Birth: 1735, Virginia¹²⁸¹, p 35 & p 40
Death: bef Apr 1799, Fayette County, Kentucky¹²⁸¹, p 16,³⁸²⁶, p 33; year & place only
Father: James REYBURN²⁷¹¹ - Father (btwn 1706-1710-11 Jan 1799)
Mother: Elizabeth COLE²⁷¹¹, p 2 - Mother (abt 1710-aft 1760)

- Marriage to Agnes McComb based on:

Page 56. – 15th March, 1788. Andrew McCombe's will–To wife, Jane; to daughter Agnes Reburn, etc.¹²⁸¹, p 28

- p. 429, Will of ADAM REYBURN requested all debts be paid, and that his loving wife, ELIZABETH REYBURN, keep the plantation in her own hands to “raise my and her children” ELPSEY REYBURN, ADAM REYBURN and THOMAS REYBURN as long as she thinks proper to do so, and that she may have liberty to continue her other children, and if at any time she may desire to quit the place, the executors may rent it out to the best advantage for the support of “her and them” until the youngest child is of age – then the place may be sold by the executors, and wife is to have 1/3 of the money raised from the sale as long as she leaves the balance to be equally divided between Ilpsey, Adam and Thomas, and at her death, her part to be divided between the other said children, or as many of them as may be living. Also to wife, the gray horse to be at her disposal, and she may keep the bay filly to breed and her increase to be divided among her first children, Mary, Leinon [?], and Susanna, and mine, Elpsey, Adam and Thomas. Wife may keep the stock of cattle, hogs and sheep all in her own possession as long as she thinks it proper to “live here,” together with the household furniture, farming utensils, and all other appurtenances. The testator desired that his wife give the children sufficient schooling. If the wife quits the place, she may take with her all the moveables to assist her in housekeeping elsewhere. Appoints William Dickey and son JOSEPH REYBURN as executors, July 21, 1798. Thomas Martin and Michael Dickey, witnesses. Probated April Court 1799. Attested copy re-recorded August Court 1807, the original having been destroyed by fire.¹²⁸¹, p 16

- (1) 9-9-1778 – Adam Raeburn of Monongalia Co. [present day West Virginia, county formed in 1776 from District of West Augusta, Virginia] to Andrew and William McComb, power of attorney convey to Robert Mathews.

- (2) 3-21-1780 – Adam Raeburn (by Andrew McComb) of Westmoreland Co., to William Mathews.¹²⁸¹, p 43

- It does appear to me that the James mentioned at the end of the second paragraph is our Adam Reyburn's father, and the Joseph from Staffordshire, England, is James's

father.^{1281, p 1}

- In this city, on Saturday, the 27th ult., Mrs. Eliza, relict of the late John Carlisle, sen. Esq.

Of the deceased it may be said, that, from a child, she knew the holy scriptures. She connected herself with the Presbyterian Church, of this place, in [obscured]. She was steadfast in the faith. In hospitality she abounded. In her family, she discharged the duties of a mother and of a Christian with great fidelity. She loved to hold converse with the Savior alone. In the constancy of her attendance on the means of grace—in her interest for the welfare of Zion, and in her prayers for the life-giving presence of the Spirit, she has left us an example that we may follow in her steps.

In reflecting on the many trials of affliction experienced by this mother in [obscured], we are reminded of this saying of the Psalmist: “Many are the afflictions of the righteous, but the Lord delivereth him out of them all.” Through much suffering, she attained to a high degree of Christian patience and resignation. The language of her heart, as well as the expression of her lips, was this: -- “The Lord will do all things well.” Being herself a sufferer for many years, she reflected much on the sufferings of Christ, and ever remembered Him, in the gardens and on the [obscured], with peculiar interest and tenderness in her last illness, which was painful, and continued for some weeks, she was greatly sustained and comforted by the presence and promises of her Savior. Her faith was strong -- her mind was peaceful -- her hope was sure and steadfast. Her last words were these: “I am leaning on my blessed Savior, and am happy.” “Blessed are the dead who die in the Lord,” and blessed is that hope concerning them, which mingles with and [obscured] all the sorrows of surviving friends. Her days are numbered. Her work is done. She has crossed the Jordan. She has received her crown, and is now rejoicing in the presence of Him who hath said, “I am the resurrection and the life.”

Memo: Section 7

Father: **Andrew CARLISLE** (1736-bef 29 Dec 1822)

Mother: **Eleanor** (-bef 10 Aug 1821)

- John Carlisle came to Chillicothe, Ross County, Ohio, with his parents, Andrew Carlisle and Eleanor Carlisle, in 1792, when it was part of the Northwest Territory.

In 1801, on April 30th, at Chillicothe, Ohio, John Carlisle and Elizabeth Mann were united in marriage by the Rev. M. Speer, of the First Presbyterian Church.

He always wore a cue and persisted in this peculiar style of dressing his hair until his death, which occurred July 19th, 1847, at the family homestead on Main street, Chillicothe. Every morning during his life he had his hair dressed and his cue braided and tied with a black ribbon by his barber, Jim Richards. His hair was black and made a braid about two feet long.

The following obituary notice was taken from the Scioto Gazette of July 21st, 1847, Chillicothe, Ross County, Ohio:

“Died – In this city about one o’clock A. M. on Monday last, after a short and painful illness, in the seventy-sixth year of his age, John Carlisle, Sr., Esq.

“The deceased for the last fifty years has been one of the most active and useful citizens of Chillicothe.

“He settled here about 1792, and soon entered upon a successful and extensive mercantile career, which was continued until after the late war with Great Britain.

“During the struggle in which the people of the Scioto Valley warmly participated, Mr. Carlisle on more than one occasion made large advances to the government, both of goods and provisions, organizing, transporting and equipping troops, from his own private purse, thus contributing material aid to his country.

“In his mercantile transactions he was distinguished for liberality to debtors, and promptitude to creditors, and ever combining the character of a public-spirited citizen, high-minded gentleman and an enterprising merchant.

“For the last twenty-five years Mr. Carlisle has devoted much of his attention to the interests of this town and county.

“In the address published in our last paper by the Judges of the Court of Common Pleas for this county, ample testimony is borne to this philanthropic and liberal course.

“His services as Commissioner of Ross County continued to the day of his death and have been of marked utility. In the discharge of the different duties of that office, he probably gave just offense to none.

“Mr. Carlisle was ever an ardent and honest politician, none more uncompromising of principle, none more lenient to the convictions of others than he. A close and intimate personal friend of Henry Clay and of General William H. Harrison, and others of national reputation, but a closer and more intimate friend of suffering humanity, and particularly so of the poor and unfortunate of our own community.

“We trust that some contemporary of Mr. Carlisle’s will furnish our city with a suitable notice of the life and career of this aged and respected citizen. He was one of the few men of the olden time who have been spared to the present generation, as

examples of integrity and manly virtue.

“Mr. Carlisle as the father of a large family, all of whom, yet living, occupy respectable positions in society. He leaves an aged wife, with whom he has lived a faithful and a loving husband for nearly half a century.

“His funeral was attended yesterday by the Masonic fraternity, of which organization he was an honored member of high standing, and a large concourse of citizens, including the municipal authorities.”

In the August number of the Scioto Gazette (1847) appeared the following clipping:

“Judge Bailhickey was formerly the editor of the Scioto Gazette, and at this writing is the proprietor and editor of the Alton (Illinois) Telegraph, and thus discourseth upon seeing the notice of the death of the late Mr. Carlisle:

“ ‘Passing away. The following obituary notice extracted from the last Scioto Gazette, of Chillicothe, Ross County, Ohio, a newspaper, the name of which recalls to us the many passing incidents of the olden time, announces the death of an old and valued friend.

“ ‘We became personally acquainted with the late Mr. Carlisle in 1812 and know that his great work as a man and public spirit as a citizen are not here overrated.

“ ‘To him more, perhaps, than any other individual is the beautiful city of Chillicothe indebted for many of its improvements, and notwithstanding his advanced age, his death may justly be considered a great loss to the community among whom he so long resided.

“ ‘The friends of our youth are passing away, one after another, and their departure from the stage of human action earnestly admonishes us that our own cannot be far distant.’ ”⁹, pp 6 & 7

- Their son John became a prominent business man in Chillicothe having a mercantile business at the SE corner of Paint and Main streets. His brother [sic] Henry Nelson continued in business with him and the two built a two-story brick building on this busy corner.⁶⁴⁸, p 118

- He [William Roberts Eckart] married Eleanor Carlisle, who was born in Chillicothe, Ohio, where her father, John Carlisle, was a pioneer resident, settling there in 1798. Mr. Carlisle was a merchant of prominence, a man of influence in public matters, and a Republican in politics.²⁰⁹

- The town of Chillicothe, in Scioto township, was made the seat of government for the Northwestern Territory in 1800, which was previously at Cincinnati, but by act of Congress removed to Chillicothe. It was incorporated as a town January 4, 1802, and the following officers appointed by General St. Clair, commanding the Northwestern

Territory:John Carlisle, Members of Select Council.^{642, p 128}

- The first flat boats that floated down the Scioto were two sent out by McLaughlin and John Carlisle, in 1803, from Chillicothe, and destined for New Orleans.^{63, p 79}

- For some time the Chillicothe congregation worshipped in the old state house, the use of which was generously offered to them. There is no record as to the time when the first meeting house was erected; but it must have been commenced not long after Mr. William's acceptance. In the then existing circumstances of the congregation, the building of a church was a work demanding great courage and self-denial. After commencing the building, they found themselves unable to finish it, and were in danger of losing all they had invested. In this emergency John Carlisle came forward, and at his own expense finished the building and handed it over to the congregation free from debt.^{63, p 249}

- one of those "belonging to the bridge company"^{63, p 269}

- A toll bridge was constructed across the Scioto in 1815, the company owning it belonging to... John Carlisle.^{641, p 70}

- The campaign of 1840 was the political event in the history of Chillicothe. As may be inferred from the preceding statement, the political sentiment was largely with the "Tippecanoe and Tyler too" party... This...prepared the way for the largest and most enthusiastic political meeting ever held in Ross County. ...it was estimated that forty thousand people assembled at Sugar Grove to hear General [William Henry] Harrison. On this occasion the ladies of the city presented General Harrison with a cane cut on the battlefield of Tippecanoe where he won distinguished honors as a military officer. John Carlisle delivered the presentation speech, to which the General responded feelingly and appropriately. The ladies concerned in this gift were ...Eliza Carlisle, etc.^{641, pp 75-6}

- Coming to Chillicothe in 1802, he [John Waddle] became a clerk with John Carlisle, another Irishman, born in 1771, who had come to Chillicothe with his parents in 1798.^{641, p 148}

- John Carlisle [was] among the first general merchants. In 1802 John Carlisle advertised that he kept superfine and coarse cloths, cassimeres, blankets, camels-hair shawls, India lute-string, books and stationery, queens-ware, cutlery, coffee, tea, sugar, liquors and mill saws, a sufficiently varied assortment.

It is impossible to give a full list of the various mercantile enterprises which have flourished in Chillicothe; and the following list contains only a part of the more prominent firms:

Dry Goods: includes A. & H. N. Carlisle

Porkpackers: includes Cox & Eckert⁶⁴¹, pp 222-4

- She [Elizabeth Carlisle] was a daughter of John Carlisle, who located in the county in 1791; was thus a resident before the organization of the county, which occurred in 1798, and eleven years before the state was admitted into the Union; he spent his life here and at one time owned most of the land upon which Chillicothe is now located, besides being the possessor of large tracts in other localities of the county.⁶⁴¹, p 415

- Came to America with his parents when a child. In 1802, he came to Ohio and settled in Ross County, where, in 1806, he married Nancy Mann.

Mr. Waddle had purchased 1,700 acres of land in Madison Township, Clark Co. (as it is now) in 1812, and in 1830, they located on their land.

While on a visit at Chillicothe, in 1831, he died, and his widow then moved back to Chillicothe, where she resided till 1874, when she too was summoned to quit the cares of earth.^{147, p 1075}

- Another man prominent in the pork-packing industry was John Waddle, a native of Belfast, Ireland, who was brought by parents to western Pennsylvania about 1787, when he was four years old. Ten years later he was apprenticed to Alexander McLaughlin, of Pittsburg, a famous merchant who became afterward a resident of Chillicothe. When seventeen years old, John Waddle took a flatboat load of pork and flour to New Orleans and returned to Philadelphia by way of the Atlantic, a common route for traders.

Coming to Chillicothe in 1802, he became a clerk with John Carlisle, another Irishman, born in 1771, who had come to Chillicothe with his parents in 1798. In a few years Waddle had a business of his own, was busy in pork-packing and flatboat commerce and during the war of 1812, he had important contracts for supply of the army. He lost nearly all his fortune in the troubles of 1819 and 1828, and died at Chillicothe in March, 1831.^{641, p 148}

- Dr. William Waddle, for many years the leading physician of Chillicothe, was the son of John Waddle, whose father emigrated to western Pennsylvania from Ireland in 1783. John Waddle came to Ross county in 1800, and married Nancy Mann, of Kentucky, daughter of Col. William Mann, of that state.^{641, p 201}

• **DEATH OF AN OLD CITIZEN**

Mr. Andrew Carlisle, one of our oldest and most respected citizens and the oldest merchant in the city, died at this residence on Caldwell street, on Sunday morning last, after an illness of several weeks. Mr. Carlisle was born in this city June 15th, 1802, and consequently was in the seventy-seventh year of his age. He commenced business here in 1822, on Water street, where the Lake House now stands, the name of the firm being Carlisle & Dimmitt. He moved from there to the stand now occupied by Moses Hurst, and thence, in 1833, to the corner of Main and Paint streets, where he was engaged in business at the time of his death. At that time that location was in the suburbs, and clear outside the range of business. He purchased it of the United States Bank. Mr. Carlisle was a man, known by every man, woman, and child, and was universally respected.^{644,2713, p 2}

Mother: **Elizabeth MANN** - Granddaughter (25 May 1786-29 Jan 1849)

• Henry Nelson Carlisle died about six months before his partner and oldest brother, Andrew, in the fall of 1878, in his sixty-ninth year, having been born in this city November 24, 1809. On the 27th of October, 1841, he was married to Miss Elizabeth McLene, of Columbus, a daughter of General Jeremiah McLene, who was at one time secretary of State, and subsequently a member of congress from Columbus. His wife and two daughters survive him.

From an obituary notice, published at the time of his death, we extract the following:

“Mr. Carlisle was a member of the firm of A. & H. N. Carlisle, the oldest firm in the city, and has been connected with the business at the present stand, corner of Main and Paint streets, since 1826 — over fifty years. He was a successful business man, growing not only in wealth during all these years, but in reputation for honest upright dealings. He was a man whose word was as good as his bond. In private life he was an unassuming, genial gentleman, kind-hearted and charitable; giving not ostentatiously but liberally, but where his judgment taught him charity would not be mis-applied. No man had more friends among the older and substantial citizens of the county, and his death will be a cause of universal regret.”

The officiating clergyman at his funeral was the Rev. Dr. Biggs, of the First Presbyterian church, of which Mr. Carlisle had been for many years a member.⁴⁰³⁴

Chillicothe 5 November 1838

Dear Sir

Some days back we valued on you for \$200 at 10 days – at maturity – you will please not pay the draft. We have had some difficulty with the party to whom we gave the same Messrs Galloway & Myers of Lancaster. You will of course write those gentlemen the reasons why you did not pay the same stating of course that it was at our particular request you did not do so. We shipped a day or two ago some whiskey to [unclear]. They will give you some of it provided you have sold the balance. Those gentlemen are under advances to us and we therefore are bound to ship our whiskey to them. But as fast as you can sell and pay them they, if they have any, will give you a portion.

Your friend,

Capt. Eckart⁶²³⁶

(in different hand at bottom of letter: Letter marked A and referred to in the deposition of D. Hersh (?) hereto attached. L. M. Martin)

- “I [George Armstrong] will give you all the information she [Mae Eckart Armstrong] has about the Eckart family.

Your Husband’s [William Rankine Eckart] father and grandfather were born in London. They moved to “Quebec, Lower Canada” when Wm. R. (the son, was a small lad). Wm.

R. was born about 1816 or 17 and died about 1876 or 1877 [sic] at Cleveland Ohio and is buried there. He lived on Euclid Ave. & I understand had a mansion which is now some kind of a Club's house. He was married may be three times:

1st at Lancaster, Ohio -- Jany 5th 1838 to Anna Maria Cox

2nd at Chillicothe, Ohio -- Aug 24 1840 to Eleanor Ann Carlisle

3rd at Chillicothe, Ohio -- Oct 18 1864 to [crossed out]

Mae's father [Isaac] was born Dec. 11 1837 & died Sept. 21st 1905 - & was married Oct. 18th 1864 at Chillicothe Ohio to Rebecca White. When Wm. R. Eckart (Mae's Grandfather) was married he wrote in the family bible that he was from "Quebec Lower Canada." I understand that there is where his father is buried. Mrs. Armstrong's father often said that his father & grandfather had tried to trace back their family line and find out where the name came from but could not do so & that the grandfather of your husband dropped off the final letter "d" & it was changed from Eckhardt to Eckart. The name certainly sometime came from German source but it must have been back generations.

Mae sends love -- little Virginia Kerrick, Mimi's daughter, was 8 yrs old on the 19th of March.

Yours respectfully,

Geo. G. Armstrong¹⁵¹

- W. R. E.'s father came to Ohio from Quebec — had a managing interest in Putnam Flouring Mills. Note also says "built(?) Bulwer Standard Mine at Bodie." Robert Merriam who married (my Great Aunt Lillian Kindred, on my mother's side) also worked for Union Iron Works (he knew WRE).³⁹²⁰

- The source of my information is actually your grandfather, Will Rankine. When I was in college, I did a short paper on the Eckart name. Not a very good one except there is some factual information. For instance, our great grandfather has Junior (Jr.) after his name. His father William Roberts Senior (1816-1876) and his father (no name or date) were both born in London. They moved to Quebec, Canada when Will Roberts Senior was a small boy. The father was buried in Quebec and Will Roberts Senior migrated to Ohio. He's buried in Cleveland.³³⁵², pp 1-2

Meade Woodson Clay

• [He] engaged in the lumber business, owning a large sawmill and five thousand acres of excellent timber at the mouth of the Sunfish Creek, in Pike County, Ohio, on the Ohio Canal. After the great fire of 1852, Mr. Carlisle sold the majority of the lumber and aided materially in rebuilding Chillicothe. He sold out in 1854 and spent several years in traveling and prospecting.

During the War of the Rebellion, he was appointed from the ranks by Governor Dennison, of Ohio, to an honorable position with the Thirty-first Ohio Volunteer Infantry, continuing until the close of the war.

After the war he was engaged in the wholesale grocery business at Chillicothe and Cincinnati, Ohio, with a branch store at Memphis, Tenn., supplying the five Government hospitals with food. He closed out the grocery business in 1867, and in

1876 engaged in the flouring and milling business at Worthington, Minn. In this adventure, through endorsing for others, financial reverses overtook him, and retiring from active business, he removed with his family to Cleveland, Ohio, and in 1894 removed to Evanston, Ill., in order to complete the education of his youngest son and to establish a home for two of his sons who had located in Chicago. In 1900 his sons, whose business associations made it necessary to locate in the East, concluded upon establishing themselves at Buffalo, and early in the spring of 1901 the family went to Buffalo, N. Y., to live.^{9, p 8}

- Estate probated without a will.

Value of Meade's personal property did not exceed one hundred dollars. This is followed by:

"The said decedent seized of none real estate situated within the State of New York, and that the estimated value thereof does not exceed none dollars."³²⁵⁶

Hon. Gideon Welles, Secretary of the Navy

Sir

Enclosed I forward my letter of acceptance to the position of 3rd Asst. Engineer in the U. S. Navy, also my letter of Citizenship, and Oath [of] allegiance, being the first opportunity that I have had of so doing since I received them.

I am respectfully,

your Servant

William R. Eckart, Jr.

3rd Asst. Engineer

U. S. Navy⁷⁴²

- To Hon. Gideon Welles, Secretary of the Navy

Sir

I herewith desire to tender to you my resignation of the position of 3rd Asst. Engineer in the Navy.

I am urged to this course by the following considerations: during the thirty-two months which I have served in this Squadron, I have been upon the "Sick List" nearly

one year both on board of the FlagShip "Lancaster," and this vessel, and it will be seen by the letter of the Medical Officer of the Narragansett, which I enclose, that there is no immediate prospect of entire recovery. I therefore respectfully solicit the early action of the Department upon my communication.

I am very respectfully,

Your obd Servent,

William R. Eckart

3rd Asst. Engineer U.S.N.⁷⁴³

- **Steam in the Chronicle Office.**

Today the [Vallejo] DAILY CHRONICLE is printed by steam. We judged it to be an important event in the history of Vallejo enterprise when less than two years ago the proprietor of this establishment introduced a posser press to accommodate the rapidly increasing circulation of the CHRONICLE, but since that time his business has been increased so wonderfully, that he will now have four presses driven by steam. In fact, steam, or some other motor other than human muscle, had become a necessity to accommodate the business of the CHRONICLE office, and he feels a natural pride in being the first party to introduce it into a Vallejo printing office. Our engine is a neat and compact six-horse power, built at the Union Iron Works, San Francisco, from drawings made by W. R. Eckart, and is in every respect a complete piece of machinery. The shafting and hangings are from the Foundry and Machine Works of Heald & McCormick, Vallejo, who have made an admirable job. Hereafter we shall be able to expedite the issue of the CHRONICLE, and accommodate patrons with the delivery of job work at an earlier time than formerly. The machinery may be seen at work after three o'clock in the afternoon.¹⁹⁹⁹

- **SERENADE.** The National Brass band serenaded Mr. Eckart and his bride last evening, thus welcoming them home from their bridal tour. Mr. Eckart responded handsomely, taking the boys to the Dawson House, where they indulged in champagne and other good things.²⁰⁰⁰

- **A NARROW ESCAPE.** — The Oroville Record, of the 17th instant, says on Friday night of last week, Mr. W. R. Eckart, of the Marysville Foundry, had a narrow escape from assassination in Oroville. It seems that a company of Chinamen in the Lava Beds, had purchased some machinery from the Marysville Foundry, and by some means, had got the idea into their Celestial heads that they were being cheated by the interpreter who had made the purchase for them, and Mr. Eckart came to Oroville to settle the matter. The Chinamen seemed to think that he was in with the interpreter, and bad feeling was engendered against them. At night as he was standing on the corner of Montgomery and Huntoon streets, a Chinaman passed and struck him with a knife. The

blow was aimed at his heart, and given with much force. Fortunately it struck a large and thick memorandum book in the breast pocket of his coat, which proved sufficient to check the progress of the knife. Such was the force of the blow, however, that the point of the knife penetrated the cover of the book, passed through several letters enclosed in the book and penetrated several leaves. The Chinaman escaped in the darkness. It is understood that the interpreter knows the perpetrator of the dastardly attempt to assassinate Mr. Eckart, but does not know of his personal whereabouts.

- Statement of Services as a Mechanical Engineer

Was born in Chillicothe, Ohio June 17th, 1841; graduated from St. Clair Street Academy, Cleveland, Ohio, as a Civil Engineer. Served a regular apprenticeship with Griffith, Ebert & Wedge, Zanesville, Ohio, as a machinist, and afterwards worked as a journeyman and draughtsman in their establishment.

At the breaking out of the war, entered the Navy as Engineer, July 8th, 1861, serving in that capacity on various government vessels until 1864, when my resignation was tendered and accepted, then entered the employment of H. J. Booth & Co., proprietors of the Union Iron Works, San Francisco, Cal. as assistant draughtsman, serving them afterwards as their Chief Draughtsman, Foreman, and Superintendent.

In May 1867 was duly examined as to my qualifications and licensed to act as a 1st class Chief Engineer in the Merchant Service (license No. 25, 1867). Same has been renewed on application in 1871 and 1875. After leaving the Union Iron Works in 1869, entered the employ of the U. S. Government at Mare Island, Cal. as Foreman, and was soon afterward appointed Superintendent of Steam Machinery where I remained until leaving to enter as partner in the Marysville Foundry January 8th, 1872 with my former employer. Where we are now carrying on the business of manufacturing mining and marine machinery under the firm name of Booth and Eckart.

Was educated as a Civil Engineer, at the St. Clair Street academy in Cleveland, Ohio was admitted as an Associate to the Institute of Naval Architects in 1869.

The Fulton Foundry is now under the Superintendency of Mr. Eckart, formerly of San Francisco, and is prepared to furnish drawings, estimates and specifications in mechanical engineering, and especially in the construction of steam engines and boilers

of all descriptions, wire rope, transmission pumping machinery, etc. All kinds of machinery, in fact, can be made here in the best style, and Mr. Eckart's wide reputation as a practical engineer is such as to give patrons solid assurance that their orders will be satisfactorily filled.²⁰⁰¹

- A New Iron Steam Yacht for Lake Tahoe

The Carson Flume and Lumber company have decided to build a new iron steamer to be used in connection with their extensive lumber business on the lake. Their fleet heretofore has consisted of the the iron steamer "Meteor," the wooden boat "Emerald," and such other boats as the necessity of their extensive business has compelled them to charter during their busy season. The "Meteor" was the first iron screw yacht ever constructed on the Pacific Coast, and has proved herself after two years' trial, as being the staunchest and fastest yacht ever built in the United States, having made upon numerous occasions over twenty-one miles per hour to the proof and satisfaction of many doubting experts, who can believe nothing but what they see and try themselves...

The boat as well as the machinery will be built from the designs and specifications of Mr. Eckart, Superintendent of the Fulton Foundry of this city, also the construction engineer and designer of the "Meteor" which has given such satisfaction to the company.²⁵⁸³

- AN UNPLEASANT EXPERIENCE
A Traveler Having to Wait for a Bed
Until a Corpse was Removed From It.

W. R. Eckart, of San Francisco, is still in town. He had a somewhat unpleasant experience at Pocatello, at which place he had to stop over one night on his way here. After some delay he was shown to a room at the railway hotel, and although the thermometer registered a long way below zero, he found the windows wide open and the room looking anything but cheerful. After having the windows closed and the lamp lighted, he remarked that there was a large number of medicine bottles in the room; and after getting into bed he became painfully aware of the fact that the air was strongly impregnated with the fumes of carbolic acid. The night being extremely cold, he drew the bedclothes over his head, when he found the carbolic was stronger in bed than anywhere else. Visions of small pox at once floated through his brain, and he came to the conclusion that some one from California with that disease had occupied the bed; but knowing that if such was the case the danger was already done, and he would gain

nothing by leaving bed, he lay quiet and went to sleep. In the morning he asked Boniface for an explanation, and was informed that a railroad man who had had his legs crushed had been occupying the room. Mr. Eckart said he hoped the gentleman had not been disturbed on his account. "Oh, no" said my host, "he died at 5 o'clock yesterday evening, and his body was sent east." This, of course, accounted for the delay in giving him the room.

- SUBMARINE BOAT.
SHE MAKES A REMARKABLE SHOWING.

Considered to be Absolutely Safe — The Vessel Dives Beneath the Water.

GREEN POINT, (N. Y.), Sept. 22. — The submarine torpedo-boat Holland made a remarkable good showing on her practice run today, and aside from the regular run of a mile under water at a uniform depth of seven feet, discharged a regulation Whitehead torpedo such as is used in the Navy. The trial lasted one hour and a half. W. R. Eckhart, [sic] consulting engineer of the Union Iron Works, San Francisco, took the plunge in the Holland. The torpedo, when discharged, took a downward course and struck the bottom fifty feet from the bow. The cause of the deflection of the torpedo off its course was thought to be the disarrangement of the mechanism. Otherwise the trial was most successful. Afterward the Holland, with Mr. Eckhart aboard, made a deep dive, completely submerging the flags, which are ten feet high. Five minutes later she came to the surface.

Eckhart said he considered the boat absolutely safe and practical, and would prefer being aboard the Holland when submerged than in the fireroom of any surface torpedo boat.

- "W. R. Eckart, veteran construction and mechanical engineer, A. M. Hunt and W. F. C. Hasson, electrical engineers, served as consultants during the building of the plant. L. M. Hancock was the engineer in charge." Nevada County Power Co. "Work on the Nevada power plant started with a rush July 5, 1895." "Despite the obstacles, the Nevada power plant was finished in seven months. Power flowed into Nevada City in Feb. 1896; to Grass Valley, a month later. Initial installed capacity was 300 kilowatts, soon to raised to 1,200 kW." (pp. 128-135)

Eckart was "In charge of design and construction of mechanical and hydraulic equipment" of Electra Powerhouse built by Prince André Poniatowski and his Standard Elec. Co. of California (inc. Nov. 27, 1897, W. Vir; reincorporated in Calif. Feb. 7, 1899). Poniatowski (first under Calif. Exploration Co, inc. April 1896 succeeded by California Exploration, Ltd, inc. 1898) optioned several mining properties in Amador County and

needed electricity to develop and operate the mines. Local supplier was Blue Lakes Water Co. (org. 1887 by W. Frank Pierce to build “a pipeline from Amador Co. to Oakland to supply 17,500,000 gal of water daily”). He negotiated with Pierce to supply electricity and financed (\$122,500) the construction of the Blue Lakes Powerhouse (450 kilowatt generators) “on an old millsite on the Mokelumne River 5 miles from Jackson, where water could be dropped 1,040 feet from the Amador Canal...” The plant began operating October 25, 1897. After this project Poniatowski conceived of a larger power plant which would be able to serve San Francisco, 143 miles away. He visited the Blue Lakes Region to examine the potential water resources including engineering data, water storage capacity, size of dams, and estimated costs. He estimated that the power plant would have to generate as much as 15,000 kwatts. This project was too big for his company so, working with W. H. Crocker, developed a plan of financing which included the formation of the Standard Electric Co. of Calif. The Blue Lakes Powerhouse was operated successfully until Nov. 1, 1899, when fire destroyed construction of the Electra Plant “the last word in design and construction.” Chief Engineer, “Dr. Frederick A. C. Perrine, first professor of electrical engineering at Stanford Univ. and later pres. of the Stanley Elec. Mfg. Co.” was responsible for the design of the electrical parts of the project and for the transmission system. “Associated with him were Frank G. Baum, brilliant Stanford engineer, and A. C. Bunker, young electrical engineer who had had experience with the Stanley Electrical Co., manufacturers of Electra’s generating equipment. Engineers C. P. Gilbert and C. H. Ellison were members of the extensive staff.” “In charge of design and construction of mechanical and hydraulic equipment was veteran W. R. Eckart who had a broad background of experience in mining and hydraulic work. He was an engineering officer of the Navy in the Civil War. He had designed the first locomotive built in Calif. by Peter Donahue’s Union Iron Works. He designed and built for the Bliss family the steamer Meteor which was operated for years on Lake Tahoe. At Virginia City he had been Consulting engineer for Mackay, Flood, O’Brien and Fair in the Comstock mines, installing high-pressure pipe lines to lift water from the lower workings to the surface by huge Cornish pumps.”^{2532,3945}, p 167

The following contribution to the “Report’s” efforts to bring about the drainage of the Comstock mines and the resumption of the deep mining therein, through advanced methods and the use of the most improved appliances is from the pen of W. R. Eckart, M. E. Mr. Eckart’s article is exhaustive and comprehensive, and coming from such a leading authority is sure to have great influence upon the mine engineers of the Comstock, who are now ascertaining the best means of draining the mines and searching for new bonanzas at greater depths.⁵⁷⁴⁹

- Excerpts from letter from John W. Mackay to William Roberts Eckart, 17 Aug 1899:

Prince Poniatowski, wired me last night, that you were coming with him to New York, and would be at the Waldorf on Monday. I am sorry I will not be here when you arrive, as I should have liked to talk with you on several topics. I am going to Idaho, with another party, where we have been prospecting mines for some time, and will probably arrive in San Francisco in about two weeks.⁵⁷⁵⁰

- When the history of engineering on the Pacific coast comes to be written it will not be complete unless the work of W. R. Eckart occupies the large place in the book that it occupies in fact and in the experience of his contemporaries. Mr. Eckart has been honored by membership in the following societies: American Society of Civil Engineers since 1881; American Society of Mechanical Engineers since 1882 -- vice president from 1883 to 1885; The Institution of Mechanical Engineers, London, 1878; Society of Naval Architects and Marine Engineers, 1893; American Society of Naval Engineers; Associate Member of The Institution of Naval Architects, London.¹⁸⁹, p 157
- [excerpt] Eckart was always on the firing line of progress and delighted in nothing more than in dealing with new and difficult problems. He was eminently a student in his manner of handling them, and spared no pains in insuring a sound foundation for his proposed solution or mode of treatment. He was notable as a collector of books and professional literature and of fine precision apparatus used in engineering measurements; was a member of many engineering societies and technical organizations, and occasionally contributed papers of value to their transactions. In 1872 he married Harriet Louise Gorham; to them were born three sons and one daughter. After a long period of failing health, during which he retained his keen interest in engineering, he died in Palo Alto, Cal., at the home of his eldest son.¹⁹⁹⁸
- William Eckart Dies at Ripe Old Age, Was Former Resident of Marysville and Had Wide Reputation As An Engineer

William R. Eckart, a brother of George R. Eckart of this city, died at Palo Alto Tuesday evening at 8 o'clock. He had been ill for some time and heart trouble was his ailment.

Deceased made his home in San Francisco until about a year ago, when he moved to Palo Alto. He was a former resident of Marysville and in the seventies was the proprietor of the Marysville foundry. Leaving Marysville he was form many years mechanical engineer for the Union Iron Works, and designed the engines of the famous old battleship, Oregon, and other ships built by this concern. After he retired from this position he entered the employ of the United States Government and was the representative of the government on all types of government boats. For the past

number of years he was the consulting engineer for a number of large electrical and other corporations and had a national reputation as an electrical and mechanical engineer.

His wife, who survives him, was Miss Hattie Gorham, a former Marysville girl, and the daughter of the late Charles M. Gorham, who was for a number of years the mayor of this city. Deceased at the time of his death was coiner in the United States Mint at San Francisco.

Deceased will be buried today at Palo Alto. He was seventy-three years old.²¹²

Military: • During his days of apprenticeship Mr. Eckart made numerous trips at the trial of new river boat engines and this awakened in him a desire to enter the government service as a naval engineer. At the outbreak of the Civil war he successfully passed the examination before the board of engineers, winning highest rank at that date. He was appointed third assistant engineer July 30, 1861, and ordered at once to join the fleet of naval vessels on the Pacific coast. While thus serving in the San Francisco harbor he met, and won the friendship of, a number of California's most eminent men in the engineering profession. Mr. Eckart had been mustered into the United States naval service as third assistant engineer on the Narragansett which was commanded by Commander S. E. Woodworth and was attached to the Pacific squadron under Commodore Charles H. Bell. On the 3d of December, 1862, he was transferred to the Lancaster under command of Commodore Joseph Lannan, of the Pacific squadron, and on the 23d of November, 1863, was returned to the Narragansett. The Narragansett and the Lancaster cruised up and down the Pacific waters along the coast of the United States, Mexico, the Central American states and South America, visiting the ports of San Francisco, Panama, New Grenada and Callao, doing patrol duty and protecting the interests of this country during the Civil war.

Ill health at length forced Mr. Eckart to resign and he was honorably discharged at San Francisco, March 2, 1864.^{189, pp 153-4}

Biography: •

BIOGRAPHICAL SKETCH

W. R. ECKART

The Company's Consulting Engineer, a Veteran Foremost in His Profession on the Pacific Coast

Ohio has produced more presidents than any other state. There may be something in the environment or something in the consciousness of the great achievements of her famous sons that impels a goodly percentage of Ohio-born men to advance to positions of prominence. The incentive of close example, the germ of ambition, whatever it be, the Ohio man at his best climbs above the average that start under like circumstances. Who today are the half dozen great engineers on the Pacific slope? You can't name

them and omit W. R. Eckart from the front rank. For more than forty years his life has been identified intimately and exclusively with most of the great engineering problems and developments of this part of the world.

He began life as an Ohioan sixty-eight years ago, for he was born at Chillicothe June 17th, 1841. His mother's people had been pioneers in the settlement of that part of Ohio. His father was a merchant, with shipping interests in vessels on the great lakes.

First young Eckart attended private schools. Then his mother died when he was 12. After some public schooling in Chillicothe and Cleveland he took a special mathematical course in an academy at Cleveland in the hope of becoming a civil engineer, as he had a relative who was a civil engineer and president of the Marietta and Cincinnati Railroad, which was being somebody in those days! When the boy was in his early teens the father moved to Zanesville, where he had a managing interest in a flour mill. Now it happened that the power for this grist mill came from six water wheels. New wheels had to be installed. Young Eckart was assisting the millwright. And as he worked at setting up those wheels he was noticed. A member of a firm prominent in those days in general mill and steamboat work offered him a place as apprentice. The youth had voyaged a little on Ohio and Mississippi river steamboats, and marine engineering had fascinated him. So he accepted the apprenticeship. The firm's junior partner was manager of the works; he was master mechanic of great ability, and had been apprentice and foreman to Sir Joseph Whitworth in England, when the Whitworth works grew famous for machine tool construction. The manager became young Eckart's friend, his severest and most encouraging critic. No work was done "good enough"; it had to be finished as the best possible. That apprenticeship and those ideas laid the foundation of the Eckart thoroughness and efficiency as a practical engineer.

Participation in steamboat trial trips to test machinery further interested the apprentice in marine engineering. July 2d, 1861, he took the government examinations and passed them with the rank of No. 1 of his date. He was appointed a third assistant engineer and ordered to join the United States naval fleet at San Francisco.

During his three years of naval duty, from the time he was 20 till he was 23, he made the acquaintance in San Francisco and gained the lasting friendship of the foremost men then in the engineering profession in California — Paul Torqua, Joseph Moore, Irving M. Scott, Wallace Hanscom, Huttner, Specht. Because of poor health he resigned from the navy and decided to make his home in San Francisco. He secured employment in 1864 in the drafting room of H. J. Booth & Co., a concern that manufactured mining machinery and repaired coast steamships. Irving M. Scott was the company's chief draftsman at that time. A year later Eckart, then 24, was chief draftsman, and August 30th, 1865, the Booth & Co. shops turned out from Eckart's designs and drawings the first locomotive manufactured in California. The trial run was made that day on the

railroad from San Francisco to San Jose, with the governor, state and city officials, and other notables as invited passengers.

In 1867 Eckart went east, passed the examinations that licensed him to be a first-class chief engineer in the merchant marine, and then returned to California and continued his work with Booth & Co. In February of 1869, after nearly five years with the concern designing mills and mining machinery, he resigned to accept the appointment as draftsman to the steam engineering department at the Mare Island Navy Yard. That was when he was 27. He became foreman machinist, and was finally promoted to superintendent of steam machinery at the navy yard. He designed steam machinery, propellers, and dynamometers for the noted experiments made by the government with "steam launch No. 4."

When he was 30 he left the navy yard to become a partner in the Marysville foundry firm of Prescott, Scheidel & Co., later styled Booth & Eckart. The firm built a great variety of hydraulic and mining machinery. Because of his experience in the experiments with the government launch Eckart guaranteed a speed of 21 miles an hour when taking the contract to build the little steamer Meteor for the Carson Lumber Company's use on Lake Tahoe, and the Meteor made the speed and was at the time the fastest boat of its size in the world.

At 31 Eckart was appointed consulting engineer in the sinking of the four air shafts for the famous Sutro tunnel in Nevada. He spent months experimenting at Virginia City, collecting in his minute and methodical way data necessary to a commanding understanding of the whole situation. It was nasty, suffocating work, deep down in the mines, in a steamy, reeking atmosphere, where drops of subterranean water blistered the skin.

He had already designed the hoisting and drainage works for the Belcher, Yellow Jacket, Ophir, C. & C., and other historic mines.

In 1873 he established his residence in Virginia City as the consulting engineer for that remarkable quartette of bonanza kings, Mackay, Flood, O'Brien, and Fair.

About 1876 it became evident to the big operators on the Comstock Lode that heavy and powerful pumping and hoisting machinery would have to be installed to operate at a depth of 2,000 or 3,000 feet below the 1,600-foot level to be tapped by the Sutro drainage tunnel, which was then in 15,500 feet and had about 5,000 feet still to go to reach the lode. Prescott, Scott & Co. and the Risdon Iron Works were keen competitors for the contracts to construct the desired machinery. The firm that could produce an acceptable design first usually got the job. So Prescott, Scott & Co. sent Eckart down to San Francisco to help Irving M. Scott with the designs. And there was where Eckart's earlier collection of minute data counted. While he did not design the great hydraulic pumps of the Comstock, his experiments in 1880 and 1881, while a member of the United States Geological Survey preparing his government report on the "Mechanical

Appliances of the Comstock Lode," became classics for the information of engineers, as the problems involved things not before undertaken in engineering and difficulties of a peculiar nature because of the great depth and the subterranean hot waters encountered.

About 1880, when deep mining on the Comstock began to decline, Eckart, then 39, moved to San Francisco and opened an office as a consulting engineer, and for ten years designed or supervised the construction of works for many well-known mines in California, Utah, and old Mexico. He made the plans for the Anaconda Copper Works in Montana and the hoisting and reduction works for Haggin and Tevis. In 1896 he solved the problem of getting the water out of the Alliston Ranch Mine at Grass Valley, which had lain idle and its lower levels bafflingly submerged for thirty years.

When the Union Iron Works entered upon its great career of warship building Eckart was engaged as its consulting engineer, and as such he assisted in conducting most of the preliminary and official trial trips and in rendering the reports.

In 1899 he was appointed consulting engineer for the Standard Electric Company, now owned by the Pacific Gas and Electric Company, and then became its resident constructing engineer for all its hydraulic works, reservoirs, pipe lines, ditches, and power houses. Those were the days of pioneering in long-distance transmission of electric energy, and Eckart, who, more than a generation earlier, had taken so prominent a part in the work on the Comstock of getting the boiling water out of the depths of the Sierra Nevada mountains, was among the first to solve the problem of getting the melting snows from the tops of those same mountains down to hydroelectric plants that would transmit the energy on 200 miles to the local needs of the coast cities. Since 1907 he has been consulting engineer for the Pacific Gas and Electric Company.

His life has been busy but unobtrusive, his achievements in his profession many, and his recognition partly expressed by membership accorded him in the most prominent engineering societies of American and England.²⁴⁴

- WILLIAM ROBERTS ECKART, M. Am. Soc. C. E.
DIED DECEMBER 8TH, 1914.

William Roberts Eckart was born on June 17th, 1841, at Chillicothe, Ohio. His father, William R. Eckart, was a merchant of prominence, who, at one time, had large shipping interests on the Lakes and, later, a managing interest in the Putnam Flour Mills, at Zanesville, Ohio. His mother was member of the Carlisle family, pioneers in the settlement of Ohio.

After attending the public schools of Chillicothe and Cleveland, Mr. Eckart, having determined to take up the Profession of Civil Engineering, took a special course in mathematics at the St. Clair Street Academy, in Cleveland. Accepting the opportunity of serving an apprenticeship in the works of Griffith, Ebert, and Wedge, a firm of good

reputation for general mill and steamboat work, he had the good fortune to come under the observation and to obtain the friendly interest of the junior partner, Mr. Wedge, who had had exceptional opportunities, in the shops of Sir Joseph Whitworth, in the manufacture of machine tools requiring extreme accuracy of construction. The effect of Mr. Wedge's insistence that "the best" was to be attained, was not lost on Mr. Eckart, but supplemented his natural ability and became apparent in all his work.

It was natural that his early opportunity to work on steamboat construction and to participate in trial trips, awoke in Mr. Eckart a desire to enter the Government service as a Naval Engineer. The application was made, and in the examinations of June, 1861, he received the highest rating of all applicants of that date.

On July 30th, 1861, he was appointed Third Assistant Engineer and ordered to join the fleet of naval vessels on the Pacific Coast. He arrived in San Francisco in the latter part of 1861, and soon became well known among, and formed friendships with, California's foremost engineers, including Paul Torqua, Joseph Moore, Irving M. Scott, Wallace Hanscom, Huttner, Specht, and many others.

In 1864, after resigning from the Navy on account of ill health, Mr. Eckart entered the employ of H. J. Booth and Company, at San Francisco, under Mr. Irving M. Scott who was Chief Draftsman, and was engaged principally on the design of mining machinery and steamboat work. As Chief Draftsman with the same firm, Mr. Eckart designed the first locomotive built in California, which was given its trial trip from San Francisco to San José on August 30th, 1865.

In 1869, Mr. Eckart, then holding a license as First-Class Chief Engineer in the Merchant Service, accepted appointment as Draftsman in the Steam Engineering Department of the Mare Island Navy Yard, where, later, he was Foreman Machinist and Superintendent of Steam Machinery. A report by Mr. B. F. Isherwood and Mr. Eckart to the Secretary of the Navy on the relative efficiency of different propellers, and dynamometers used in making the necessary experiments. ["On Marine Propulsion," Transactions, Inst. of Naval Architects of London, 1872, Vol. XIII, p. 315.]

In 1871, Mr. Eckart left the Navy Yard, and entered into partnership with Prescott, Scheidel and Company, at Marysville, the firm name being afterward changed to Booth and Eckart. This firm specialized in hydraulic, milling, and mining machinery, and by reason of its favorable location did a prosperous business.

In 1876, the firm of Prescott, Scott, and Company, which succeeded that of H. J. Booth and Company, took some large contracts for pumping machinery for the Comstock Mines, and Mr. Eckart was recalled to San Francisco to assist in its design and to superintend its construction. By this time quite a rivalry had sprung up between Prescott, Scott, and Company (The Union Iron Works), and the Risdon Iron Works, in producing designs of machinery to handle the water and ores at Virginia City.

At this date the Sutro Tunnel was "in" 15,500 ft., had 5,000 ft. more to go, and would

strike the Comstock Lode just below the 1,600-ft. level. The mine owners were already realizing that nothing but the heaviest and best designed machinery would meet the requirements on all the workings below the tunnel and, therefore, designs for pumps and hoists of large capacity to reach 4,000 ft. below the surface were decided on and called for. Not only the great depth, but also the ventilation and sinking of shafts in virgin ground abounding in large but unknown quantities of hot water to be met and overcome, presented problems unparalleled in engineering experience in any part of the world, and Mr. Eckart had a large share in dealing with and overcoming these conditions.

Having acted as Consulting Engineer for Sutro in sinking four shafts on the line of the tunnel, the investigations then made helped him materially when, in 1876, the orders came for the large pumps and hoists. He spent months in Virginia City experimenting, taking "cards" from pumps where the water would "boil an egg" and the vapors "airbound the pumps", and where the expansion and contraction strains due to great changes in temperature often wrecked the heaviest castings. The knowledge thus gained was of great advantage to the firm he represented.

About this time, Mr. Eckart moved to Virginia City and became Consulting Engineer to the "Bonanza Firm," consisting of Messrs. J. W. Mackay, I. C. Flood, J. J. O'Brien, and James G. Fair, which owned or controlled nearly all the "North End" mines. During this time, he was Manager of the Fulton Foundry, at Virginia City. In 1878, he was also appointed United States Deputy Mineral Surveyor for the State of Nevada. During the following two years, a great part of his time was occupied in the underground workings of the Virginia City and Gold Hill Mines, investigating, planning, repairing, and improving the pumps and machinery, as the mines grew deeper and the water kept increasing. While still a resident of Virginia City, he, in connection with Mr. W. I. Salkeld, a noted millwright of the time, designed and built the Bulwer Standard Mill, at Bodie, which, at that time, was one of largest pan mills for working ore.

During the early part of 1880, Mr. Eckart was appointed a member of the U.S. Geological Survey under Mr. Clarence King, and was given charge of investigating and reporting on "The Mechanical Appliances of the Comstock Lode." On this work, which was practically a labor of love, he spent nearly two years collecting data, testing pumps, engines, and hoists, and making drawings for the Government of all the machinery on the Comstock. The finest instruments procurable in the United States and Europe were used in the various investigations of efficiency. Hydraulic indicators tested and calibrated for from 500 to 5,500 lb. per sq. in. were used in testing the hydraulic pumps designed for the Cholar, Norcross, and Savage Shafts. Chronographs, to measure and record the velocities of engines and pump rods, accurate to 1/500 sec., were used on the surface and at a depth of 2,500 ft. The use of this instrument enabled results to be obtained which became of great value; diagrams taken from the heavy rods and pumps

on the lower levels gave the clue to the location of the strains which had been so destructive in breaking rods and balance bobs in the past. The velocity curves of the rods and pumps revealed the fact, not theretofore known, and only in recent years properly understood, that the elasticity of long rods could give rise to free vibrations which at times were superposed on the force vibration and accelerations due to the engines and pumps, so that maximum vibrations and strains resulted at certain parts of the rods, which exceeded the elastic limit of the timber of which the rods were constructed. Changes were thus determined in the location of balance bobs and weights, which increased the efficiency of the pumps and checked the destruction of the rods and bobs. Some of these velocity diagrams, as well as illustrations of the largest pump engines and the hydraulic pumps, were published by Professor A. Riedler, of Berlin, while acting as Commissioner of Mines to the German Government in 1893.

In 1881, Mr. Eckart removed to San Francisco and opened offices there as a Consulting and Constructing Engineer and, during the following eight or ten years, some of the largest and most important mining plants were designed and constructed under his supervision. The pumping engine for the Ontario Mine, with perhaps the largest Cornish pump for deep mining ever built in the United States, was constructed from his designs during this period. The pumps were 20 in. in diameter, with 10-ft. stroke; two pumps at each station operated from one pump rod, 2,000 ft. long. In 1881, he began, for Haggin and Tevis, plans for all the Anaconda Copper Works, Hoists and Reduction Works, in Montana, which were started as a silver mill with a capacity of less than 350 tons per day, were increased in size and changed by addition until, in 1888, they were capable of working 3,000 tons per day. He designed and carried out much other work for the same firm.

In 1883, the Union Iron Works was changed to an incorporated company, and Mr. Eckart was retained as Consulting Engineer in matters pertaining to the propelling power of the Government vessels built by that Company. He was present at and assisted in conducting nearly all the preliminary and Government trials of these vessels.

In 1899, Mr. Eckart was appointed Consulting Engineer to the Standard Electric Company, and afterward became Engineer in charge of construction as well. He continued to act as Consulting Engineer after the completion of the plant, and after the Pacific Gas and Electric Company acquired his property as a part of its great power system, he was retained in the same capacity by the latter company, in connection with the hydroelectric branch of the work.

In 1907, the Snow Mountain Water and Power Company engaged Mr. Eckart as Consulting and Constructing Engineer, and he was connected with that company until he retired from active business at the close of 1913. He continued in the employ of the Pacific Gas and Electric Company, however, to the day of his death, which occurred on December 8th, 1914, at the residence of his son, Mr. W. R. Eckart, Jr., in Palo Alto, Cal.

He is survived by his widow, Harriet Louise Eckart, and four children, W. R. Eckart, Jr., of the Leland Stanford, Jr., University, Charles F. Eckart, Olaa, Hawaii, Nelson A. Eckart, M. Am. Soc. C. E., of San Francisco, and Mrs. C. E. Hume, of Piedmont, Cal.

Mr. Eckart had unusual talent as an experimenter and investigator. His methods were thorough, painstaking, and accurate, and his records of tests and experiments could always be regarded as absolutely trustworthy. Most of the special instruments and devices needed in his various investigations were designed and made by himself. Among such instruments was a "Chronograph for Engineering Purposes, with the Hipp Escapement", described under that title by him in a paper [Transactions, Am. Soc. Mech. Engrs., Vol. 3, p. 184] presented before the American Society of Mechanical Engineers, in 1882. In the discussion of that paper, the late Robert H. Thurston, M. Am. Soc. C. E., of Cornell University, speaks of Mr. Eckart as follows: "He is a very careful worker. In fact, I have not met in the profession a man who seemed better adapted to the application of fine measurements to experimentation on the steam engine." This instrument was devised for use in the investigations made by Mr. Eckart on the Cornish pumps of the Comstock Lode, and was used subsequently in other investigations requiring accurate time measurements.

As a man and among his colleagues, Mr. Eckart had the admiration of all who knew him. He was a hard worker, always going to the bottom of his problems; and the mass of data which he had accumulated and the results of his ripe experience, were at the service of this colleagues whenever he was appealed to. His friendly help has been appreciated and will be remembered by all who have worked or conferred with him.

Mr. Eckart was honored by membership in the following Engineering Societies: American Society of Mechanical Engineers, April, 1882; Institution of Mechanical Engineers, London, January, 1878; Society of Naval Architects and Marine Engineers, May, 1893; American Society of Naval Engineers; and Associate Member of the Institute of Naval Architects, London.

Mr. Eckart was elected a Member of the American Society of Civil Engineers, on January 5th, 1881.²⁴⁵

• William Roberts Eckart

[excerpt] One need but to see William Roberts Eckart to know that he is a man of forceful character whose habit it is to accomplish what he undertakes and the records show that he has risen to a position of distinction among representative American mechanics and engineers. He was born in Chillicothe, Ohio, June 17, 1841, a son of William Roberts and Eleanor (Carlisle) Eckart. In the maternal line he represents one of the pioneer families of that portion of the state. In 1842 his parents removed to Cleveland, where the father, who was a merchant, had large shipping interests in vessels on the lakes.

William Roberts Eckart, Jr., began his education in a private school of Cleveland but after his mother's death, which occurred when he was but twelve years of age, his time was divided between the public schools of that city and of Chillicothe until he entered upon a special course in mathematics at the St. Clair Street Academy of Cleveland for the purpose of preparing for the profession of civil engineering. In the '50s the family home was established in Zanesville, Ohio, where the father had a managing interest in the Putnam flour mills.^{189, p 153}

- Parents: Chas. M. Gorham & Sarah Holt.⁸¹⁶
- WEDDING. — Miss Hattie L. Gorham, the second daughter of Hon. Charles M. Gorham, Mayor of Marysville, was married in the Presbyterian church yesterday to W. R. Eckart, Esq., of the firm of Prescott, Scheidell & Co., Rev. Dr. McKaig, officiating. A large number were present at the church, and many of the personal friends of the bride and groom subsequently assembled at the residence of the bride's parents and participated in the interchange of kindly sentiments with hearty wishes for the happiness of the young couple. The bride was the recipient of many beautiful and costly presents from her relatives and friends, while the friends of the bridegroom at the Mare Island Navy Yard sent him some momentos made from the "Kearsage" wood in token of Auld Lang Syne. The newly wedded couple departed for San Francisco where the honeymoon will be spent.²⁴⁶

- Robbed A Residence

Thief Gained Entrance by Saying He Was an Electrician

Daniel Morris, said to be a recent arrival from Detroit, is in the City Prison with a charge of burglary opposite his name. He is a well-dressed, smooth-shaved young fellow of about 20 years, and when he called yesterday afternoon at the residence of Mrs. Harriet Eckert [sic], president of the Sorosis Club, at 3014 Clay street, and said he was an electrician sent to test and examine the wires in the house he was admitted. He had with him a canvas bag, apparently containing tools, and after he had made a cursory examination of the apparatus he left, but it was noticed that the contents of the canvass bag were more bulky than when he came. A hurried investigation revealed the fact that an electrical tape machine valued at about \$50 was missing. The police at the O'Farrell-street Station were notified, and Policeman Joseph Feld found Morris on Broderick street with the bag and contents in his possession. He was paraded before the detective force last night, but none had ever seen him before.³⁸⁸³

The splendid types of little women depicted in this book are often met with in life. You have become so well acquainted with them through reading of them that they are like friends to you, and have helped you to learn the value of true friendship. –

A true friend is an inspiration as well as a comfort, not so much by what he does for us as by what he incites us to do and to be, because of his example, his deeds, and his ideals. May this book prove to be such a friend to you.

• This 1918 letter is written to an unknown person since he had no actual sister. "Sister" is likely a term of affection for his sister-in-law Harriet Louise Gorham Eckart, the presumed recipient of the letter [excerpts]:

My dear Sister

We were greatly pleased to get your letter, as we always are to hear from you.

As regards the genealogy of the Eckart family, I don't think there is any German about it excepting the name. Father was a native of Quebec, Lower Canada, and I never heard him mention anything about any German ancestry. On the contrary I was told that his youngest Sister, Annie Winslow Eckart, had gone to London, and had the genealogy of the family looked up in England. Father and his eldest sister, whom I knew, were both fluent French scholars, but could not speak German, their knowledge of French, was I presume occasioned by their living in Quebec which was largely settled by French. The above is all the information I can give regarding the family. Of one thing I am sure, if there is any German blood in me it is most thoroughly Americanized.¹⁵²

- Cashier and Manager of the Northern California Bank of Savings, is a native of Ohio, aged forty-five years, and has resided in this city a majority of the time since 1872, and has been engaged in bookkeeping and banking business all of the time. He is one of the best informed men in matters pertaining to banking business that can be found in the State, and was the leading spirit in establishing the present bank of which he is Manager, and which has been so successful in business.

The Northern California Bank of Savings was incorporated December 7, 1889, and commenced business in January, 1890, having as was supposed at the time, but slight prospects of meeting with success in a city of this size where there already two well-established commercial banking institutions. During the first six months, to July 1, 1890, the deposits amounted to \$158,388.82, and at the end of the first year, January 1, 1891, the amount had grown to \$237,260.79, and the number of depositors was 553, which was far in advance of the expectations of its projectors. Then it became necessary to have additional assistance, and to meet the demands the President, J. U. Hofstetter, assumed a share of the business, and joined Mr. Eckart in the active work.³³⁵⁶

- GEORGE R. ECKART. A man of energetic activity and of strong force of character, G. R. Eckart, of Marysville, as cashier of the Northern California Bank of Savings, occupies an assured position among the leading business men of Yuba county. A native of Ohio, he was born June 11, 1845, in Cleveland, of English ancestry. His father, W. R. Eckart, moved from Quebec, where his birth occurred to Ohio when a young man, settling in Cleveland, where he was engaged in business as a miller and a commission merchant until his death. He married Eleanor Carlisle, who was born in Chillicothe, Ohio, where her father, John Carlisle, was a pioneer resident, settling there in 1798. Mr. Carlisle was a merchant of prominence, a man of influence in public matters, and a Republican in politics. Of the union of Mr. and Mrs. W. R. Eckart, three sons were born, of whom two survive [sic], namely: William R., of San Francisco, a prominent civil and mechanical engineer, and George R.

Brought up in Ohio, George R. Eckart received his rudimentary education in the public schools of Cleveland and Chillicothe, and while living in Putnam, a suburb of Zanesville, where his father had a mill, he was graduated from Zanesville high school. Coming to California in 1872, he located in Marysville, and the following year entered the bank of Rideout & Smith as bookkeeper and accountant...

In Marysville, Cal., Mr. Eckart married Miss Josephine Bilhartz, a native of this city. Mr. Eckart is very prominent in Masonic circles... He takes an active interest in politics, and invariably supports the principles of the Republican party. For four years Mr. Eckart was city treasurer, and for a number of terms served as a member of the city board of education. In 1904 he was the Republican nominee for mayor of Marysville and was elected in March of that year. He is a member of the Chamber of Commerce,

and of the California Bankers' Association.²⁰⁹, pp 297-8

- 1904-5: Mayor of Marysville, City Councilman, etc.²¹¹, pp 171-2

- George R. Eckart being duly sworn disposes and says:

That he is a citizen of the United States, a resident of the City of Marysville, County of Yuba, State of California, of the age of sixty-nine years, and his Post Office address is Marysville, Yuba County, California, that for the last twenty-five years, he has been and now is the Cashier of the Northern California Bank of Savings in said City of Marysville.²⁵⁴

- I did meet the wife of George R. Eckart in San Francisco, in the 1930s. Her husband had died as a result of an accident. He had gotten caught between two streetcars, on Market Street, while crossing the street. She passed away a few years later.³⁴⁵⁰

- Also, they have nothing on Serena Frances King, unfortunately. My dad and stepmom (Loyd and Donna Wilbur – I think you have “met” them over the internet) went to Oroville to look up the marriage of Serena and George, thinking maybe Serena's parents would have signed permission to allow them to marry. But on the form it didn't have any names, it just said, “Parents give permission.”⁷³¹⁹

- It is with deep regret that we announce the death of Serena Frances, the beloved wife of George R. Eckart, which took place rather suddenly at her residence on Seventh street, Saturday evening. The immediate cause of death was heart disease, superinduced by childbirth.

The deceased was a most estimable lady, possessed of every virtue that should adorn a woman.

The blow was sudden and unexpected, and came at a time when Mr. Eckart was very

busy as Secretary of the Thirteenth District Agricultural Society, making preparations for the fair. He has the sympathy of the community. The funeral notice is advertised in another column.⁷⁵⁴⁹

Charles Arthur

• On my way to Cornell in summer of 1891, I stopped off at South Bend, Indiana to visit Charlie Carlisle at Tippecanoe, the home of the Studebakers. Found they were at French Lick Springs on a Tally-ho trip but would be back before dinner. I was showed to a bed room to wait. A valet wanted to get out my dress suit, of which I had none...Nothing but the light suit I was traveling in. Anyway when they came everybody was very pleasant & put themselves out to be nice. Charlie Carlisle afterwards visited me in Palo Alto one day.³⁹⁰⁹

- Colonel Charles Arthur Carlisle, industrialist and banker, died today at his home here after an illness of six years. His age was 74.

Colonel Carlisle was born in Chillicothe, Ohio, and in 1883 he entered the services of the Marietta & Cincinnati Railway. He was for a time with The Ohio State Journal and after that with the Nickel Plate Railroad and Toledo & Ohio Railway, the Toledo, Columbus & Cincinnati Railways at various times before coming to South Bend in 1892.

Since that time Colonel Carlisle served as purchasing agent and advertising manager of the Studebaker Corporation for twenty-three years and as a director of the South Bend Fuel and Gas Company, the Chicago & South Bend Railway, the South Bend Malleable Iron Company; Milmore Corporation, the Perkins Corporation and the Security Life Insurance Company of Chicago.

Colonel Carlisle was married on Sept. 17, 1891, to Miss Anna Studebaker, only daughter of the late Mr. and Mrs. Clem Studebaker. She died on Jan. 3, 1931. Two daughters and three sons survive.⁶⁶⁵²

Isabella Barr CARLISLE - GG Granddaughter

Birth: 25 May 1867, Chillicothe, Ross, Ohio⁹, p 9; date only,³¹⁷⁹, place only

Death: aft 5 Apr 1930⁵⁶⁹¹

Father: **Meade Woodson Clay CARLISLE** - G Grandson
(26 Oct 1828-on or abt 4 Feb 1913)

Mother: **Emma Valeria BARR** (Sep 1838-1919)

- 11 Oct 1907: Isabella was served with a summons and complaint in Los Angeles, CA.

25 Nov 1907: Summons, complaint, affidavit and order limiting time to answer were filed.

During the divorce hearings, Isabella never appeared or appointed a lawyer to represent her. She did not respond to any of the papers, including the Jan. 9, 1908 Judgment and Decree which decreed that Raby pay Isabella \$40/month until January 1, 1910.

Raby Plank (as indicated in the Findings and Order for Decree) declared that Isabella left him June 2, 1906, and Minnesota, September 29, 1906. (Raby never moved from Minnesota.)

Family stories passed on the information that Isabella Plank mysteriously disappeared, never to be heard from since. [There was also a rumor within the family that Isabella might have been murdered.]

In 1902, Raby Plank Publishing Co. published Isabella Carlisle Plank's book of poems, *A Woman's Voice*. Mr. Plank was employed by Harrison & Smith, the company which printed *A Woman's Voice*. As of April, 2001, this book was owned by seven libraries across the country, including the Library of Congress, University of Minnesota Library, Minneapolis, Buffalo and Erie County Public Library, and Oberlin College Library.

The dedication in the book is as follows: "To those who have so ardently wished for me death of the mind, and heart, and soul; as well as to my beloved Living and Dead." The Author. Eaglehurst, Jan. 1st, 1903.³¹²⁷

Isabella Barr

- Isabella mysteriously disappeared, according to court papers filed by my [Kate Plank Sage] grandfather, on Sept. 29, 1906. (They filed the papers in L. A. city and county, CA. However, Isabella never appeared or even had an attorney to represent her. She was due alimony, however, never having showed, it seems she never got any. I hired someone in LA to look for her in LA around that time. He said there was no record of her having lived there.)

I find it most interesting that no one in my family - sibs or father - knew much of anything about her - including her name. [Rumors were that she was a prostitute, went after my grandfather with a butcher knife, disappeared off the face of the earth mysteriously, and was possibly murdered by my grandfather.] Those rumors inspired me to begin research last spring just after my mother died, only to find - my grandfather was married to Isabella for 17 years! (My dad didn't know his dad had been married until he was in his mid to late teens. I doubt he knew how long.) During their marriage, Isabella authored a book of poems called *A Woman's Voice*, which my grandfather, through his company, published and printed!³¹⁸⁰

• I was born in Fayette Co., Ky, on Mar. 9th, 1795. I settled in Boone County in 1819, on the present site of Columbia, I built the first cabin, ever erected in the town. I lived in Boone County over thirty-eight years; I moved to Lexington, MO, where I lived fifteen years, when I removed to my present residence in Audrain [County] fives miles north of Sturgeon. I am disfranchised.

ADAM C. REYBURN

Note: Disfranchised: To deprive of a privilege, especially the right to vote.

Specifically, in the context of Missouri, 1870, it means they were Confederate veterans who refused to sign a loyalty oath to the United States...not an uncommon situation for the time and place.^{3826, P 7}

Joseph RAYBURN^{2711, p 2} - Grandfather

Birth: 1682, Waser, Staffordshire, England^{1281, p 42,2711, p 5}
Death: Augusta County, Virginia^{2711, p 5,3826, p 36}
Memo: Moffett's Creek
Occupation: As a bound shoemaker apprentice to Bryan Blundell for 5 years^{2711, p 5}

- It now appears that most of those of that name [Rayburn] are descended from Joseph who arrived in Virginia in 1698.

The name is spelled in many ways but all spellings seem to trace back to the same ancestry. Even the Rabuns and Rabons of the Carolinas and further South are probably of the same stock.^{1281, p 5}

- Joseph, the reputed first immigrant, arrived in 1698 from Staffordshire, England as a bound servant to one Bryan Blundell of Virginia. Diligent research has found nothing more regarding him until his large family appears in the records of Augusta County. Tradition implies a family of about 6 or 7 children but we are certain of only James and Angy.^{1281, p 10}

- He sailed from Liverpool to Virginia on August 27, 1698. At an unknown date prior to 1698, his parents, himself and possibly other children sailed from an unknown port in Ireland, bound for an unknown port in England, where they were going to board another ship for America. During the voyage, the ship sank and the entire family, except Joseph, was lost. His age at that time is unknown. Then, in 1698, he is listed as being from Waser, in Staffordshire, near the west coast of England and is apprenticed to Bryan Blundell as a shoemaker for five years making him 16 years old at that time. If he had relatives in Waser, or if this orphaned boy was taken in by some kind family, is not known. Thought to have had 6 or 7 children.^{3826, p 36}

• The following was written by my great grandfather, William Roberts Eckart, on very thin onion skin paper with brown ink, so this has been copied from a primary source.
• I sent this off to a man who was/is researching the Comstock & hydraulics etc. engineers of this period - particularly interested in WRE's designing of the steamboat Meteor which resides at the bottom of Lake Tahoe & of which there is talk of its being raised.
