acquired water works. This takeover of the 70-year-old private utility took place four years before Hetch Hetchy water was to reach the Pulgas Temple in San Mateo County and when the Spring Valley system had the capability of supplying 65 million gallons of water per day, under normal rainfall conditions. - Good afternoon!

I am a fellow ancestry.com member and found you on the website as a relative of Mr. Eckart. In case you missed it, I wanted to bring to your attention an article in this morning's San Francisco Chronicle that concerns him. The newspaper has a weekly feature that highlights news stories from 25, 50, 75 and 100 years ago, and this

morning's feature reads as you see below.

It seems that Mr. Eckart took a strong stand for justice!

Take good care,

Scott McKinzie, Oakland

March 6, 1942

The hotly debated and inflammable case of the Negro motorman, Audley Cole, 21, of 2141 Bush Street, broke into the open yesterday as Nelson A. Eckart, acting manager of utilities, called for a showdown with Municipal Railway carmen. In a dramatic move to remove the stigma of race prejudice from the city's civil service system, Eckart ordered grumbling motormen to train Cole in the operation of a streetcar or face dismissal. Eckart's order came simultaneously with the disclosure that several months ago, Utilities Manager Cahill ordered a two-day suspension penalty imposed on motormen refusing to train Cole. Under authority of their union local, Division 518, AFL Carmen's Union, 10 motormen defied Cahill's order and were suspended for two days each. The men were reimbursed for their loss of wages by the union. The order, which came yesterday from Eckart, instructed William Scott, manager of the railway, to suspend for four days any motorman who refuses to instruct Cole in the operation of a streetcar. The motorman who refuses a second time will be suspended for eight days. Threats to strike rather than to train the young Negro have been reported in the ranks of the union, which several months ago voted to fine any member instructing Cole \$100. [7673]

- In Memoriam

Nelson A. Eckart

Resolution No. 44-58

WHEREAS, The hearts of all San Franciscans have been immeasurably saddened by the death of Nelson A. Eckart, retired Manager of the San Francisco Water Department, and

WHEREAS, The passing of Nelson A. Eckart brings to a close a most distinguished career of accomplishments, and takes from the community a citizen whose character and competence were of marked superiority, a man whose 36 years of service as a public official far transcended the bounds of duty, and a kind, considerate and

gracious gentleman whose creed was a simple one, finding expression wholly in good works; and

WHEREAS, The deep sorrow felt by legions from all walks of life, who were privileged to know, admire, respect and love Nelson A. Eckart during his lifetime, is tempered by the remembrance of his productive career as an engineer and water expert which may well serve as an inspiration to those who follow him, now, therefore, be it

RESOLVED, That the Board of Supervisors of the City and County of San Francisco, noting with profound regret and a keen sense of civic and personal loss the passing of Nelson A. Eckart, adjourns its meeting this day out of respect to his memory, and that a suitably engrossed copy of this resolution be tendered to Mrs. Grace Knowlton Eckart, his bereaved widow, as an expression of this Board's sincere sympathy and heartfelt condolence.

The foregoing Resolution was introduced by Supervisor Henry R. Ralph and adopted by unanimous vote of the Board of Supervisors of the City and County of San Francisco at its regular meeting on Monday, January 20, 1958. [7352]

Miriam

- Miriam is at Omaha, Nebraska with her husband. He as you probably know is in the signal corps of the Aviation service. He has passed his final examination, and has

been recommended for a commission, and has made the required number of flights at Fort Omaha, and the other day his name was posted for a transfer from his present location. Miriam thought it would probably be to Macon, Georgia, or to Columbus, Ohio, possibly to France. Of course when he goes overseas, Miriam will return home. [152, p 2]

- Cards were issued Thursday by Mr. and Mrs. George R. Eckart of this city announcing the engagement of their daughter, Miss Miriam Eckart, and Marsden Scott Blois of Berkeley. The wedding is listed among Marysville's social functions of this Winter.

Miss Eckart is a graduate of the Marysville High School and of the University of California with the class of 1917. She has lived in Marysville all her life. Her husband-to-be is also a University graduate, having finished in 1914. He at present has a position with the State Banking Department in San Francisco. A pretty bungalow is being built in Berkeley for the reception of the bride. Miss Eckart is a member of the Delta Delta Delta Sorority. Her fiance is a member of the Pi Kappa Alpha Fraternity. • **Harriet Eckart To Marry Soon**

San Marino Girl Engaged to N. M. Mills

San Francisco and peninsula society circles learned last night of the engagement of Miss Harriet Louise Eckart, daughter of Mr. and Mrs. William R. Eckart of San Marino, to Nelson M. Mills of Los Angeles. Announcement was made at the prospective bride’s home in San Marino.

Miss Eckart, granddaughter of the late William R. Eckart, noted engineer and a pioneer Californian, was prominent in San Francisco society while an undergraduate of Stanford, where her father was professor of engineering. She graduated in 1931 and moved with her parents to San Marino when her father became associated with a Pasadena engineering firm.

Mr. Mills, also a 1931 Stanford graduate, is the only son of Mr. and Mrs. David Mills, formerly of Cleveland, Ohio.

The bride-to-be was a member of Kappa Kappa Gamma sorority during her collegiate career and Mr. Mills was affiliated with Zeta Psi fraternity.

Miss Eckart is a lineal and collateral descendant of numerous well-known Californians. Nelson Eckart, chief engineer of the San Francisco Water Department, is an uncle. Another uncle, Charles Eckart of Piedmont, is identified with the sugar importing industry.

The late George C. Gorham, noted journalist of the late eighties, was a relative of the bride-to-be's family.

A date for the wedding has not been set. [149]

- Engagement of Miss Harriet Louise Eckart, San Marino society girl, well known in Peninsula circles, to Nelson M Mills of Los Angeles, was learned today.

Miss Eckart is the daughter of Mr and Mrs. William R Eckart of San Marino, and a granddaughter of the late William R Eckart, noted engineer and a pioneer Californian. She was prominent in local society while an undergraduate at Stanford, where her father was former professor of engineering. Mills, also a Stanford graduate, is the son of Mr and Mrs David Mills, formerly of Cleveland, O. [7650]

Dear Harriet:

Through the newspapers I learn of your engagement to Mr. Nelson Mills. I want to send you my heartiest good wishes and to tell you that I have always tried to more or less of an eye on you and your activities. I am glad to see that you are going right ahead with normal plans.

Please give my kindest regards to your mother and father.

Faithfully yours,

Roy Lyman Wilbur [6702]

- I will send you a few letters, some you can keep - others return please - I hope Harriet Louise will care someday.

How strange it seems for me to find in you, my niece, a nearness I cannot get from my own dear child. I am sure when I am gone it will be you that Harriet Louise will turn to. When her family is raised, when the demand on her time is less, she will have time to think and it may be that she will be interested in all these little events I am writing you. [6, p 6, lines 227-233]

- Three Stanford Students, Including Nelson Mills of Santa Cruz, Hurt In Crash [Santa Cruz Evening News, 26 Jan 1929]

Pinned beneath the automobile he was driving when it overturned on the Stanford university campus at Palo Alto early this morning, Nelson Mills, son of Mr. and Mrs. David W. Mills of 39 Highland street, and two others, were injured, The News learned. Young Mills, a student at the university, Miss Elizabeth Doyle of Fresno, and Donald Wright of Pasadena, also students, were those injured. Miss Doyle, the most seriously hurt, sustained three fractured ribs. Mills, though not badly injured, suffered a deep scalp wound on the back of his head and was cut on one hand with flying glass. Wright was cut above the eye. All were pinned under the car, it was reported.

The injured were removed to the Palo Alto hospital, but Mills and Wright were allowed to go to their fraternities after receiving medical attention.

As soon as news of the accident reached them, Mr. and Mrs. Mills left for Palo Alto. They are expected to return home tonight with their son.

Mr. Mills, father of the injured young man, formerly was president of the Monterey Bay Lumber company, resigning several months ago. [7503]

- ...Nelson Merrell Mills, formerly of Santa Cruz and now of South Pasadena.

Mr. Mills, the son of Mr. and Mrs. David Mills, lived in this city with his parents about five years before leaving for South Pasadena where he is connected with the Standard Oil Company. He is a graduate of Stanford university.

[Note: the connection with Standard Oil was as a gas station attendant] [7440]

- **Nelson Mills Heads Pacific Outdoor**

The Board of Directors of Pacific Outdoor Advertising Co., Los Angeles, today announced the election of Nelson Mills as president of the firm, effective July 1, 1949.

A graduate of Stanford University, Mills previously was executive vice president and general manager, and has been with the company 14 years serving in all phases of the business.

The new executive succeeds Hal W. Brown, who continues as chairman of the board.
[7157]

- Nelson's Best Man and lifelong friend was Don Wright, who rose to be Chief Justice of the California Supreme Court. He was appointed by Ronald Reagan in 1970, and subsequently had many run-ins with Jerry Brown, when he was Governor of California. Don served from 1973 to 1980. Don graduated from Stanford in 1929, Harvard Law School, practiced law in Pasadena, California, was appointed to the Municipal Bench in Pasadena, Superior Court in Los Angeles, where he became Presiding Judge, then was appointed to the California Court of Appeals, before being named Chief Justice - which came as a complete surprise.

- Upon Harriet's death, [Nelson] sold the Eckart house in San Marino (at 1525 Oak Grove Avenue) in 1967. Nelson and young Don moved to an apartment on Orange Grove in Pasadena, and lived there until his wedding to Virgie Houseman. [7377]

- Dad requested that Gretchen and I arrange for his wedding to Virgie Houseman be conducted in a chapel. He indicated this was important to him.

- Dear Nelson

Many thanks for the penny. I have put it in my savings. In return I am sending you a good luck dime.

Love, Grandpa [3369]

- Former long-time San Marino resident Nelson Merrell Mills died Dec. 22 in Palm Desert, following a lengthy illness.

Mills, born in Cleveland in 1910, was a graduate of Stanford University.

He married his first wife, Harriet, in 1934, and they resided in San Marino until her

death in 1966.

Before retiring in 1972, Mills had been president of Pacific Outdoor Advertising for 19 years.

He was a past president of Annandale Golf Club in Pasadena and Marrakesh Golf Club in Palm Desert and a member of Zeta Psi fraternity and Rotary International. [3236]

Marriage Notes: • At the All Saints Episcopal Church in Pasadena, Miss Harriet Eckart, daughter of Mr. and Mrs. W. R. Eckart, became the bride last Saturday of Nelson Merrill [sic] Mills, son of Mr. and Mrs. D. W. Mills.

For the ceremony the bride wore a brown ensemble of sheer wool trimmed with mole. She had brown accessories and her corsage was of white orchids. Miss Winifred Rule served as maid of honor in a green frock with brown accessories. Donald Wright was best man and the ushers were Harry Hillman Jr., Charles Hanna

Jr., Thomas Cooper and Richard Sims.

Both Mr. and Mrs. Mills are graduates of Stanford University where the bride was a member of Kappa Kappa Gamma and her husband was affiliated with Zeta Psi. [4009]

- Immediately after the church ceremony, the wedding guests, numbering nearly a hundred, were welcomed to a reception in the garden of the bride's parents in San Marino, where groups of oleander bushes and white baskets of bridal flower displays served to enhance the setting. [4009, p 2]

Family Notes: • The Nelson Mills (Harriet Eckart) have acquired a lovely new home on Winthrop Road in San Marino, and are transferring their chattels over today. [8546]

Robert Carlisle

- Birth Place given as San Francisco, Calif. [204] I have his Birth Certificate. [274]
- At 1921 Thanksgiving dinner, 3014 Clay Street, San Francisco. [172]
- a member of Sigma Chi fraternity. [3908], [7505]
- Another brother, Robert C. Eckart, is the county agent for Kauai, and is active in many agricultural affairs on the island. [233]
- Robert and his brother, Thomas, are now in Honolulu serving at the Hawaiian Sugar Planters' Association experimental station, where their father started after his graduation, and where later for eight years Mr. Eckart Sr. was manager of the Olaa plantation. [3908]

- [excerpts] Gardeners on the Garden Isle of Kauai like to make their headquarters at Eckart Farm & Garden Supplies, just off the main street in Lihue. Here they can be sure of finding the latest garden gadgets, a fine selection of garden products and helpful, trained advice from owner Robert Eckart.

When he's not busy at his smart, modern shop, Mr. Eckart can be found at his home nursery at Wailua Homestead, where he is becoming famous for his outstanding collection of Florida crotons and Puerto Rican tis.

"Florida has been breeding special crotons for years," said Mr. Eckart, who journeyed to Florida and Cuba two years ago to import his prized plants. "We could have been doing it, too, we certainly have an even better climate for it. Guess we just never thought of it."

Besides the usual tropical plants, which he sells locally, and ships to Honolulu and the mainland, Mr. Eckart also markets macadamia nuts from his orchard of 600 trees.

The Eckart's have resided on Kauai since 1935. Mr. Eckart received his degree in agriculture from the University of California. [4020]

- My father enlisted in the army in 1943. He was 35 years old, the "old man". He did return, for which I have been eternally grateful. He was stationed in the South Pacific, participated in the Battle of Leyte Gulf and wound up growing vegetables for the Navy on Saipan...his degree from UC Berkeley, Agriculture. When he returned home he worked as a County Agent for the University of Hawaii Extension Service, quit to open up a farm and garden supply store and wound up raising grapes in Sonoma County, CA. He received no benefits from the U.S. military....his records had burned with many others in a terrible fire. The Veterans of Foreign Wars presented his widow with a flag when he died in 1989. [6525]

- The Eckart Ranch on Kauai was a joint venture with Bob and Tom Eckart buying the property and my father developing it and eventually buying it from Tom. There were 60+ acres in the original parcel and my Dad sold off most of it, whittling it down to 12 acres which he sold in 1956. The Smiths eventually bought one acre where the house site is and have now managed to acquire 3-4 more acres. He is a landscaper of some note on the island and has done a gorgeous job of landscaping the property. The house has also been greatly remodeled. They could have torn it down – it was in such bad shape when they bought it – but Rosemary loved it and they retained much of the original walls, floors and floor plan. It's NICE. [Now

Thomas Gordon

- They have picked the right man to run the Kauai county fair this year. He is T. G. Eckart. Back in Washington he would be called a real dirt farmer; a long, rangy fellow in khaki and high boots, he looks like a man who grows things with his own hands and not merely a theoretical agriculturist, but if you talk to him - he doesn't talk much - you would realize that his practical experience is backed up with scientific certainty; he belongs to that breed of men that has kept our Hawaiian sugar industry clicking so successfully over its long life.

T. G. Eckart brings to the job of director of the 12th annual Kauai county fair his own valuable experience as a successful agriculturist, and this experience is but the continuation of the work of another man - his father, the late Charles F. Eckart. [233]

- At the age of 6 I started school at Olaa. My best friend was Minoru Matsumoto, the son of one of our yard men (now head carpenter at Olaa Sugar Co.) - I learned to swim at Warm Springs (destroyed several years ago by a lava flow) and at Kalapana (black sand beach). I started the 4th grade at Hilo Union School and made the trip each day from Olaa to Hilo and return by train. In 1919 your grandmother and grandfather made an extended trip and put us in Hitchcock Military Academy in San Rafael for a year. We all returned to the Islands in 1920 and bought a home at 2669 Nuuanu Ave. where we lived until 1925. During this period I went to Punahou and had many wonderful friends as classmates including Anna Karen Cooke and Alice Montague Cooke - daughters of Richard Cooke - then president of Brewer & Co. - Harrison Cooke, son of Clarence Cooke - Paul Cooke, son of George Paul Cooke - Helen Gray Baldwin, daughter of Sam Baldwin (Alexander & Baldwin) - Walter Dillingham, son of Harold Dillingham - Wallace Waterhouse, son of John Waterhouse. Anna Karen Cooke married Ralph Johnson, an old friend from Hilo days, who became president of Hawaiian Electric (Ralph died about 4 years ago). I don't know what has happened to most of these people which really is a shame as we were all so very close - any of them would be delighted to meet you and know you - of this I am sure.

Anyway - to go on - in 1924 Bob and I were sent to the Menlo School for Boys. I graduated in 1927 and entered UC at Davis - spending two years at Davis and two years at Berkeley. At Davis I was very active - Vice pres. Of the Student Body, Student Council, sports editor of the yearbook, black letter society, Sword & Sandals (honor society), Alpha Zeta (national agricultural honor society), and worked from 4 AM - 8 AM each morning (asparagus). Graduated 1931 with B. S. degree in Plant

Sciences.

Was hired by the Hawaiian Sugar Planters Experiment Station while still at U. C. Davis. During my senior year at U. C. studied the action of the enzyme bromeline [unclear] in pineapples. The effects of processing as well as the effects of freezing; was the first to freeze fresh pineapple juice. This was done in cooperation with the Calif. Packing Corp.

I started with the Experiment Station as an assistant agriculturist in training at \$125.00 per mo. (later cut to \$117.50 during the depression heights). Spent several months in Maui – much time on the many plantations of Oahu working out of the Waipua substation. Was sent to Lihue [unclear] in 1933 as assistant agriculturist and Island Representative of the HSPA. In 1934 I took a position with Lihue Plantation Co. as agriculturist. Was made Head Overseer in Lihue in 1938. Left Lihue just prior to “Pearl Harbor” to take you and Marjorie to the U. S. to stay with May [unclear]. Decided against going back to Kauai and resigned. [2434]

- Interesting side note. As a child I [Paula Gay Eckart Masters] remember these boxes traveling with us where ever we lived. They were never gone through by my dad. Yet he treasured them because they were given to him by his mother who he loved dearly. [7305, p 1]

Father: **Nelson Andrew ECKART** - Grandson (8 Dec 1878-13 Jan 1958)

Mother: **Edna Josephine DONALDSON** [6129, p 5] (3 Jul 1879-19 Sep 1909)

- At 1921 Thanksgiving dinner, 3014 Clay Street, San Francisco. [172]
- My thinking is that this Eleanor is the one who went on the Pacific Cruise with my Dad and grandparents in 1931. [3835, p 2]
- A member of Kappa Kappa Gamma sorority. [6269]
- Name given as "Elenore." [8404]
- She graduated from UC Berkeley and in 1934, she married Joy Folger Matteson. During the 1950s, she founded and taught The Carlisle School which equipped college graduates with business and administrative skills necessary to compete successfully in the workforce at the time. She moved, with her family, to Sharon Heights in 1969.

She had a passion for travel which was originally fueled by a post graduate trip to the Far East in the 1930s. Golf was also a great passion as she was a member of the Menlo Country Club in Woodside, alongside her husband. She often competed in tournaments.

She is survived by her three children, Edward F. Matteson of Sacramento; Sally Matteson Loudy of Menlo Park; and Rebecca Matteson Nelson of Redwood City; five grandchildren; and three great-grandchildren.

Services have been held. Memorial contributions may be made to the Palo Alto Medical Foundation, 795 El Camino Real. [2663]

- Eleanor "Ellie" Eckart Matteson, who founded and ran the Carlise [sic] School in Palo Alto in the 1950s, died Sept. 2 at home in San Francisco after a long illness. She was 92.

Mrs. Matteson was a third-generation San Franciscan whose father, Nelson "Spider" Andrew Eckhart [sic], was chief engineer for the Hetch Hetchy water system.

She graduated from the Katherine Delmar Burke school and UC Berkeley, then married Joy Folger Matteson in 1934. They lived for many years in Palo Alto, where Mrs. Matteson founded the Carlisle School and taught college graduates secretarial skills.

Mrs. Matteson was a member of the Menlo Country Club and an avid golfer. She also enjoyed traveling.

Mrs. Matteson was preceded in death by her husband in 1997. She is survived by her son, Edward F. Matteson of Sacramento; two daughters, Sally Matteson Loudy of Menlo Park and Rebecca Matteson Nelson of Redwood City; five grandchildren; and three great-granddaughters.

A private memorial has been held. Memorial donations may be made to the Palo Alto Medical Foundation, 795 El Camino Real, Palo Alto CA 94301; the American Heart Association; or any charity. [5688]

Joy Folger

• So...what I know is that I stayed with "Eleanor" and Joy Matteson one Christmas in Palo Alto. They lived on Martin St. They had three children. [3835, p 2]

- Yes, I agree. Our mothers must have known each other. My parents lived on Lorraine [Lorain] Road in San Marino—I recall my mother telling me and the street name just popped into my head right now. I wonder how close that is to Oak Grove Avenue?

Ted and Sally were born in Pasadena—where the hospital was, yet the family lived in San Marino. My Dad worked for the American Can Company for his entire career in sales, so he must have had an assignment there and then relocated to the SF Bay Area in 1944 or 1945 and worked in SF on Harrison for years. [5369]

- [excerpts] MATTESON, Joy Folger – Passed away at his Sharon Heights home on December 14th after a lengthy illness. He was 88. He lived in the Palo Alto and Menlo Park communities for the last fifty-one years.

A native Californian, born in Stockton, California, Mr. Matteson was an economics graduate of U. C. Berkeley, where he was a member of Phi Gamma Delta fraternity.

He retired from the American Can Company after a 45 year career in sales, introducing the beer can and the milk carton to the California consumer market.

Memberships included the Menlo Country Club. He was an avid golfer, domino player and world traveler. He believed in the joy of hard work, loving family and friends and taking time to celebrate life and smell the roses. [8221]

- We were so pleased to hear that Nelson and Grace have another little daughter, and that Mother and child are fine. [152, p 2]
- At 1921 Thanksgiving dinner, 3014 Clay Street, San Francisco. [172]
- Maid of Honor at the wedding of her sister, Miss Eleanor Carlisle Eckart. [6269]
- Signed guest book at wedding of Joy Folger Matteson and Eleanor Carlisle Eckart. [6302, p 3]
- As far as I know she never married. Was in the service in WWII. [216]
- I made a wonderful new (80 year old) friend who was my seat mate both to and from Florida over the holidays (all 4 legs of the trip [and what are the chances of that ever happening again?]). Anyway her dear friend in high school was Elizabeth Eckart of the Sea Cliff area in San Francisco. I'm sure it's the same Elizabeth Eckart of the Nelson Eckart family you are looking for because that's where they lived. [3357]
- Informant on Death Certificate: Martha E. Burke, Niece. [5850]
- Aunt Elizabeth did attend UC, Berkeley and was a Delta Gamma there. I'm not sure that she graduated. She and Biggs were at Pearl Harbor during the bombing on December 8th [sic]. He was stationed there and Aunt Elizabeth was in the Red Cross. She told me that (for some reason I have thought he was a Col.) Biggs was on

the roof of Scofield (sp?) barracks in his boxer shorts shooting at the Japanese with a rifle (or some other equally useless weapon in light of the magnitude of the attack). Aunt Elizabeth also told me that she had been pregnant and miscarried three days after the attack. When I asked if she thought it was related to the attack she said no. Still I wonder... Her mother, Grace did not approve of her marriage and I think was also disappointed because Aunt Elizabeth rejected Christian Science which my grandmother's life and also because Aunt Elizabeth partied too much. When the war was over, Aunt Elizabeth and her husband had grown apart and she said she wasn't interested in being a housewife. She shocked her mother by getting a divorce. "No one in our family has ever" etc. Aunt Elizabeth went to either USC or UCLA and Columbia (not sure which order) and got her doctorate in psychiatric social work or what ever the proper term was then. She taught at USC or UCLA for awhile and then lived and worked in Seattle for years. She and her mother had a hard time, I think. When Aunt Elizabeth died, she told me that she would like to be buried next to her mother in the family plot at Colma, outside of San Francisco, because she said she had finally reconciled with her mom. Aunt Elizabeth played tennis, hiked, floated the Grand Canyon when she was in her seventies and was bright and funny and kept in touch with her friends throughout her life. She was also my best friend as well as a loved aunt. I have a lot of her papers and odds and ends in my basement. I'm sure there is more hidden away down there that I don't know about her life. This is a little more than you asked, but it's good stuff! Martha [5861]

- Arrived Hamilton Field, Calif., US Army Plane C-54. Gives her name as Elizabeth Biggs and her residence same as father's; Father, Nelson A. Eckart, 242 30th Ave., San Francisco [5869]

- yes, yes, what am I thinking, that was my father's first wife. I don't know that I ever knew her maiden name so I was concentrating on the Eckart part, not the Elizabeth. It is proven and I may have documents to show that (maybe div papers). [6461]

Mother: **Helen Constance KIRBY-PAIN** [5881] (abt 1896-)

- Colonel Biggs, a native of Seattle, WA, graduated from Queen Anne High School in 1935. He attended the University of California, Berkeley, where he was a member of Phi Kappa Psi fraternity, Skull and Keys and other honorary societies, and captain of the Freshman Track Team. In 1939, he received a bachelor's degree and an Infantry ROTC commission.

He began active duty in February of 1941, and was stationed with the 19th Infantry Regiment, 24th Infantry Division at Schofield Barracks, Oahu, at the time of the Japanese attack. He continued to serve with the regiment in Australia and through campaigns in New Guinea and the Philippines until mid-1945 in positions from platoon leader to regimental executive officer.

He held key staff positions with the US Military Government Command in Korea from 1946 to 1948, including seven months as one of two US XXIV Corps Liaison Officers representing the US with the Soviet Union Army headquarters in Pyongyang during the early development of the North Korean armed forces and the beginning of the Cold War.

In 1948, Colonel Biggs married Kitty Nettles with whom he later had three children, Richard Kirby Biggs, Deborah C. Biggs, and Timothy C. Biggs.

Colonel Biggs successfully completed the Transportation School Advanced Officers Course in 1951 and was immediately assigned to the Office of the Chief of

Transportation in Washington, D.C. As a Transportation Corps officer he went on to command battalion level units in Korea during the war and later in Germany, where he also became the V Corps Transportation Officer. He attended several Army schools, including the Army Command and General Staff College, where he also taught for four years, and graduated from the Industrial College of the Armed Forces in 1960. He commanded the 4th Terminal Command at Fort Eustis from 1963 to 1964.

Following his retirement from the military in 1966, he became the civilian assistant to the principal logistics officer in Headquarters, US Army Europe until 1972. He held the senior civilian logistics position in the Defense Attaché Office, Saigon, from 1973 to 1974, and then served on the Army General Staff. In 1976, he was appointed assistant director for materiel maintenance, Office of the Army Deputy Chief of Staff for Logistics. He was later assigned as the deputy commander of the Engineer Logistics Command in Saudi Arabia, retiring from his civilian Army career in 1981.

He was awarded the Legion of Merit and Bronze Star, both with Oak Leaf Clusters, the Army Commendation Medal and numerous civilian awards from the US Government and the Republic of Vietnam as well as a Distinguished Member of the Transportation Corps Regiment. He also worked for a defense contractor operating the US base maintenance contract in Turkey, and as a consultant with a number of other base maintenance contractors.

During 1993 and 1994 he volunteered at Fort Eustis as a co-author of the book Spearhead of Logistics : A History of the United States Army Transportation Corps, the definitive history of US Army transportation from the Colonial period to the present and required reading for all Transportation officer students.

Colonel Biggs served as the executive vice president of the board of directors of the Army Transportation Museum Foundation, and belonged to several professional military associations. He was a volunteer in the Elderhostel programs at the College of William and Mary and also a very active member of the James City County community. [5871]

- Dave, I don't have any information or knowledge personally about "Dick" Biggs. I think that I may be able to find something in Aunt Elizabeth's papers which are stored in my basement. Aunt Elizabeth told me very little and they were divorced before I was in the picture. However, it seems to me that at one time I found an obituary notice among her things and that might help us if I can find it again. I just

don't know anything about him. Martha [5872]

- My dad was at Pearl Harbor. They felt after the war (according to him) that they married too young and were somewhat strangers so decided to divorce. Actually he was 'excommunicated' for communion from the Catholic church for divorcing. How funny to come across this relationship. [6461]

- just a little more about Pearl Harbor. My dad was shaving when the bombing started and had only shaved half his face. He and a LT. ran to the armory to get weapons as they didn't have anything issued out. The MP there refused to let them in. They knocked him down, broke open the armory and began issuing rifles and weapons. He then did as you heard, climbed on the roof and started firing. Once the wave was over they hurriedly got dressed and took a company and climbed up into the Mt to fight off the Japs where they were in the field around 7 days. When he came back down, he had a growth of beard on one side, but much less on the other. He went into the day room and the soldiers there who keep daily records had transcribed them and thrown away the copy. He took it and has had it for many years. Before he died, he and my Mom went back to Hawaii and gave the original to the Arizona museum.

He was indeed a strong drinker back in those days, but loads of fun and a grad of UC Berkley. I am sure I have pics of Elizabeth (if my mom didn't get rid of them...) but his college yearbook for sure may have some pics of her.

Apparently neither family approved of the marriage, and I'm sure my Dad was too wild in those days.

He did, of course settle down and really was a wonderful father, husband and family man. I didn't know she had miscarried, so that is news to me.

We can talk more if you want, but this is a confirmed marriage.

Debbie [6461]

- My Dad stayed in the military 30 years, then civil service for 15, then private sector military work. They were stationed first in San Fran where my older brother Kirby (Richard K.) was born in May 1949.

The next year they came back to Williamsburg (Ft. Eustis) area where I was born in Sept 1950. (Dad was all transportation and logistics as you can see that the transportation library was named in his honor posthumously and he co-wrote the 'spearhead of logistics' which is used today for officers in the Trans. corp. after he

retired)

Dad then went into the Korean war and Mom and Kirby and I went to live in Fla. near her relatives while he was gone.

When he came back, he was stationed and taught at the industrial college in Ft. Leavenworth where Timmy, my younger brother was born in Dec 1956.

We stayed there for about 4 more years, then back to Washington DC for a year. In 1963, we headed overseas to Germany for 3 years, then back to Ft. Eustis. Once again in 1968 back to Heidelberg, Germany for 5 years.

From there it is a litany of the places they lived. He served as head of civilians 2 years in Saigon, VN during the fall of that city, and in Turkey twice for two year stints both after he retired and in Riyadh, Saudi Arabia for a private contractor.

He and Mom eventually retired to Williamsburg, Va where they live for about 7 years before he got renal cancer and eventually died from that. [6464]

- Signed guest book at wedding of Joy Folger Matteson and Eleanor Carlisle Eckart. [6302, p 3]

- Complete name based on 1 Jan 1998 letter from Philip Krusi, and name from Eckart genealogy index. [8, Index], [169]

- They lived in Alamo/Danville, CA and had a ranch (The Yellowjacket) up at Calistoga, CA. At the time they raised and showed Arabian horses.

Leroy was a very successful businessman (electrical contractor or manufacturer, I don't recall) and I think his son, George, now has the business which is in the San Francisco Bay Area.

Leroy's relationship to me was that he and my mother had the same great grandparent from Switzerland. [169]

- LeRoy was against the internment of Japanese-Americans during World War II and served as custodian of the property of some of these persons.

Awarded the French War Cross (Croix de guerre) for service in World War I. [4533, p 1]

- "I [Hermann Krüsi] remember one day with a similarly beautiful morning –

possibly fourteen years ago – when our little family, increased by some boarders, one of whom was our trusty friend Dr. Farnham, walked for nearly a mile on the frozen, uneven ice, admiring the little ice-mounds and hills. I suppose little Gertie was too small to accompany us, but she welcomed her good friend Farnham on his return with her sweetest smile as, “Lily Roy” (Le Roy). [4533, p 2]

- I finally found out who “LeRoy Farnham” was – a friend of his grandfather’s (Hermann II) who was a boarder in his house and who, apparently, his children were fond of. [4538]

Raymond Gorham

- At 1921 Thanksgiving dinner, 3014 Clay Street, San Francisco. [172]
- Signed guest book at wedding of Joy Folger Matteson and Eleanor Carlisle Eckart. [6302, p 3]
- He attended the University [of California] where he was a member of Delta Kappa Epsilon fraternity and is in business in San Francisco. [6397]

- The business (the cannery) had been sold profitably some time before his death. I rather thought that was the case as my own Hume ancestors, and even myself, carried forward profit from the old Hume businesses. [4542]

- On the following page, there is more inaccurate information. It states that Raymond Hume ran the Hume Canneries. There was only one Hume Cannery at that time and it was sold in 1968. My father's portion of the receipts from this sale supported both he and my mother Margaret until their deaths in 1975 (my father) and 1978 (my mother).

I am enjoying reading the information of the Eckart Family. It is very informative to me. [6679]

- My father and mother were being supported by trusts (set up at the time of the sale of the Hume Company in 1968) when they died in 1975 (father) and 1978 (mother). [6685]

• Dr. Marsden Scott Blois Jr., an internationally recognized expert in the field of melanoma and skin cancer, lost a 15-year battle against cancer of the lymph system. He was 69.

Blois, who also founded the Melanoma Clinic at UC San Francisco, died Friday at Stanford Hospital after a brief hospitalization.

Blois, born in Texas but who was raised and spent most of his life on the Peninsula, was a 1941 graduate of the U.S. Naval Academy at Annapolis. He was assigned to the USS Henley, a destroyer that was torpedoed and sunk by a Japanese submarine on Oct 3, 1943.

A lieutenant at the time Blois and other survivors of the Henley's crew were in the water seven hours before they were rescued by another ship.

He began his medical studies at Stanford University, where earned a Ph.D in physics, then a medical degree.

In 1957, he was identified as a pioneer in the new field of biophysics when he read his report on the connection between molecular fragments and skin cancer at

the annual meeting of the American Physical Society.

Blois continued his work in skin cancer as a professor of dermatology at UC-San Francisco beginning in 1969 and he founded the Melanoma Clinic at the university in 1971. [7555]

Mother: **Anna Maria HERMAENN** [4197, p 1] - **Grandmother**

- Perhaps born in London, England. [8, p G14]
- No proof has been found for birth in London, England. "Your husband's father and grandfather were born in London." [151, p 1]

- In 1787, John George Reinhardt/Josias Wurtele petition for land.

To his Excellency The Right Honorable Guy Lord Dorchester, Governor and Commander in Chief of the Province of Quebec:

The memorial of George Wurtele, Josias Wurtele, John George Reinhardt, **Jonathan Eckart, Junior**, and Gottlieb Bauer....Humbley sheweth That your memorialists are Natives of Germany and came into this Province about 4 years ago, and that they are desirous of settling and improving a Tract of land upon the Grand River. They therefore pray your Lordship will be pleased to grant them two hundred acres of land for each person. [7150, p 2]

- The last sibling of William Roberts Eckart was born and both of his parents died within one month in early 1812. From the record it would appear that they left, as orphans, 7 children ranging from 14 year old Margaretha to the newly born infant Henry. While later records indicate that many of these children remained in Quebec

City for some time, it does not show who looked after their care and nurture. After 1812 there seem to have been no Eckart entries in Church Registers in Quebec City until 1828 – a strong indication that the two Jonathan Eckarts who died in 1794 and 1812 were the only Eckarts who emigrated to Quebec. [22, p 2, note 13]

Also see [22], page 1, note 1 for reference to first Jonathan Eckart, who died 2 June 1794, aged 60 years and 27 days. He was probably a great uncle of William Roberts Eckart and probably the first of the Eckart family in North America.

- I do not believe that my findings completely rule out the possibility that one or both Jonathan Eckarts was a Londoner at one time or another. They appear to have been of the merchant class with much better than average education and many such families had branches in both England and Germany. After all, the King and the Kaiser were first cousins! [22, Letter]

- He [Jonathan Eckart, d 1794] had another nephew of the name of Eckart who lived in Quebec and who inherited a part of his fortune. Maybe this one is your ancestor. [5280]

- Be it remembered that on the Sixteenth day of June [1794] in the Thirty fourth year of the Reign of our Sovereign Lord George the Third, King of Great Britain....Jonathan Eckart, John Rheinhart, Christian Rapp, and John Frederick Rheinhard, all of the City of Quebec...for the purpose of choosing a Curator to the vacant Succession of the late Jonathan Eckart, and having been severally duly sworn, after due deliberation, thy chose and nominated the above named Jonathan Eckart, of the City of Quebec, tobacconist, to be Curator, which nomination we have confirmed, and the said Jonathan Eckart, having accepted thereof was duly sworn to discharge his duty as Curator to the said Succession of Jonathan Eckart deceased to the best of his skills and knowledge and as the Law directs.

- While looking through the land petitions I happened across an [Eckart land petition](#) that might be of interest to you, if you haven't seen it already (it looks like Jonathan Eckart, his son-in-law James Hanna, and some others wanted to start a township.) [8336, email]
- ECKART, Jonathan, St. John street, Quebec, and Elizabeth, his wife. Deceased. Notice of sale by auction of all the stock in Trade of the deceased. Also their household furniture. Quebec Gazette, 12 March 1812, #2452. [7149, p 2]
- Petitioner for the Election of a Curator to the Succession of the said Jonathan Eckart. [7171, p 5]

Research: • The Reinhart/Eckart names first appear at an 1805 Quebec baptism for Jonathan Eckart/Elizabeth Robert's child Isaac, where John Reinhart was godfather (your web site).

- in 1805 John Reinhart was a Grand Juror in Quebec along with Josias Wurtele, Jonathan Eckart. I've located their signatures on various jury files at Canadian National Archives. The name Wurtele also appears in many Reinhart papers; Josias's son went on to become a famous Quebec judge.

- 1806 records list John Reinhart vs Eckart in 'Court of Common Please' - small claims court. Haven't located that file.

- 1820 Quebec City, John Reinhart purchases a lot (and "heirs Eckart" purchase a nearby lot) in heart of what is now old Quebec. [2659]

- No comprehensive passenger lists of Canadian ship arrivals have survived prior to 1865. A few scattered lists do survive though and are at the Archives of Canada, Ottawa. [4208, p 2]

General: • The "French Regime" lasted until 1763. After the defeat of the French, many British regiments were demobilized in both the northern colonies (Upper

Canada, now Ontario, and Lower Canada, now Quebec) and in the southern colonies (Massachusetts, Connecticut, New York, etc.), and many of these regiments had been recruited on the European mainland, principally in Holland and Germany. Others were Scotch and Welsh regiments. This leads to the theory that Isaac Roberts and Jonathan Eckart may have been members of such regiments and that Jonathan was joined by his nephew, son of Martin Eckart, but also named Jonathan. This is no more than a guess. There is absolutely no documentary proof of where either Isaac Roberts or Jonathan Eckart came from or why they emigrated. [22, p 4]

- In the register of St. Andrews Presbyterian Church – burial of Mary, “wife of Isaac Roberts” died 26 May 1811 age about 71 years. One of the witnesses at this burial was Jonathan Eckart who is not otherwise identified but who was probably the Father of WRE who had married Elizabeth Roberts in 1794. [22, p 4; Note 4]

- PUTATIVE: Mary Sproat leaves William Nelson and goes to live with neighbor Isaac Roberts, ca. 1772. They have children of their own, so now it’s a blended family. [8333]

- Then, William (Guillaume) Nelson dies c. 1791. Yay! So now Mary Sproat is free to marry and she and Isaac Roberts [get married in 1792](#). She is listed as a spinster, not a widow. [8333, email]

Marriage Notes: • The Roberts children are all illegitimate but only the later ones are marked as such, because immediately post-Conquest, the Anglicans are disorganized and overworked (?) [8333, email]

• As for your comment about Mary Sproat leaving her marriage, I agree, I don't see why that would be legally recorded anywhere. However, at her [1792 marriage to Isaac Roberts](#) she was called a spinster, which I thought was reserved for women who had never been married? I'm not very familiar with Anglican church formulae but certainly the RC church is very particular about such things, so she would have been specifically identified as a widow in the register if it were a Catholic ceremony. The Anglican population of Quebec City was pretty tiny at the time so it seems unlikely that the community was unaware of her situation; but on the other hand, it was poor old [de Montmollin](#) who performed the ceremony, and he apparently spoke little English and wasn't, perhaps, a very good priest, so the wording can probably be overlooked in any case.  Baptism: 9 Nov 1788, Quebec, Quebec, Canada [3846, p 1]
 Death: 19 Dec 1851, Saint-Charles-de-la-Belle-Alliance, Beauce, Quebec [3846, p 1]
 Burial: Anglican Cemetery, Sillery, Quebec, Quebec [3940]
 Occupation: silversmith, businessman, militia officer, and seigneur [3846, p 1]
 Father: **James G. HANNA** [3846, p 1] (abt 1737-26 Jan 1807)
 Mother: **Elizabeth SAUL** [3846, p 1]

- James Godfrey Hanna's father arrived at Quebec from Dublin about 1763 and two years later had established himself as a clockmaker, watchmaker, silversmith, and merchant at "the sing of the Eagle and Watch," 15 Rue de la Fabrique. There he trained James Godfrey to follow him as a craftsman and merchant, and in 1803 he took his son into partnership. After his [father's] death in 1807, James Godfrey continued the business along the lines established by his father. [3846, p 1]

- In addition, he owned a quarry on Rue Saint-John which he leased in 1817. Hanna also began to develop the seigneurie of Saint-Charles-de-la-Belle-Alliance in the Beauce region, which his wife inherited from her father. In 1817 he purchased 3,000 acres in the area, probably near his wife's property, and in the same year he announced his intention of petitioning the House of Assembly for permission to

build a toll-bridge over the Riviere Famine in the parish of Saint-François (at Beauceville). [3846, p 1]

- Hanna's partnership with Delagrave and other plans were abandoned early in 1818 when he went bankrupt. ...his bankruptcy brought to an end the family's association of more than 50 years with the silversmith-merchant trade of Quebec.

Hanna probably left Quebec soon after his bankruptcy. He settled on his wife's property in the Beauce where he attempted to live the life of a seigneur. [3846, p 1]

- M. James Godfrey Hanna was a "horloger" someone who repairs the clocks and watches, living in Quebec City. He even knows what street: Cote de la Fabrique, very close to Chateau Frontenac (if you have ever visited the old town, Quebec city is beautiful and some parts well preserved like the beginning of Nouvelle France). This corresponds exactly with your Record.

They are buried in the Anglican cemetery in Sillery (suburb of Quebec). There are monuments about them... [3940]

• Gethings was a lawyer first in Quebec City, then in Montreal, and seems to have been descended/related to some notables of the time – MacPherson and Lemoines we think. I have several of his things, including his personal diary, an account book and some sketch books. I'm going to re-read the diary now that I know Anna's name to see if I can find any reference to her. It was written when he was young and single, and there are great passages about walking on the promenade, skating, going to balls til 4 in the morning, and reading at his "club." This is the same kind of world presumably that your great grandfather would have lived in – my great grandfather was only 9 years older than your great grandfather I think. [5068]

Death: bef Jun 1777 [8333, p 2]

Memo: putative; based on birth of younger sister by same name

Father: **Isaac ROBERTS** - Grandfather (abt 1737-23 Jan 1817)

Mother: **Mary SPROAT** [7233, email], [8332], [8333] - Grandmother (abt 1740-25 May 1811)

- said to be a “natural” child, i.e. born out of wedlock. [22, p 4; Note 2]
- Note: The questions raised by the above two listings [Marguerite and Marguerite] are obvious. Were there two Isaac Roberts? If there was only one did he have a legitimate child by his wife in 1775 and an out of wedlock child in 1777 whose baptismal name was the same? As far as the records are concerned, there are questions but no answers. [22, p 4]
- Note: Her name given at baptism as “Marguerite Roberts”; surmise this to mean that this child is the child of father and mother, Isaac Roberts and Mary Sproat, unmarried, responsible for the infant’s care. [8334, p 4], [8335, email]

Marguerite ROBERTS - Aunt

Birth: 1777 [8332, email]
Baptism: 29 Jun 1777 [22, p 4]

Memo: about 4 years ago

Death: 1821 [7150, p 1]

Flags: Eldest Son

Father: **Johann Ulrich REINHARDT** [4207, p 2] (24 Jun 1734-30 Dec 1816)

Mother: **Anna Maria WUERTELE** (16 Mar 1734-4 Apr 1798)

- 3rd child; born Johann Georg Reinhard. [7150, p 3]

- In 1787, John George Reinhardt/Josias Wurtele petition for land.

To his Excellency The Right Honorable Guy Lord Dorchester, Governor and Commander in Chief of the Province of Quebec:

The memorial of George Wurtele, Josias Wurtele, John George Reinhardt, Jonathan Eckart, Junior, and Gottlieb Bauer....Humbley sheath That your memorialists are Natives of Germany and came into this Province about 4 years ago, and that they are desirous of settling and improving a Tract of land upon the Grand River. They therefore pray your Lordship will be pleased to grant them two hundred acres of land for each person. [7150, p 2]

- In 1806 John Reinhart is godfather for Jonathan Eckart/Elizabeth Robert's son, Isaac. [4192, p 2]

- John Reinhart was a Grand Juror in Quebec along with Josias Wurtele, Jonathan Eckart. [4192, p 2]

- I failed to mention in an earlier message that in (the many) references that I have to John Reinhart in Quebec, one John married Judith Cunningham, daughter of John and Mary Cunningham and then I have another record very shortly after of John marrying Isabella Roberts. The dates make me think that it is the same John. There seem to have been a lot of early deaths, in men and women. Hard to keep track of who they remarried. [4208]

- Petitioner for the Election of a Curator to the Succession of the said Jonathan Eckart. [7171, p 5]

- John Reinhart, Tobacconist of the City of Quebec, Widower, was married (by Licence) to Isabella Roberts, daughter of Isaac Roberts, Shopkeeper, of this City,

same City Sponsor, this eighth day of September in the year of our Lord One thousand eight hundred and four. [Witness] Present: Isaac Roberts, father to Isabella Roberts; Jonathan Eckart. [8332, p 2]

2 Children...

- i. **Isaac Roberts REINHART** - 1st Cousin (-Sep 1807)
- ii. **Isaac REINHART** - 1st Cousin (1808-)

Marriage Notes: • Witnessed by Isaac Roberts, father to Isabella Roberts; and by Jonathan Eckart. [8332, p 2]

William ROBERTS - Uncle

Birth: 1780 [8332, email]
Baptism: 14 Nov 1780, Quebec City, Quebec, Canada [22, p 4, note 3], [8332, p 3]
Father: **Isaac ROBERTS** - Grandfather (abt 1737-23 Jan 1817)
Mother: **Mary SPROAT** [7233, email], [8332], [8333] - Grandmother (abt 1740-25 May 1811)

• said to be a natural child [meaning: illegitimate, out of wedlock] [22, p 4; Note 3], [8332, p 3]

James NELSON - Half Uncle

Birth: abt 1762 [8333]

Mother: **Mary SPROAT** [7233, email], [8332], [8333] - Grandmother (abt 1740-25 May 1811)

• My person of interest, James Nelson, is the son of William (Guillaume) Nelson and Mary Sproat, per his 1788 marriage (Quebec Notre-Dame). I believe he was neighbors with Isaac Roberts at 5 and 8 Ste.-Anne street. [8332, email]

Spouse: **Marie Joséphe LEPINE-LALIME**
Marriage: 1788, Quebec City, Quebec, Canada [8332, email & p 3], [8333, marriage only]
Memo: Notre-Dame
Birth: abt 1762 [8333]

Mary NELSON - Half Aunt

Birth: abt 1766 [8333]
Death: 1829, Quebec City, Quebec, Canada
Memo: Holy Trinity Anglican
Burial: 1829, Quebec City, Quebec, Canada [8332, p 4]
Memo: Holy Trinity Anglican; witnessed by Isaac R. Eckart, nephew
Father: **William (Guillaume) NELSON** [8333] (-abt 1791)
Mother: **Mary SPROAT** [7233, email], [8332], [8333] - **Grandmother** (abt 1740-25 May 1811)

- Mary Nelson remains unmarried ("[Miss](#)" [at her burial](#) aged 63 in 1829 so born c. 1766) and retains close ties to her step-family, so she is considered an aunt by her step-sister Elisabeth's son Isaac Roberts Eckart. [8333, email]

Henrietta Nailer NELSON - Half Aunt

Birth: 1769 [8333]
Death: 1789 [8333]

- The following was written by my great grandfather, William Roberts Eckart, on very thin onion skin paper with brown ink, so this has been copied from a primary source.

- I sent this off to a man who was/is researching the Comstock & hydraulics etc. engineers of this period - particularly interested in WRE's designing of the steamboat Meteor which resides at the bottom of Lake Tahoe & of which there is talk of its being raised.

• I found this little book while going through my grandmother's book collection. She lives only a short distance from your family home on Oak Grove, on Champion Place in Alhambra. The Book has such a wonderful signature & address so I "googled" it. I think I lost half a day as you have done such a good job of researching & cataloging the events of your grandfather. As a 3rd generation Calif. native, I just love reading of early Calif. history & people. Great Fun!

I hope you enjoy the book & pass it on to your grandchildren.
